SUBCHAPTER B—LOANS, PURCHASES, AND OTHER OPERATIONS

[1962 C.C.O. Cotton Bulletin 1, Amdt. 1]

PART 427—COTTON

Subpart—1962 Cotton Loan Program Regulations

SCHEDULE OF BASE LOAN RATES FOR UPLAND COTTON

Correction

In F.R. Doc. 62-6810, appearing at page 6693 of the issue for Saturday, July 14, 1962, the following changes are made in the schedule in § 427.1330:

1. Under "Georgia", "Barnesville City, Lamar County", the "basis middling white inch loan rate" should read "33.33" instead of "33.32";

2. Under "Oklahoma", "Erick City", the County should read "Beckham" instead of "Bleckham";

3. Under "South Carolina", an additional entry should be added at the end of the schedule to read as follows:

<i>City and county</i>	<i>Basis Middling white inch loan rate</i>
* * *	* * *
York, York.....	33.51

Chapter VIII—Agricultural Stabilization and Conservation Service (Sugar), Department of Agriculture

SUBCHAPTER B—SUGAR REQUIREMENTS AND QUOTAS

[Sugar Reg. 811, Amdt. 4]

PART 811—CONTINENTAL SUGAR REQUIREMENTS AND AREA QUOTAS

Requirements and Quotas for 1962

Basis and purpose. In Sugar Regulation 811 for 1962 (26 F.R. 11963; 27 F.R. 3733, 4585, 5255), the Secretary made the determination that 9,700,000 short tons, raw value of sugar were needed to meet the requirements of consumers in the continental United States for the calendar year 1962 and established sugar quotas for the six-month period ending June 30, 1962, for the supplying areas except Cuba in terms of short tons of sugar, raw value. The Sugar Act of 1948, as amended, and as further amended and extended by the Act enacted July 13, 1962, is hereinafter referred to as "Act".

The purpose of this amendment is to establish sugar quotas pursuant to the

Act in terms of short tons of sugar, raw value, for domestic sugar-producing areas and the Republic of the Philippines for the calendar year 1962, and to establish prorations and allocations for certain foreign countries other than the Republic of the Philippines, and a quantity of sugar for importation from foreign countries as a group, for the six-month period ending December 31, 1962.

In addition, this amendment establishes: (1) The import fee applicable to sugar imported from foreign countries as provided by section 213 of the Act, (2) the amounts of certain quotas that may be filled by direct-consumption sugar as provided for by section 207 of the Act, and (3) the liquid sugar quotas as provided by section 208 of the Act, for the calendar year 1962.

It is essential that quotas for 1962 established by this amendment be effective immediately so that persons who sell, purchase and import sugar will have adequate foreknowledge to permit the necessary arrangements for purchase and shipment of sugar and provide for an orderly flow of sugar in the early days of July and throughout the remainder of the year. Accordingly, it is hereby found and determined that compliance with the notice, procedure and effective date requirements of the Administrative Procedure Act is impracticable and contrary to the public interest and the amendments set forth in this regulation shall become effective when filed for public inspection in the Office of the Federal Register.

By virtue of the authority vested in the Secretary of Agriculture by the Act, the above identified Sugar Regulation 811 is hereby revised to read as follows:

Sec.

- 811.1 Sugar requirements, 1962.
- 811.2 Quotas for domestic areas.
- 811.3 [Reserved.]
- 811.4 Quotas for foreign countries.
- 811.5 Import fee.
- 811.6 Applicability of quotas.
- 811.7 Restriction on importations and marketings within quotas.

AUTHORITY: §§ 811.1 to 811.7 issued under sec. 403, 61 Stat. 932, 7 U.S.C. 1153. Interprets or applies secs. 201, 202, 207, 208, 209, 210; 61 Stat. 923, as amended, 924, as amended, 927, as amended, and 928, as amended, sec. 213 as added by the Act enacted July 13, 1962; 7 U.S.C. 1111, 1112, 1117, 1118, and 1119.

§ 811.1 Sugar requirements, 1962.

The amount of sugar needed to meet the requirements of consumers in the continental United States for the calendar year 1962 is hereby determined to be 9,700,000 short tons, raw value.

§ 811.2 Quotas for domestic areas.

(a) For the calendar year 1962 domestic area quotas limiting the quantities of sugar which may be brought into or marketed for consumption in the continental United States are established in column (1) and the amounts of such

quotas for offshore areas that may be filled by direct-consumption sugar are established in column (2), as follows:

[Short tons, raw value]

Area	Quotas (1)	Direct-consumption limits (2)
Domestic beet sugar.....	2,650,000	(1)
Mainland cane sugar.....	895,000	(1)
Hawaii.....	1,110,000	33,174
Puerto Rico.....	1,140,000	145,500
Virgin Islands.....	15,000	0

¹ No limit.

(b) Of the quantity established in paragraph (a) of this section for Puerto Rico which may be filled by direct-consumption sugar, 126,033 short tons, raw value, may be filled only by sugar principally of crystalline structure.

§ 811.3 [Reserved]

§ 811.4 Quotas for foreign countries.

(a) Until amended, the quotas or prorations for foreign countries limiting the quantities of sugar which may be imported into the continental United States during the calendar year 1962 and the six-month period ending December 31, 1962, for consumption therein and the amounts of such quotas and prorations that may be filled by direct-consumption sugar are hereby established as set forth in the following paragraphs (b), (c), (d), (e), and (f) of this section. All importations of sugar within the prorations or quantities established in paragraphs (c), (d), and (e) of this section are conditioned upon the payment of a fee as provided in § 811.5.

(b) For the calendar year 1962, the quota for the Republic of the Philippines is 1,050,000 short tons, raw value, and the amount of such quota that may be filled by direct-consumption sugar is 59,920 short tons, raw value.

(c) For the six-month period ending December 31, 1962, the prorations for individual foreign countries of the quota for foreign countries other than the Republic of the Philippines are as follows:

Country:	Short tons, raw value
Peru.....	71,635
Dominican Republic.....	71,635
Mexico.....	71,635
Brazil.....	68,005
British West Indies.....	34,056
Australia.....	15,053
Republic of China.....	13,238
French West Indies.....	11,316
Colombia.....	11,316
Nicaragua.....	9,395
Costa Rica.....	9,395
Ecuador.....	9,395
India.....	7,580
Haiti.....	7,580
Guatemala.....	7,580
South Africa.....	7,580
Panama.....	5,658
El Salvador.....	3,848
Paraguay.....	3,736

Country:	Short tons, raw value
British Honduras.....	3,737
Fiji Islands.....	3,736
Belgium.....	91
Unprorated.....	9,312

On the basis of information available, it is found that in the calendar year 1961 the aggregate exports of sugar in each case from the United Kingdom, Canada, Hong Kong and the Netherlands to countries other than the United States did not equal or exceed the aggregate imports into each of such countries. Consequently, under the provisions of section 202(e) of the Act, sugar may not be exported from such countries to the United States during 1962 to fill the quota prorations for the six-month period ending December 31, 1962, for the United Kingdom, Canada, Hong Kong and the Netherlands in the respective amounts of 258, 316, 2 and 3,736 short tons, raw value.

(d) For the six-month period ending December 31, 1962, the amount of each proration established in paragraph (c) of this section that may be filled by direct-consumption sugar is as follows:

Country:	Short tons, raw value
Nicaragua.....	9,395
Haiti.....	1,175
Republic of China.....	3,795
Panama.....	3,817
Costa Rica.....	1,944
Belgium.....	91
Guatemala.....	3
Ecuador.....	3

(e) For the six-month period ending December 31, 1962, the amount of sugar available for authorization for purchase and importation from foreign countries as a group, pursuant to section 202(c) (4) of the Act, in addition to the quantities established as the quota for the Republic of the Philippines for the calendar year 1962 in paragraph (b) and the quota prorations for individual foreign countries for the six-month period ending December 31, 1962, in paragraph (c) of this section, is 616,743 short tons, raw value. At this time, of this total quantity, 300,000 short tons, raw value, is authorized for purchase and importation provided authorization for release of sugar within this quantity is issued in accordance with the provisions of Part 817 on or before August 15, 1962, and such sugar is scheduled to arrive in the continental United States on or before September 30, 1962. It is hereby found that the total quantity of 300,000 short tons, raw value, may not be reasonably available as raw sugar to supply our requirements during such period. Accordingly, sugar testing in excess of 99 degrees polarization and raw sugar may be authorized for release within the quantity of 300,000 short tons, raw value, all of such quantity to be further refined or improved in quality in the United States in accordance with the requirements of Part 810 of this Chapter. Sugar may be authorized for purchase and importation within the quantity of 300,000 short tons, raw value, established in this paragraph only from countries with which the United States is in diplomatic relations and from countries that had in the calendar year 1961 aggregate ex-

ports of sugar to countries other than the United States equal to or in excess of aggregate imports. The balance of the 616,743 short tons, raw value, available for authorization for purchase and importation amounting to 316,743 short tons, raw value, is not being authorized at this time.

(f) For the calendar year 1962 the quota for liquid sugar for foreign countries as a group is 2,000,000 gallons of sirup of cane juice of the type of Barbados molasses, limited to liquid sugar-containing soluble nonsugar solids (excluding any foreign substance that may have been added or developed in the product) of more than 5 percent of the total soluble solids, which is not to be used as a component of any direct-consumption sugar but is to be used as molasses without substantial modification of its characteristics after importation.

(g) Quotas or prorations thereof for any foreign country, in subsequent years shall be reduced in accordance with the provisions of paragraph (e) of section 202 of the Act if sugar is imported into the continental United States within the quotas or prorations established in this section in violation of such paragraph (e) of section 202 of the Act.

§ 811.5 Import fee.

(a) As a condition for the importation of any quantity of sugar within the quantity established for foreign countries as a group in paragraph (e) of § 811.4, a fee of 2.4 cents per pound, raw value, shall be paid as provided in paragraphs (d) and (e) of this section.

(b) As a condition for the importation of any quantity of raw sugar within the quota prorations established for individual foreign countries in paragraph (c) of § 811.4, a fee of 0.24 cent per pound, raw value, shall be paid as provided in paragraphs (d) and (e) of this section.

(c) As a condition for the importation of any quantity of direct-consumption sugar within the limitations provided for in paragraph (d) of § 811.4, a fee of 0.34 cent per pound, raw value, shall be paid as provided in paragraphs (d) and (e) of this section.

(d) The fee per pound as established in paragraphs (a), (b), and (c) of this section shall be subject to change by amendment of these regulations effective when filed for public inspection in the Office of the Federal Register. Payment as provided in paragraphs (e) and (f) of this section with respect to an application shall be based upon the fee per pound effective at the time such application first becomes eligible for authorization as provided in § 817.6(b) of this chapter.

(e) The applicable fee established in paragraph (a), (b), or (c) of this section shall be paid by the person applying to the Secretary for authorization for release of sugar for consumption in the continental United States. With each application submitted as provided in § 817.4 of this chapter covering sugar to be imported within the quota prorations and quantity established respectively in paragraphs (c) and (e) of § 811.4, the applicant shall make an initial payment in an amount determined by multiplying

the quantity of sugar stated in pounds as shown on the application by 1.05 and multiplying the result by the applicable fee per pound as established in paragraph (a) or (b) of this section. With each application submitted as provided in § 817.4 of this chapter covering direct-consumption sugar to be imported within the direct-consumption limitation established in paragraph (d) of § 811.4, the applicant shall make an initial payment in an amount determined by multiplying the quantity of sugar stated in pounds as shown in the application by 1.07 and multiplying the result by the applicable fee per pound as established in paragraph (c) of this section. Upon receipt of such an application and initial payment, the Secretary may issue an authorization for release by a Collector as provided in § 817.6 of this chapter of the quantity of sugar covered by the application. The payment required under this paragraph shall be made in the form of a certified check payable to the Agricultural Stabilization and Conservation Service and mailed to the Sugar Division of such Service. Any application submitted for the purpose of changing the date of departure to a subsequent date of not more than fifteen days after the date stated on the application, the port of departure or the port of arrival in the continental United States, the identity of the vessel or carrier, or the identity of the receiver as shown on the original application shall be considered as an amendment to the original application and no initial payment is required to accompany the amendatory application.

(f) In making final settlement with respect to the initial payment provided for under paragraph (e) of this section, a determination will be made of the quantity of sugar in terms of raw value as provided in § 817.7(c) (2) of this chapter with respect to the quantity imported pursuant to each application for the purpose of ascertaining whether any further payment by the applicant or any refund to the applicant is required. Upon such determination further payment shall be made by the applicant in the amount by which the product of the quantity of sugar, raw value, imported multiplied by the applicable fee per pound provided for in paragraph (a), (b), or (c) and in paragraph (d) of this section, exceeds the amount of the initial payment made pursuant to paragraph (e) of this section. Refund to the applicant shall be made in the amount by which the product of the raw value equivalent of the actual quantity imported multiplied by the applicable fee per pound provided for in paragraph (a), (b), or (c) and in paragraph (d) of this section is less than the amount of the initial payment made pursuant to paragraph (e) of this section: *Provided, however*, That, if all or any part of the quantity of sugar which has been authorized for release is not imported into the United States other than for reasons of force majeure, disasters at sea, acts of God, or strikes so extensive and of such duration as to preclude importation, no refund will be made of the amount of the initial payment applicable to the quantity not imported as repre-

sented by the difference between the authorized quantity reduced by 10 per centum (to cover normal shipping losses and normal loading variations) and the quantity imported (commercial weight): *Provided, further, That, upon submission of evidence satisfactory to the Secretary that due to force majeure, acts of God, or strike, precluding exportation of sugar, departure of the shipment or cargo of sugar has been delayed more than 15 days beyond the date of departure stated on the application for authorization for release of sugar, the authorization will be canceled and the initial payment made pursuant to paragraph (e) of this section with respect to the application will be refunded to the applicant.*

§ 811.6 Applicability of quotas.

All sugar and liquid sugar marketed or imported into the continental United States is subject to the provisions of Part 816 or Part 817 of this chapter which prescribe the time, manner and conditions under which quotas, prorations, or quantities made available to countries as a group are filled by the marketing and importation of sugar or liquid sugar. The quantitative limitations established by §§ 811.2 to 811.4, inclusive, do not apply to sugar or liquid sugar marketed or imported pursuant to sections 211 and 212 of the Act in accordance with the provision of Part 816 or Part 817 of this chapter.

§ 811.7 Restrictions on importations and marketings within quotas.

Subject to the provisions of Part 816 and Part 817 of this chapter all persons are prohibited from bringing or importing into or marketing in the continental United States any sugar or liquid sugar in excess of or after after the applicable quota or quantity set forth in §§ 811.2 to 811.4, inclusive, has been filled, or any sugar or liquid sugar as direct-consumption sugar after the direct-consumption portion of the applicable quota has been filled.

STATEMENT OF BASES AND CONSIDERATIONS

The quotas and prorations thereof, the amounts of such quotas or prorations that may be filled by direct-consumption sugar and the limitations on the entry of liquid sugar are established herein pursuant to sections 202, 207, and 208 of the Sugar Act, as amended.

Since the United States is not in diplomatic relations with Cuba, the provisions of section 202(c)(4) of the Act preclude the establishment of the proration for that country of 616,743 tons, raw value. To provide sugar for early arrival, 300,000 tons of that quantity is herein authorized for purchase and importation from any country that is a net exporter of sugar and with which this country is in diplomatic relations. Provision is made that sugar for importation within this quantity must be authorized for release on or before August 15 for arrival on or before September 30. The balance amounting to 316,743 tons is reserved to permit the giving of special consideration to countries of the Western Hemisphere and to those countries purchasing United States agricultural commodities.

Based on expected price relationships, it is hereby found that a fee of 2.4 cents per pound, raw value, will approximate the difference between the market price for raw sugar (adjusted for freight to New York and most-favored-nation tariff) eligible for importation into the United States from foreign countries within the quantity provided pursuant to section 202(c)(4) of the Act and the price for raw sugar at a level that will fulfill the domestic price objective set forth in section 201. Accordingly, as a condition for the importation of sugar within the quantities and quota prorations established in this regulation, fees are provided of 2.4 cents per pound for the quantity authorized for importation from foreign countries as a group pursuant to section 202(c)(4) of the Act; 0.24 cent per pound for raw sugar authorized from individual foreign countries within quota prorations established pursuant to section 202(c)(3) of the Act; and 0.34 cent per pound for direct-consumption sugar authorized for importation within the limitations established pursuant to section 207(e)(2) of the Act.

The procedures for the payment of such fees are established in this regulation. Customarily, the raw value equivalent of sugar importations substantially exceed the actual weight. For this reason, the procedures for computing the initial payment provide that the actual weight of sugar for which authorization for release for further refining is requested shall be multiplied by a factor of 1.05 and then by the fee per pound. Direct-consumption sugar customarily is fully refined and each pound is equivalent to 1.07 pounds, raw value. Accordingly, a factor of 1.07 is used in computing the initial payment for direct-consumption sugar.

Final settlement is to be based upon the pounds of sugar, raw value, imported multiplied by the fee in the case of both raw and direct-consumption sugar if the sugar authorized is actually imported. The importer may apply for authorization to import sugar at any time within the period starting five days before expected sailing or shipment and ending when Customs clearance upon arrival in the United States is requested. This is done to accommodate a variety of sales and shipment agreements and provides the importer the option of fixing the fee at the time of his choice within the above-mentioned period. Once fixed, the applicant may not cancel his request for authorization to take advantage of a lower fee subsequently determined by the Secretary or for other cause except when importation is prevented by force majeure or other enumerated reasons. Subject to stated tolerances to cover normal loading variations and shipping losses, the initial payment is not refundable on sugar not imported.

Issued at Washington, D.C., this 16th day of July 1962.

ORVILLE L. FREEMAN,
Secretary.

[F.R. Doc. 62-7098; Filed, July 18, 1962; 12:30 p.m.]

[Sugar Reg. 817, Amdt.]

PART 817—REQUIREMENTS RELATING TO BRINGING OR IMPORTING SUGAR OR LIQUID SUGAR INTO CONTINENTAL UNITED STATES

Miscellaneous Amendments

Basis and purpose. The purpose of this amendment is to change the regulations of the Department which set forth the procedures governing the importation of sugar and liquid sugar into the continental United States, in order to effectively implement the Sugar Act of 1948, as amended by the Act of July 13, 1962 (hereinafter referred to as the "Act"), and is issued pursuant thereto.

Section 213 of the Act provides for the payment of a fee as a condition for importing sugar within the quotas established for individual foreign countries, other than the Republic of the Philippines, and for sugar imported within the quantity established for foreign countries as a group pursuant to section 202(c)(4) of the Act. Accordingly, this amendment provides that sugar may not be authorized for release for importation until the applicable fee has been paid and provides for the acceptance of a revised application for limited purposes.

In addition, the amendment provides that information not previously required, must be shown on applications for release of sugar to be imported from foreign countries in order that the applicable quota, proration or allocation can be ascertained.

In view of the amendment of the Act approved July 13, 1962, providing for the payment of fees on sugar imported from foreign countries, and to assure continuing supplies of sugar, it is necessary that this amendment be made effective at the earliest possible date. Therefore, it is hereby found and determined that compliance with the notice, procedure and effective date requirements of the Administrative Procedures Act is unnecessary, impracticable and contrary to the public interest and this amendment shall become effective when filed for public inspection in the Office of the Federal Register.

Pursuant to the provisions of section 403 of the Sugar Act of 1948, as amended (61 Stat. 922, as amended) paragraph (a) of § 817.1, paragraph (e) of § 817.4, paragraph (a) of § 817.6 and paragraph (a) of § 817.7 are hereby amended to read as follows:

§ 817.1 [Amendment]

1. Paragraph (a) of § 817.1 is amended by inserting a new sentence at the beginning thereof as follows: "The provisions of this regulation are subject to the provisions of the regulations contained in Part 811 of this chapter."

2. Paragraph (e) of § 817.4 is amended to read:

§ 817.4 Application by importer.

(e)(1) Any application made pursuant to this section for release of sugar to be imported from a foreign country within a quota, proration of a quota,

allocation or a quantity available for importation from foreign countries as a group, shall contain over the signature of the applicant the following certification, except that the second sentence thereof may be omitted on applications for importation from the Republic of the Philippines pursuant to § 811.4(b) of this chapter (Sugar Regulation 811):

The applicant certifies that the sugar covered by this application was produced from sugarcane or sugar beets grown in the sugar-producing country, as identified in this application, and that this sugar is to be imported within the quota or proration of a quota, allocation or quantity established in paragraph ----- of § 811.4 of Sugar Regulation 811. The applicant further states that the initial payment in the amount of \$----- determined on the basis of the fee provided in paragraph ----- of § 811.5 of Sugar Regulation 811, is submitted with this application and affirms that this initial payment is made with full knowledge of the provision made in Sugar Regulation 811 for withholding refund of such payment with respect to sugar authorized for release pursuant to this application and not imported.

(2) Any application made pursuant to this section for a purpose stated in § 817.8 shall contain, over the signature of the applicant, his agreement and certification as follows:

This application is made subject to the conditions of bond on Form SU-17 No. ----- (insert bond number, if already approved) on which -----

(Insert name of bond principal)
principal, and -----

(Insert name of surety)
of ----- is surety, under which
(Address of surety)

all of the sugar authorized on this application to be brought or imported into the continental United States is to be -----

(Insert one of the purposes stated in paragraph (b) of § 817.8)

The applicant certifies that the sugar covered by this application was not produced from sugarcane grown in Cuba.

3. Paragraph (a) of § 817.6 is amended to read as follows:

§ 817.6 Specific authorization for release.

(a) *Time of issue and duration of validity.* Specific authorizations by the Secretary for release by a Collector will be issued no more than 5 days prior to the stated date of departure of the vessel or other carrier on which the sugar or liquid sugar is to be shipped. The authorization shall be valid for the period specified thereon, subject to extension by the Secretary for good cause. In case the port of arrival or the name of the receiver is not known when the application becomes eligible pursuant to paragraph (b) of this section, the authorization will not be transmitted to the Collector until all the information required by paragraph (a) of § 817.4 is received in the Sugar Division. No authorization shall be issued for the release of sugar imported from any foreign country except sugar imported from the Republic of the Philippines pursuant to § 811.4(b) of this chapter, unless the application covering such sugar is accompanied by the payment of the applicable fee as required by Part 811 of this chapter. In the event of unforeseen circum-

stances which require the submission of any application for the purpose of changing the dates or ports of departure or arrival, the identity of the vessel or carrier, or the identity of the receiver as shown on the original application covering sugar which has been authorized for release and on which the payment of a fee in accordance with Part 811 of this chapter has been made, such application shall be considered as an amendment to the original application as provided in § 811.5(e) of this chapter.

4. Paragraph (a) of § 817.7 is amended to read as follows:

§ 817.7 Applicable quota, quota proration, allocation, quantity and allotment.

(a) Sugar or liquid sugar imported other than as provided in § 817.8 shall be subject to any quota, proration of a quota or allocation for the area or country in which the sugar or liquid sugar was produced, as shown on the application provided for in § 817.4, except that application may be made to import sugar within the quantity available for foreign countries as a group, and except that if the Secretary determines that the sugar was produced in a country other than that shown on the application, such sugar shall be subject to any quota, proration or allocation for the country in which the sugar was produced. Sugar or liquid sugar imported during the period July 1, 1962, to the effective date of this amendment shall be subject to any quota for the calendar year 1962 or proration or allocation for the six-month period ending December 31, 1962, for the area or country in which the sugar or liquid sugar was produced, except that any quantity imported during such period from a foreign country without such a quota, proration or allocation, or in excess of such a quota, proration or allocation shall be subject to the quantity authorized for foreign countries as a group as established in § 811.4(e) of this chapter.

(Sec. 403, 61 Stat. 932, 7 U.S.C. 1153. Interprets or applies secs. 101, 202, 211, 212; 61 Stat. 922, as amended, 924, as amended, 928, as amended, and 929, as amended, and sec. 213 as added by the Act enacted July 13, 1962; 7 U.S.C. 1101, 1112, 1121, 1122)

Issued at Washington, D.C., this 16th day of July 1962.

CHARLES S. MURPHY,
Under Secretary.

[F.R. Doc. 62-7079; Filed, July 18, 1962; 12:30 p.m.]

SUBCHAPTER J—RATIFICATION AND CONTINUANCE OF SUGAR REGULATIONS

PART 881—REGULATIONS, ORDERS, AND NOTICES RATIFIED AND CONTINUED IN EFFECT PURSUANT TO THE ACT OF CONGRESS ENTITLED, SUGAR ACT AMENDMENTS OF 1962

Ratification and Continuance of Regulations, Orders and Notices

Pursuant to the provisions of the Sugar Act of 1948, as amended, and as further amended by the Act of Congress of July

13, 1962, Chapter VIII of Title 7 of the Code of Federal Regulations is amended by adding a new subchapter J and Part 881, as above entitled; and by adding in Part 881 a new § 881.1 to read as follows:

§ 881.1 Ratification and continuance of regulations, orders and notices.

All regulations, orders and notices promulgated or issued by the Secretary or other officials of the Department of Agriculture pursuant to authority conferred by the Sugar Act of 1948, as amended, which were in effect on June 30, 1962, and which by their terms did not expire on that date, are hereby ratified, affirmed and continued in effect pursuant to the authority conferred by the Act of July 13, 1962, entitled "Sugar Act Amendments of 1962"; and, pursuant to the provisions of section 19(a) of the Act of July 13, 1962, which provide "Except as otherwise provided, the amendments made by this Act shall become effective January 1, 1962", the afore-described regulations, orders and notices shall be in effect on July 1, 1962, and thereafter in the same manner and to the same extent as if the Act of July 13, 1962, entitled "Sugar Act Amendments of 1962" had been enacted on January 1, 1962.

Bases and considerations. The Act of July 13, 1962, entitled "Sugar Act Amendments of 1962" amends in a number of important respects the provisions of the Sugar Act of 1948, as amended, and provides that with certain exceptions the amendments shall become effective January 1, 1962. Many of the regulations issued under the Sugar Act of 1948, as amended prior to the Act of July 13, 1962, prescribe procedures and regulatory measures which it is necessary to apply for effective administration of the provisions of the Sugar Act of 1948, as amended by the Act of July 13, 1962. The new section 881.1 set forth herein affirms and continues in effect such regulations, orders and notices for purposes of carrying out the provisions of the Sugar Act of 1948, as amended by the Act of July 13, 1962.

Effective date. In order to give effect to the provisions of the Act of July 13, 1962, which prescribe, among other requirements, sugar quotas and proration of quotas for the calendar year 1962 and the six-month period ending December 31, 1962, it is necessary that the provisions of § 881.1 become effective at the earliest possible date. Accordingly, it is hereby determined and found that compliance with the notice, procedure and effective date requirements of the Administrative Procedure Act is unnecessary, impracticable and contrary to the public interest and the provisions of § 881.1 set forth herein shall become effective when filed for public inspection in the Office of the Federal Register.

(Sec. 403, 61 Stat. 932; 7 U.S.C. 1153. Act of Congress of July 13, 1962)

Issued at Washington, D.C., this 16th day of July 1962.

CHARLES S. MURPHY,
Under Secretary.

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Plum Order 15]

PART 917—FRESH BARTLETT PEARS, PLUMS, AND ELBERTA PEACHES GROWN IN CALIFORNIA

Regulation by Size

§ 917.317 Plum Order 15 (Giant).

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 917, as amended (7 CFR Part 917), regulating the handling of fresh Bartlett pears, plums, and Elberta peaches grown in the State of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations of the Plum Commodity Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of plums of the variety hereinafter set forth, and in the manner herein provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the *FEDERAL REGISTER* (5 U.S.C. 1001-1011) in that, as hereinafter set forth, the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than the date hereinafter specified. A reasonable determination as to the supply of, and the demand for, such plums must await the development of the crop thereof, and adequate information thereon was not available to the Plum Commodity Committee until the date hereinafter set forth on which an open meeting was held, after giving due notice thereof, to consider the need for, and the extent of, regulation of shipments of such plums. Interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; shipments of the current crop of such plums are expected to begin on or about July 25, 1962; this section should be applicable to all such shipments in order to effectuate the declared policy of the act; the provisions of this section are identical with the aforesaid recommendation of the committee; and information concerning such provisions and effective time has been disseminated among handlers of such plums and compliance with the provisions of this section will not require of handlers any preparation therefor which cannot be completed by the effective time hereof. Such committee meeting was held on July 13, 1962.

(b) *Order.* (1) During the period beginning at 12:01 a.m., P.s.t., July 23, 1962, and ending at 12:01 a.m., P.s.t., November 1, 1962, no shipper shall ship any package or container of Giant plums, unless:

(i) Such plums are of a size that, when packed in a standard basket, they will pack at least a 5 x 5 standard pack; and

(ii) The diameters of the smallest and largest plums in such package or container do not vary more than one-fourth ($\frac{1}{4}$) inch: *Provided*, That a total of not more than five (5) percent, by count, of the plums in the package or container may fail to meet this requirement.

(2) When used in this section, "U.S. No. 1" and "standard pack" shall have the same meaning as set forth in the revised United States Standards for Plums and Prunes (Fresh) (§§ 51.1520 to 51.1537 of this title); "standard basket" shall mean the standard basket set forth in paragraph 1 of section 828.1 of the Agricultural Code of California; "diameter" shall mean the distance through the widest portion of the cross section of a plum at right angles to a line running from the stem to the blossom end; and, except as otherwise specified, all other terms shall have the same meaning as when used in the amended marketing agreement and order.

(3) Section 917.143 sets forth the requirements with respect to the inspection and certification of shipments of fruit covered by this section. Such section also prescribes the conditions which must be met if any shipment is to be made without prior inspection and certification. Notwithstanding that shipments may be made without inspection and certification, each shipper shall comply with all grade and size regulations applicable to the respective shipment.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Dated: July 17, 1962.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F.R. Doc. 62-7097; Filed, July 19, 1962; 8:51 a.m.]

Chapter X—Agricultural Stabilization and Conservation Service (Marketing Agreements and Orders), Department of Agriculture

[Milk Order 45]

PART 1045—MILK IN NORTHEASTERN WISCONSIN MARKETING AREA

Order Amending Order

§ 1045.0 Findings and determinations.

The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid

order and of the previously issued amendments thereto; and all of the said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the Northeastern Wisconsin marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(2) The parity prices of milk, as determined pursuant to section 2 of the Act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order as hereby amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest;

(3) The said order as hereby amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial or commercial activity specified in, a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* (1) It is necessary in the public interest to make this order amending the order effective not later than August 1, 1962. Any delay beyond that date would tend to disrupt the orderly marketing of milk in the marketing area.

(2) The provisions of the said order are known to handlers. The recommended decision of the Assistant Secretary was issued June 15, 1962, and the decision of the Assistant Secretary containing all amendment provisions of this order was issued July 6, 1962. The changes effected by this order will not require extensive preparation or substantial alteration in method of operation for handlers. In view of the foregoing, it is hereby found and determined that good cause exists for making this order amending the order effective August 1, 1962, and that it would be contrary to the public interest to delay the effective date of this amendment for 30 days after its publication in the *FEDERAL REGISTER* (sec. 4(e), Administrative Procedure Act, 5 U.S.C. 1001-1011).

(c) *Determinations.* It is hereby determined that:

(1) The refusal or failure of handlers (excluding cooperative associations specified in section 8c(9) of the Act) of more than 50 percent of the milk, which is marketed within the marketing area, to

sign a proposed marketing agreement, tends to prevent the effectuation of the declared policy of the Act;

(2) The issuance of this order, amending the order, is the only practical means pursuant to the declared policy of the act of advancing the interests of producers as defined in the order as hereby amended; and

(3) The issuance of the order amending the order is approved or favored by at least two-thirds of the producers who during the determined representative period were engaged in the production of milk for sale in the marketing area.

Order relative to handling. It is heretofore ordered, That on and after the effective date hereof, the handling of milk in the Northeastern Wisconsin marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended as follows:

Sections 1045.9, 1045.10, 1045.11, 1045.12, 1045.13, 1045.14, 1045.15, 1045.16, and 1045.17 are redesignated §§ 1045.11, 1045.12, 1045.13, 1045.14, 1045.15, 1045.16, 1045.17, 1045.18, and 1045.19, respectively, and § 1045.8 is replaced by the following:

§ 1045.8 Distributing plant.

"Distributing plant" means a plant from which any Grade A fluid milk product that is processed or packaged in such plant is disposed of during the month in the marketing area on routes.

§ 1045.9 Supply plant.

"Supply plant" means a plant from which Grade A milk, skim milk or cream is shipped during the month to a pool plant.

§ 1045.10 Pool plant.

"Pool plant" means a plant specified in paragraph (a) or (b) of this section, except as provided in §§ 1045.80 through 1045.82.

(a) A distributing plant from which not less than 40 percent of the total Grade A milk receipts is disposed of during the month on routes and not less than 20 percent of such receipts is disposed of in the marketing area on routes.

(b) A supply plant from which not less than 40 percent of the Grade A milk received from dairy farmers at such plant during the month is shipped as fluid milk products to pool plants qualified pursuant to paragraph (a) of this section: *Provided*, That a supply plant which qualified pursuant to this paragraph in each of the immediately preceding months of July through November shall be a pool plant for the months of December through June unless written application is filed with the market administrator on or before the first day of any such month to be designated a nonpool plant for such month and for each subsequent month through June in which it would not otherwise qualify as a pool plant.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Effective date: August 1, 1962.

Signed at Washington, D.C., on July 17, 1962.

JOHN P. DUNCAN, Jr.,
Assistant Secretary.

[F.R. Doc. 62-7118; Filed, July 19, 1962;
8:55 a.m.]

Title 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs, Department of the Treasury

[T.D. 55666]

PART I—CUSTOMS DISTRICTS, PORTS, AND STATIONS

Ports of Entry

By virtue of the authority vested in the President by section 1 of the Act of August 1, 1914, 38 Stat. 623 (19 U.S.C. 2), which was delegated to the Secretary of the Treasury by the President by Executive Order No. 10289, September 17, 1951 (3 CFR Ch. II), and pursuant to authorization given to me by Treasury Department Order No. 190, Rev. 1 (26 F.R. 11877), the limits of the customs port of entry of Port Canaveral, Florida, in Customs Collection District No. 18 (Florida), which now comprise the territory described in T.D. 55333, are extended to include the South one-half of the South one-half of Sections 1, 2, and 3, all of Sections 10, 11, and 12, and the North one-half of the North one-half of Sections 13, 14, and 15, in Township 24 South, Range 36 East; and the South one-half of the South one-half of Sections 1, 2, 3, 4, 5, and 6, all of Sections 7, 8, 9, 10, 11, and 12, and the North one-half of the North one-half of Sections 13, 14, 15, 16, 17, and 18, in Township 24 South, Range 37 East, in Brevard County, Florida.

This extension is effective on the date of publication of this Treasury Decision in the FEDERAL REGISTER.

Section 1.1(c), Customs Regulations, is amended by deleting the parenthesis and period at the end of the parenthetical material appearing after "Port Canaveral" in the column headed "Ports of entry" in District No. 18 (Florida), and adding "; including territory described in T.D. 55666)."

Mackinac Island, Michigan, and Rogers City, Michigan, are designated as customs stations in Customs Collection District No. 38 (Michigan). It is considered desirable to list these stations in the list of customs stations appearing in § 1.2(d), Customs Regulations. To reflect this, § 1.2(d), Customs Regulations is amended by inserting in alphabetical order the following entries in the list of customs stations for District No. 38:

District No.	Customs stations	Port of entry having supervision
38----	Mackinac Island	Sault Ste. Marie.
	Rogers City	Saginaw-Bay City.

(R.S. 161, as amended, sec. 1, 37 Stat. 434, sec. 1, 38 Stat. 623, as amended, R.S. 251, sec.

624, 46 Stat. 759; 5 U.S.C. 22, 19 U.S.C. 1, 2, 66, 1624)

[SEAL] JAMES POMEROY HENDRICK,
Acting Assistant Secretary
of the Treasury.

[F.R. Doc. 62-7108; Filed, July 19, 1962;
8:52 a.m.]

Title 14—AERONAUTICS AND SPACE

Chapter III—Federal Aviation Agency

SUBCHAPTER E—AIR NAVIGATION REGULATIONS

[Airspace Docket No. 62-SW-34]

PART 601—DESIGNATION OF CONTROLLED AIRSPACE, REPORTING POINTS, POSITIVE CONTROL ROUTE SEGMENTS, AND POSITIVE CONTROL AREAS

Alteration of Control Area Extension

The purpose of this amendment to § 601.1206 of the regulations of the Administrator is to alter the Midland, Texas, control area extension.

The Midland control area extension is designated, in part, with reference to the Midland radio range and ILS localizer southwest course. The Federal Aviation Agency is decommissioning the Midland radio range on or about July 13, 1962. The Midland ILS localizer will be in a shut down status from July 1 to July 30, 1962, for the purpose of realignment with runway 10 of the Midland Air Terminal. Therefore, action is taken herein to substitute latitude 31°54'07" N., longitude 102°15'53" W. for the Midland radio range and substitute VOR Federal airway No. 66 for a line 5 miles southeast of and parallel to the Midland ILS localizer southwest course in the description of the Midland control area extension. This action will result in a slight reduction of controlled airspace southwest of the airport which is no longer required for air traffic control purposes.

Since the changes effected by this amendment impose no additional burden on any person, notice and public procedure hereon are unnecessary, and it may be made effective immediately.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (25 F.R. 12582), the following action is taken: In the text of § 601.1206 (14 CFR 601.1206) "Within a 25-mile radius of the Midland, Tex., RR" is deleted and "Within a 25-mile radius of latitude 31°54'07" N., longitude 102°15'53" W." is substituted therefor; and "and on the SE by a line 5 miles SE of and parallel to the Midland ILS localizer SW course" is deleted and "and on the SE by VOR Federal airway No. 66" is substituted therefor.

This amendment shall become effective upon the date of publication in the FEDERAL REGISTER.

(Sec. 307(a), 72 Stat. 749; 49 U.S.C. 1348)

Issued in Washington, D.C., on July 16, 1962.

CLIFFORD P. BURTON,
Chief, Airspace Utilization Division.

[F.R. Doc. 62-7071; Filed, July 19, 1962;
8:46 a.m.]

[Reg. Docket No. 1275; Amdt. 279]

PART 609—STANDARD INSTRUMENT APPROACH PROCEDURES

Miscellaneous Amendments

The amendments to standard instrument approach procedures contained herein are being adopted to become effective when indicated in order to promote safety. The revised procedures supersede the existing procedures of the same classification now in effect for the airports specified therein. For the convenience of the users, the revised procedures specify the complete procedure and indicate the changes to the existing procedures.

As a situation exists which demands immediate action in the interests of safety in air commerce, I find that compliance with the notice, procedure and effective date provisions of section 4 of the Administrative Procedure Act would be contrary to the public interest and is therefore not required.

Pursuant to the authority delegated to me by the Administrator (24 F.R. 5662), Part 609 is amended as follows:

1. The low or medium frequency range procedures prescribed in § 609.100(a) are amended to read in part:

LFR STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, courses and radials are magnetic. Elevations and altitudes are in feet MSL. Ceilings are in feet above airport elevation. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles.

If an instrument approach procedure of the above type is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of the Federal Aviation Agency. Initial approaches shall be made over specified routes. Minimum altitudes shall correspond with those established for en route operation in the particular area or as set forth below.

Transition				Ceiling and visibility minimums		
From—	To—	Course and distance	Minimum altitude (feet)	Condition	2-engine or less	
					65 knots or less	More than 65 knots

2. The automatic direction finding procedures prescribed in § 609.100(b) are amended to read in part:

ADF STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, courses and radials are magnetic. Elevations and altitudes are in feet MSL. Ceilings are in feet above airport elevation. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles.

If an instrument approach procedure of the above type is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of the Federal Aviation Agency. Initial approaches shall be made over specified routes. Minimum altitudes shall correspond with those established for en route operation in the particular area or as set forth below.

Transition				Ceiling and visibility minimums			
From—	To—	Course and distance	Minimum altitude (feet)	Condition	2-engine or less		More than 2-engine, more than 65 knots
					65 knots or less	More than 65 knots	
Asheville VOR	LOM (MHW)	Direct	5500	T-dn*	800-1	800-1	800-1
Int AVL-VOR R-214 and brng 342° to LOM (MHW)	Broad River Int# (Final)	Direct	4300	C-d**	1500-2	1500-2	1500-2
Broad River Int#	LOM (MHW) (Final)	Direct	3700	C-n	NA	NA	NA
Owen Int#	LOM (MHW)	Direct	5000	S-dn-34	1000-1	1000-1	1000-1
Spartanburg VOR	Broad River Int#	Direct	5000	A-d	1500-2	1500-2	1500-2
				A-n	NA	NA	NA

Procedure turn E side of crs, 162° Outbnd, 342° Inbnd, 5000' within 10 mi.

Minimum altitude over facility on final approach crs, 3700'.

Crs and distance, LOM (MHW) to airport, 342°—4.7 mi; LMM to airport, 342°—0.6 mi.

If visual contact not established upon descent to authorized landing minimums or if landing not accomplished within 0.0 mile of LMM or 4.1 miles of LOM (MHW), climb on crs of 342° from LOM (MHW) to Owen Int and continue climb if necessary in holding pattern south of Owen Int (right turns, 1-minute) to 5000' or higher as directed by ATC before returning to LOM (MHW) or continuing climb on course or, when directed by ATC, climb on crs of 342° from LOM (MHW) to 8000' within 20 mi before proceeding on course.

*IFR Departure Procedures: Takeoffs to the north will comply with missed approach procedure when climbing to altitude. Takeoffs to the south will climb on crs of 162° over the LOM (MHW) and continue on crs of 162° to Broad River Int# at 5000' or higher as directed by ATC before proceeding on course. This procedure is authorized only for aircraft having both an operating ADF receiver and an operating VOR receiver. AV MHW is single transmitter. Aural signal must be monitored at all times. LMM must be operating and utilized during approach or ceiling minimum is 2000'.

Other change: Deletes transition from Spartanburg VOR to LOM.

**CAUTION: Terrain rises rapidly 2 miles west of airport. All maneuvering for circling approach must be accomplished east of airport.

#Broad River Int: Int AVL-VOR R-231 and brng 342° to LOM (MHW).

#Owen Int: Int AVL-VOR R-301 and AVL ILS NW crs.

City, Asheville; State, N.C.; Airport Name, Asheville Municipal; Elev., 2161'; Fac. Class., LOM (MHW); Ident., AV; Procedure No. 1, Amdt. 1; Eff. Date, 4 Aug. 62; Sup. Amdt. No. Orig.; Dated, 15 July 61

City, Durango; State, Colo.; Airport Name, La Plata Field; Elev., 6684'; Fac. Class., VOR (Non-Federal facility); Ident., DRO; Procedure No. TerVOR (R-104), Amdt. 5; Eff. Date, 4 Aug. 62; Sup. Amdt. No. 4; Dated, 27 May 61

5. The very high frequency omnirange-distance measuring equipment (VOR/DME) procedures prescribed in § 609.300 are amended to read in part:

VOR-DME STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, courses and radials are magnetic. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles.

If an instrument approach procedure of the above type is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of the Federal Aviation Agency. Initial approaches shall be made over specified routes. Minimum altitudes shall correspond with those established for en route operation in the particular area or as set forth below.

Transition				Ceiling and visibility minimums			
From—	To—	Course and distance	Minimum altitude (feet)	Condition	2-engine or less		More than 2-engine, more than 65 knots
					65 knots or less	More than 65 knots	
20-mile DME Fix R-250.....	14-mile DME Fix R-250.....	Direct.....	7000	T-dn*.....	300-1	300-1	200-1½
14-mile DME Fix R-250.....	8-mile DME Fix R-250.....	Direct.....	5300	C-dn.....	400-1	500-1	500-1½

7. The radar procedures prescribed in § 609.500 are amended to read in part:

RADAR STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, courses and radials are magnetic. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles.

If a radar instrument approach is conducted at the below named airport, it shall be in accordance with the following instrument procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of the Federal Aviation Agency. Initial approaches shall be made over specified routes. Minimum altitude(s) shall correspond with those established for en route operation in the particular area or as set forth below. Positive identification must be established with the radar controller. From initial contact with radar to final authorized landing minimums, the instructions of the radar controller are mandatory except when (A) visual contact is established on final approach at or before descent to the authorized landing minimums, or (B) at pilot's discretion if it appears desirable to discontinue the approach, except when the radar controller may direct otherwise prior to final approach, a missed approach shall be executed as provided below when (A) communication on final approach is lost for more than 5 seconds during a precision approach, or for more than 30 seconds during a surveillance approach; (B) directed by radar controller; (C) visual contact is not established upon descent to authorized landing minimums; or (D) if landing is not accomplished.

Transition				Ceiling and visibility minimums			
From—	To—	Course and distance	Minimum altitude (feet)	Condition	2-engine or less		More than 2-engine, more than 65 knots
					65 knots or less	More than 65 knots	
				Surveillance approach			
				T-dn-----	300-1	300-1	*200-1½
				C-dn-----	800-1	900-1	900-1½
				S-dn-5/23**-----	600-1	600-1	600-1
				S-dn-18-----	700-1	700-1	700-1
				S-dn-36-----	800-1	800-1	800-1
				A-dn-----	1000-2	1000-2	1000-2

Radar vectoring authorized in accordance with approved patterns.

If visual contact not established upon descent to authorized landing minimums or if landing not accomplished—

Runway 5: Climb to 3000' on crs of 052° from LOM within 15 miles.

Runway 23: Climb to 3000', turn right and proceed to BHM VOR or, when directed by ATC, climb to 3000' and proceed to BHM LOM.

Runways 36 and 18: Climb to 3000', turn left and proceed to BHM VOR.

AIR CARRIER NOTE: Sliding scale NA.

*Runway 5-23 only.

**Maintain at least 1900' until 4 miles from runway on final approach to Runway 23.

City, Birmingham; State, Ala.; Airport Name, Municipal; Elev., 643'; Fac. Class. and Ident., Birmingham Radar; Procedure No. 1, Amdt. 4; Eff. Date, 4 Aug. 62; Sup. Amdt. No. 3; Dated, 30 Oct. 59

				Surveillance approach			
				T-dn-----	300-1	300-1	200-1½

Title 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

SUBCHAPTER A—GENERAL

PART 3—STATEMENTS OF GENERAL POLICY OR INTERPRETATION

Tolerances for Moldy and Insect-Infested Cocoa Beans

The Cocoa Merchants Association has supplied information in support of a request that the proposed tolerances for moldy and insect-infested cocoa beans published in the *FEDERAL REGISTER* of June 22, 1961 (26 F.R. 5575), be amended, in view of the effect of variations in weather and other natural factors in different producing countries. On the basis of information contained in the request and on the basis of a further study of data obtained during the Food and Drug Administration's cocoa beans import survey, tolerances for moldy and insect-infested cocoa beans are established as set forth below, and § 3.20 is revised to read as follows:

§ 3.20 Tolerances for moldy and insect-infested cocoa beans.

On and after February 22, 1963, shipments of cocoa beans offered for entry into the United States must meet a tolerance of 6 percent total moldy and insect-infested, including insect-damaged, beans, but not more than 4 percent of either moldy or insect-infested, including insect-damaged, beans. This statement of policy supersedes the notice issued August 27, 1931, addressed to shippers, importers, and dealers in cocoa beans and manufacturers of chocolate and cocoa products and the statement of policy issued June 22, 1961, in this section.

(Sec. 402(a)(3), 68 Stat. 511; 21 U.S.C. 342 (a)(3))

(Sec. 701(a), 52 Stat. 1055; 21 U.S.C. 371)

Dated: July 16, 1962.

GEO. P. LARRICK,
Commissioner of Food and Drugs.

[F.R. Doc. 62-7087; Filed, July 19, 1962; 8:48 a.m.]

SUBCHAPTER B—FOOD AND FOOD ADDITIVES

PART 121—FOOD ADDITIVES

Subpart A—Definitions and Procedural and Interpretative Regulations

FURTHER EXTENSION OF EFFECTIVE DATE OF STATUTE FOR CERTAIN SPECIFIED FOOD ADDITIVES

The Commissioner of Food and Drugs, pursuant to the authority provided in the Federal Food, Drug, and Cosmetic Act (sec. 6(c), Public Law 85-929, as amended sec. 2, Public Law 87-19; 72 Stat. 1788, as amended 75 Stat. 42; 21 U.S.C., note under sec. 342) and delegated to him by

the Secretary of Health, Education, and Welfare (25 F.R. 8625), hereby orders that § 121.90 of the food additive regulations (21 CFR 121.90) be amended by adding thereto the following new items:

§ 121.90 Further extension of effective date of statute for certain specified food additives as direct additives to food.

* * * * *

Notice and public procedure are not necessary prerequisites to the promulgation of this order, and I so find, since extensions of time, under certain conditions, for the effective date of the food additives amendments to the Federal Food, Drug, and Cosmetic Act were contemplated by Public Law 87-19 as a relief of restrictions on the food processing industry.

Effective date. This order shall become effective on the date of signature.

(Sec. 6(c), Public Law 85-929, as amended sec. 2, Public Law 87-19; 72 Stat. 1788, as amended 75 Stat. 42; 21 U.S.C., note under sec. 342)

Dated: July 16, 1962.

GEO. P. LARRICK,
Commissioner of Food and Drugs.

[F.R. Doc. 62-7089; Filed, July 19, 1962; 8:49 a.m.]

PART 121—FOOD ADDITIVES

Subpart A—Definitions and Procedural and Interpretative Regulations

FURTHER EXTENSIONS OF EFFECTIVE DATE OF STATUTE FOR CERTAIN SPECIFIED FOOD ADDITIVES

On September 6, 1961, there was published in the *FEDERAL REGISTER* (26 F.R. 8393) a list of substances used as adjuvants or laminants in the manufacture of textile fibers or fabrics for packaging dry food. In the order cited, the

effective date of the food additives amendments to the Federal Food, Drug, and Cosmetic Act was extended to July 1, 1962, under the conditions prescribed in the introduction to § 121.91.

The Commissioner of Food and Drugs finds that conditions exist that make necessary the prescribing of an additional period of time for obtaining tolerances or denials of tolerances or for granting exemptions from tolerances in accordance with the statute. Therefore, pursuant to the provisions of the act (sec. 6(c), Public Law 85-929, as amended sec. 2, Public Law 87-19; 72 Stat. 1788, as amended 75 Stat. 42; 21 U.S.C., note under sec. 342) and under the authority delegated to the Commissioner by the Secretary of Health, Education, and Welfare (25 F.R. 8625), § 121.91 *Further extension of effective date of statute for certain specified food additives as indirect additives to food*, is amended as follows:

1. The date July 1, 1962, in the tabulation headed "Adjuvant or Laminant Used in Manufacture of Textile Fibers or Fabrics for Packaging Dry Food" is changed to January 1, 1963, for the following items:

N-Acetyl, N'-β-hydroxyethyl, N-oleyl, ethylenediamine.
Aluminum stearate.
Butyl-acetyl ricinoleate.
Butyl, propyl, and isobutyl oleate, sulfated.
Castor oil, sulfated, potassium soap.
Dimethylpolysiloxane.
Ethylenediamine tetraacetic acid, sodium salt.

Fatty triglycerides and marine oils, including the fatty acids and fatty alcohols derived from castor, coconut, cottonseed, fish, mustard seed, palm, peanut, rapeseed, rice bran, soybean, sperm, and tall oil.

Fatty triglycerides, fatty acids, or fatty alcohols and marine oils described in preceding item reacted with * * *.

Glycerol mono-[12-hydroxy-stearate].

Isobutanol.

Isopropyl cresols, mono and di, *meta* and *para*.

Kerosene.

Kerosene, deodorized.

Petroleum sulfonate (mahogany soap mixture of sulfonated aliphatic petroleum hydrocarbons).

Pine oil.

Polyoxyethylene (5-15 mols ethylene oxide) ether of nonyl-(1 mol) or octylphenol (1 mol).

Rice bran oil sulfated, methyl ester.

Sodium dioctylsulfosuccinate.

Sodium hydrosulfite.

Sodium 2-mercaptobenzothiazole.

Zinc hydrosulfite.

2. Footnote 1 is deleted.

Notice and public procedure are not necessary prerequisites to the promulgation of this order, and I so find, since extensions of time, under certain conditions, for the effective date of the food additives amendments to the Federal Food, Drug, and Cosmetic Act were contemplated by Public Law 87-19 as a relief of restrictions on the food-processing industry.

Effective date. This order shall become effective as of the date of signature.

(Sec. 6(c), Public Law 85-929, as amended sec. 2, Public Law 87-19; 72 Stat. 1788, as amended 75 Stat. 42; 21 U.S.C., note under sec. 342)

Dated: July 16, 1962.

GEO. P. LARRICK,
Commissioner of Food and Drugs.

[F.R. Doc. 62-7090; Filed, July 19, 1962;

PART 121—FOOD ADDITIVES

Subpart A—Definitions and Procedural and Interpretative Regulations

FURTHER EXTENSION OF EFFECTIVE DATE OF STATUTE FOR CERTAIN SPECIFIED FOOD ADDITIVES

The Commissioner of Food and Drugs, pursuant to the authority provided in the Federal Food, Drug, and Cosmetic Act (sec. 6(c), Public Law 85-929, as amended sec. 2, Public Law 87-19; 72 Stat. 1788, as amended 75 Stat. 42; 21 U.S.C., note under sec. 342) and delegated to him by the Secretary of Health, Education, and Welfare (25 F.R. 8625), hereby orders that § 120.91 of the food additive regulations (21 CFR 121.91) be amended by changing the items listed to read as follows:

§ 121.91 Further extensions of effective date of statute for certain specified food additives as indirect additives to food.

* * *

MISCELLANEOUS

Product	Specified uses or restrictions	Effective date of statute extended to—
* * *	* * *	* * *
Polyisobutylene (26 F.R. 7963).....	Component of food-packaging material.....	Jan. 1, 1963
Sodium salt of naphthalene sulfonic acid condensed with formaldehyde (26 F.R. 7963).	In the manufacture of paper and paperboard for food packaging.	Jan. 1, 1963
Isobutylene-isoprene copolymer (26 F.R. 8393).....	In manufacture of food packaging.....	Jan. 1, 1963
Montan wax, blown (26 F.R. 8393).....	Component of resinous and polymeric substances for food-contact surfaces of food packages.	Jan. 1, 1963
Ozokerite, purified (ozocerite) (26 F.R. 8393).....	Component of resinous and polymeric substances for food-contact surfaces of food packages.	Jan. 1, 1963
Sodium lignosulfonate (26 F.R. 8393).....	Component of sizing agent used in manufacture of food packaging.	Jan. 1, 1963
* * *	* * *	* * *
Starch, modified with propylene oxide (hydroxypropyl starch) (26 F.R. 8393).	Sizing agent for paper and paperboard for food packaging.	Jan. 1, 1963
* * *	* * *	* * *
Starch, packaging, derived from propylene oxide-modified starch (26 F.R. 11242).	Surface sizing and coating for paper and paperboard for food packaging.	Jan. 1, 1963

Notice and public procedure are not necessary prerequisites to the promulgation of this order, and I so find, since extensions of time, under certain conditions, for the effective date of the food additives amendment to the Federal Food, Drug, and Cosmetic Act were contemplated by Public Law 87-19 as a relief of restrictions on the food processing industry.

Effective date. This order shall become effective on the date of signature. (Sec. 6(c), Public Law 85-929, as amended sec. 2, Public Law 87-19; 72 Stat. 1788, as amended 75 Stat. 42; 21 U.S.C., note under sec. 342)

Dated: July 16, 1962.

GEO. P. LARRICK,
Commissioner of Food and Drugs.

8:50 a.m.]

PART 121—FOOD ADDITIVES

Subpart F—Food Additives Resulting From Contact With Containers or Equipment and Food Additives Otherwise Affecting Food

POLYETHYLENE

The Commissioner of Food and Drugs, having evaluated the data submitted in a petition filed by Eastman Chemical Products, Inc., Kingsport, Tennessee, and other relevant material, has concluded that § 121.2510 of the food additive regulations should be amended as hereinafter provided. The amended regulation permits noncrystalline polypropylene as an optional substance to be used as a plasticizer in the manufacture of polyethylene intended for use in contact with food. Therefore, pursuant to the provisions of the act (sec. 409(c) (1), 72 Stat. 1786; 21 U.S.C. 348(c) (1)), and under the authority delegated to the Commissioner by the Secretary of Health, Education, and Welfare (25 F.R. 8625), the food additive regulations (21 CFR 121.2510) are amended as follows:

Section 121.2510(a) is amended by adding thereto a new subparagraph (3), as follows:

§ 121.2510 Polyethylene.

* * *

(a) * * *

(3) Noncrystalline polypropylene (density 0.80-0.88 as determined by A.S.T.M. Method D-1505) as a plasticizer.

Any person who will be adversely affected by the foregoing order may at any time within 30 days from the date of its publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington 25, D.C., written objections thereto. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof. All documents shall be filed in quintuplicate.

Effective date. This order shall be effective on the date of its publication in the FEDERAL REGISTER.

(Sec. 409(c) (1), 72 Stat. 1786; 21 U.S.C. 348(c) (1))

Dated: July 16, 1962.

GEO. P. LARRICK,
Commissioner of Food and Drugs.

[F.R. Doc. 62-7092; Filed, July 19, 1962;
8:50 a.m.]

PART 121—FOOD ADDITIVES**Corrosion Inhibitors for Steel or Tinplate**

The Commissioner of Food and Drugs, having evaluated the data submitted in a petition filed by The Cromwell Paper Company, 130 North Wabash Avenue, Chicago 1, Illinois, and other relevant material, has concluded that the following regulation should issue with respect to corrosion inhibitors used for steel or tinplate intended for use in contact with food. Therefore, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409 (c) (1), 72 Stat. 1786; 21 U.S.C. 348(c) (1)), and under the authority delegated to the Commissioner by the Secretary of Health, Education, and Welfare (25 F.R. 8625), the food additive regulations (21 CFR Part 121) are amended by adding to Subpart F the following new section:

§ 121.2551 Corrosion inhibitors used for steel or tinplate.

Corrosion inhibitors may be safely used for steel or tinplate intended for use in, or to be fabricated as, food containers or food-processing or handling equipment, subject to the provisions of this section.

(a) The corrosion inhibitors are prepared from substances identified in this section and used subject to the limitations prescribed.

(b) The following corrosion inhibitors or adjuvants are used in amounts not to exceed those reasonably required to accomplish the intended physical or technical effect:

(1) Corrosion inhibitors (active ingredients) used in packaging materials for the packaging of steel or tinplate or articles fabricated therefrom:

List of substances	Limitations
Dicyclohexylamine and its salts of fatty acids derived from animal or vegetable oil.	-----
Morpholine and its salts of fatty acids derived from animal or vegetable oils.	-----

(2) Adjuvants employed in the application and use of corrosion inhibitors:

List of substances	Limitations
Polyethylene glycol	-----
Propylene glycol	-----

Any person who will be adversely affected by the foregoing order may at any time within 30 days from the date of its publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington 25, D.C., written objections thereto. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof. All documents shall be filed in quintuplicate.

Effective date. This order shall be effective on the date of its publication in the FEDERAL REGISTER.

(Sec. 409(c) (1), 72 Stat. 1786; 21 U.S.C. 348(c) (1))

Dated: July 16, 1962.

GEO. P. LARRICK,
Commissioner of Food and Drugs.

[F.R. Doc. 62-7088; Filed, July 19, 1962;

Title 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans Administration

PART 3—ADJUDICATION

Subpart A—Pension, Compensation, and Dependency and Indemnity Compensation

MISCELLANEOUS AMENDMENTS

1. In § 3.400, paragraphs (e), (h), (j), and (o) are amended to read as follows:

§ 3.400 General.

(e) *Apportionment* (§§ 3.450 through 3.461, 3.551, 3.557). On original claims, in accordance with the facts found. On other than original claims from:

(1) The first day of the month (in Philippine cases, the first day of the second month) following the month in which:

(i) Claim is received for apportionment of a veteran's award, except that where payments to him have been interrupted, apportionment will be effective the day following date of last payment if a claim for apportionment is received within 1 year after that date;

(ii) Notice is received that a child included in a widow's award is not in the widow's custody, except that where payments to her have been interrupted, apportionment will be effective the day following date of last payment if such notice is received within 1 year after that date.

(2) The effective date of reduction of pension under § 3.551(c).

(h) *Difference of opinion* (§ 3.105). (1) As to decisions not final prior to date of receipt in Central Office, the date from which benefits would have been payable if the former decision had been favorable.

(2) As to decisions final prior to date of receipt in Central Office, date of Central Office approval authorizing a favorable decision.

(3) Where the initial determination for the purpose of death benefits is favorable, the commencing date will be determined without regard to the fact that the action may reverse, on a difference of opinion, an unfavorable decision for disability purposes by an adjudicative agency other than the Board of Veterans Appeals, which was in effect at the date of the veteran's death.

(j) *Election of Veterans Administration benefits* (§ 3.700 series). (1) Un-

less otherwise provided, the date of receipt of election, subject to prior payments.

(2) July 1, 1960, as to pension payable under Public Law 86-211, where pension is payable for June 30, 1960, under the law in effect on that date, including an award approved after that date, if the election is filed within (generally) 120 days from date of notice of the award. The award will be subject to prior payments over the same period of time.

(o) *Increases* (§§ 3.156, 3.157). Except as provided in § 3.401(b) (2), increase (amending, reopening, or supplementing a previous award authorizing any payments not previously authorized to the individual involved) will be fixed in accordance with the facts found but not earlier than the date of receipt of the evidence establishing entitlement. A retroactive increase or additional benefit will not be awarded after basic entitlement has been terminated, such as by severance of service connection or forfeiture.

2. In § 3.401, paragraph (b) is amended to read as follows:

§ 3.401 Veterans.

(b) *Dependents, additional benefits for* (§ 3.4(b) (2)). The earlier of the following dates:

(1) Commencing date of veteran's award if dependent shown on claim and evidence is received within 1 year after date of request.

(2) For compensation, effective date of the qualifying evaluation, if basic proof of dependents is received within 60 days after date of notification of such evaluation, and any necessary substantiating evidence is received within 1 year after date of request. (38 U.S.C. 3011.)

(Other increases, including disability pension, see § 3.400(o).)

(72 Stat. 1114; 38 U.S.C. 210)

These regulations are effective July 20, 1962.

[SEAL] W. J. DRIVER,
Deputy Administrator.

8:55 a.m.]

Title 32—NATIONAL DEFENSE

Chapter V—Department of the Army

SUBCHAPTER B—CLAIMS AND ACCOUNTS

PART 536—CLAIMS AGAINST THE UNITED STATES

Investigating and Processing of Claims

Paragraph (b) of § 536.11 is revised and new paragraph (c) is added, as follows:

§ 536.11 Appeals.

(b) Where, as to a claim under §§ 536.12-536.23, or §§ 536.140-536.152, an approving authority assigned to the

Claims Division, Office of The Judge Advocate General, notifies the claimant that his claim has been found not meritorious, or makes an offer of settlement for less than the amount claimed, the claimant will be informed that:

(1) He may appeal to the Secretary of the Army;

(2) No form for the appeal is prescribed;

(3) The grounds for the appeal should be set forth;

(4) The appeal must be submitted within 30 days of the receipt of the notice of the right to appeal; and

(5) The appeal should be addressed to the Chief of the Claims Division, OTJAG.

(c) With respect to claims under § 536.29, such authority will notify the claimant that he may appeal to The Judge Advocate General of the Army as the designee of the Secretary of the Army and include in the notification the information contained in paragraph (b) (2) through (5) of this section.

[C 3, AR 25-20, June 27, 1962] (Sec. 3012, 70A Stat. 157; 10 U.S.C. 3012)

J. C. LAMBERT,
Major General, U.S. Army,
The Adjutant General.

Proposed Rule Making

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[21 CFR Parts 141, 141a, 141b, 141c, 141d, 141e, 146a, 146b, 146c, 146d, 146e]

ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS

Sterility Testing; Proposed Changes in Procedures and Certification Requirements

The Commissioner of Food and Drugs, in accordance with the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 507, 5th Stat. 463 as amended; 21 U.S.C. 357) and pursuant to the authority delegated to him by the Secretary of Health, Education, and Welfare (25 F.R. 8625) proposes to amend all regulations in the above-cited parts insofar as they relate to sterility requirements for antibiotic and antibiotic-containing drugs. These proposed changes are designed to insure that such drugs intended to be sterile comply with that requirement. The amendments affect not only the testing procedures but require the submission of an increased number of samples of each batch tested, with a slight increase in fees. The amendments proposed will be effected as follows:

1. By adding to Chapter I of Title 21 the following new part:

PART 141—TESTS AND METHODS OF ASSAY OF ANTIBIOTIC DRUGS SUBJECT TO CERTIFICATION

Sec.

141.1 [Reserved]

141.2 Sterility test methods and procedures.

§ 141.1 [Reserved]

§ 141.2 Sterility test methods and procedures.

(a) The test should be performed by personnel having had expert training and experience in aseptic techniques. The area used for the test should be kept thoroughly clean and free of dust. It should be swabbed daily with a suitable disinfectant. It should be as free from contamination as is possible to achieve. Personnel should wear sterilized outer clothing, nose masks, caps, and shoe scuffs while performing the test. Testing should not be conducted under direct exposure to ultraviolet light or in areas under aerosol treatment. Suitable environmental control tests designed to assess the testing conditions and the expertise of the operators should be performed at regular intervals.

(b) *Culture media.* Use ingredients that conform to the standards prescribed by the U.S.P. or N.F. In lieu of preparing the media from the individual ingredients, they may be made from dehydrated mixtures which, when reconsti-

tuted with distilled water, have the same composition as such media and have growth-promoting, buffering, and oxygen-tension controlling properties equal to or better than such media. Incubate 20 tubes of any liquid medium used along with any of the tests described in paragraph (d) (1), (2), (3), or (4) of this section to help evaluate the sterility of the tubes of media used for that day.

(1) *Medium A.* Prepare fluid thioglycollate medium for the test as follows:

	Grams
Pancreatic digest of casein.....	15.0
L-Cystine	0.5
Dextrose	5.5
Yeast extract (water soluble).....	5.0
Sodium chloride.....	2.5
Sodium thioglycollate.....	0.5
Resazurin	0.001
Agar, granulated (moisture content not in excess of 15 percent).....	0.75

Distilled water, sufficient to make 1,000.0 milliliters.

Final pH=7.10±0.10 after sterilization.

Dispense approximately 100-milliliter quantities in 38 millimeters x 200 millimeters (outside dimensions) test tubes and then sterilize in an autoclave at 121° C. for 20 minutes. The autoclave temperature should be reached within 10 minutes. Cool at once to 25° C., and store the medium between 20° C. and 30° C., protected from light.

(2) *Medium B.* Same as medium A, except add 5.0 milliliters of polysorbate 80 per liter before sterilization.

(3) *Medium C.* Same as medium B, except add sufficient 2N sodium hydroxide so that the pH will be 7.9±0.1 after sterilization.

(4) *Medium D.*

	Grams
Peptone	6.0
Pancreatic digest of casein.....	4.0
Yeast extract.....	3.0
Beef extract.....	1.5
Glucose	1.0
Agar	15.0

Distilled water sufficient to make 1,000.0 milliliters.

pH 6.55±0.05 after sterilization.

Suspend the powder in a liter of distilled water. Allow to stand for 5 minutes, then mix thoroughly. Boil for 1 or 2 minutes or until solution is complete. Dispense in suitable flasks and sterilize at 121° C. for 15 minutes. After sterilization, while agar is still hot, aseptically pour approximately 25-milliliter quantities into sterile petri dish bottoms measuring 20 millimeters x 100 millimeters. Cover plates with sterile porcelain tops, glazed on the outside. Allow plates to stand at room temperature for 48 hours prior to use as a control on the sterility of the plates.

(5) *Medium E.*

	Grams
Dextrose	40.0
Peptone	10.0
Agar	15.0

Distilled water sufficient to make 1,000.0 milliliters.

pH 5.65±0.05 after sterilization.

Prepare, sterilize, and dispense as described for medium D.

(c) *Diluting fluids*—(1) *Diluting fluid A.* Dissolve 5 grams of peptone in sufficient distilled water to make 1,000 milliliters. Final pH=7.1±0.1. Dispense in flasks and sterilize as described in medium A.

(2) *Diluting fluid B.* Same as in subparagraph (1) of this paragraph, except add 5.0 milliliters of polysorbate 80 per liter.

(3) *Diluting fluid C.* Dissolve 0.5 gram of sodium thioglycollate in sufficient distilled water to make 1,000 milliliters and adjust with NaOH so that after sterilization the final pH will be 7.1±0.1. Dispense in flasks and sterilize as described for medium A.

(d) *Conduct of test*—(1) *Membrane filter method A.* From each of 20 immediate containers aseptically transfer a sample containing approximately 500 milligrams, or 50 milligrams if it is chlorotetracycline or tetracycline, of activity (use the entire contents if it contains less) and pool in a sterile, cotton-plugged 500-milliliter erlenmeyer flask containing approximately 200 milliliters of diluting fluid A. Swirl the flask to dissolve the drug. As soon as the sample has completely dissolved, aseptically filter the solution under vacuum through a sterile membrane bacteriological filter. The filter has a porosity of 0.22 micron ±0.02 micron, a diameter of approximately 47 millimeters, and a flow rate of 20 milliliters-24 milliliters per minute of distilled water at 25° C., passing each square centimeter of filter area with a differential pressure of 70 centimeters of mercury. Filter three separate 100-milliliter quantities of sterile distilled water through the membrane to remove any residual antibiotic. Aseptically transfer the membrane to a sterile absorbent pad in a sterile Petri dish. By means of a sterile circular blade, paper punch, or any other suitable sterile device, cut a circular portion (approximately 17.5-millimeter diameter) from the center of the filtering area. Transfer the cut center area to a sterile 38-millimeter x 200 millimeter (outside dimensions) test tube containing approximately 100 milliliters of medium A. Using sterile forceps, transfer the remaining outer portion of the membrane into a second similar tube. Incubate both tubes for 3 days at 21° C. ± 1° C. and 7 additional days at 31° C. ± 1° C. As a control, use 200 milliliters of the antibiotic-free diluting fluid and proceed as described in this subparagraph. Observe the tubes daily for visual growth. If growth is indicated in the sample tubes (no growth should occur in the control tubes), confirm by microscopic examination.

(2) *Membrane filter method B.* Proceed as directed in subparagraph (1) of this paragraph, except in lieu of pooling the contents of 20 containers, per-

form two separate tests, using a pool of 10 containers for each.

(3) *Direct method A.* From each of 21 immediate containers, transfer approximately 300 milligrams of activity to individual sterile tubes (38 millimeter \times 200 millimeter size) containing approximately 100 milliliters of medium A, to which sufficient penicillinase has been added to inactivate the penicillin. Use the entire contents if the container has less than 300 milligrams. To one of the 21 tubes, add 1.0 milliliter of a 1:1,000 dilution of an 18–24 hours broth culture of *Staphylococcus aureus*, A.T.-C.C. 6538-P. Incubate this tube and the remaining 20 tubes 3 days at 21° C. \pm 1° C. and 7 additional days at 31° C. \pm 1° C. The inoculated tube must show growth at the end of 24 hours.

(4) *Direct method B.* From each of 20 immediate containers, transfer approximately 500 milligrams of activity to individual sterile tubes (38 millimeter \times 200 millimeter size) containing approximately 100 milliliters of medium A. If the batch contains any penicillin, add sufficient penicillinase to the medium to inactivate the penicillin. Use entire contents if the container has less than 500 milligrams of activity. Incubate all tubes 3 days at 21° C. \pm 1° C. and 7 additional days at 31° C. \pm 1° C.

(e) *Evaluation of results—(1) Membrane filter methods.* The batch meets the requirements of the test if no tube shows growth. If growth is observed in any tube, repeat, except perform the test in duplicate, using the contents from 40 immediate containers. The batch meets the requirements if no tube on the repeat test shows growth.

(2) *Direct methods.* The batch meets the requirements of the test if no tube (except the control tube used in the test for penicillin only) shows growth after incubation. If growth occurs in no more than two tubes, repeat the test, using 40 containers, or 41 containers if the sample contains penicillin only. The batch is satisfactory if, on the second test, no tube shows growth except the control tube used in the test for penicillin only.

2. By changing § 141a.2 to read:

§ 141a.2 Sodium penicillin, calcium penicillin, potassium penicillin; sterility.

Proceed as directed in § 141.2 of this chapter, using the method described in § 141.2(d) (3).

3. By changing § 141a.7(b) to read:

(b) *Sterility.* Proceed as directed in § 141.2 of this chapter, using the method described in § 141.2(d) (3).

4. By changing § 141a.17(c) to read:

(c) *Sterility.* Proceed as directed in § 141.2 of this chapter, using the method described in § 141.2(d) (3).

5. By changing § 141a.23(b) to read:

(b) *Sterility.* Proceed as directed in § 141.2 of this chapter, using the method described in § 141.2(d) (3).

6. By changing § 141a.24(b) to read:

(b) *Sterility.* Proceed as directed in § 141.2 of this chapter, using the method described in § 141.2(d) (3).

7. By changing § 141a.26(b) to read:

(b) *Sterility.* Proceed as directed in § 141.2 of this chapter, using the method described in § 141.2(d) (3).

8. By changing § 141a.27(b) to read:

(b) *Sterility.* Proceed as directed in § 141.2 of this chapter, using the method described in § 141.2(d) (3).

9. By changing § 141a.29(b) to read:

(b) *Sterility.* Proceed as directed in § 141.2 of this chapter, using the method described in § 141.2(d) (3).

10. By changing § 141a.30(b) to read:

(b) *Sterility.* Proceed as directed in § 141.2 of this chapter, using the method described in § 141.2(d) (3).

11. By changing § 141a.34(e) to read:

(e) *Sterility.* Proceed as directed in § 141.2 of this chapter, using the method described in § 141.2(d) (3).

12. By changing § 141a.39(b) to read:

(b) *Sterility.* Proceed as directed in § 141.2 of this chapter, using the method described in § 141.2(d) (2), except if the product contains procaine penicillin add sufficient penicillinase to the peptone water and swirl the flask to completely solubilize the procaine penicillin before filtration. However, if the preparation contains *l*-phenamine penicillin, or if homogenizers or suspending agents prevent solubilization, proceed as directed in § 141.2(d) (4) of this chapter. If the preparation contains diethylaminoethyl ester penicillin G hydriodide, proceed as described in § 141.2(d) (4) of this chapter, except use medium C in lieu of medium A.

13. By changing § 141a.42(b) to read:

(b) *Sterility.* Proceed as directed in § 141.2 of this chapter, using the method described in § 141.2(d) (2).

14. By changing § 141a.43(b) to read:

(b) *Sterility.* Proceed as directed in § 141.2 of this chapter, using the method described in § 141.2(d) (3).

15. By changing § 141a.44(b) to read:

(b) *Sterility.* Proceed as directed in § 141.2 of this chapter, using the method described in § 141.2(d) (3).

16. By changing § 141a.45(b) to read:

(b) *Sterility.* Proceed as directed in § 141.2 of this chapter, using the method described in § 141.2(d) (3).

17. By changing § 141a.46(b) to read:

(b) *Sterility.* Proceed as directed in § 141.2 of this chapter, using the method described in § 141.2(d) (4).

18. By changing § 141a.47(b) to read:

(b) *Sterility.* Proceed as directed in § 141.2 of this chapter, using the method described in § 141.2(d) (3), except use medium B in lieu of medium A, and during the period of incubation shake the tubes at least once daily.

19. By changing § 141a.51(b) to read:

(b) *Sterility.* Proceed as directed in § 141.2 of this chapter, using the method

described in § 141.2(d) (3), except use medium C in lieu of medium A.

20. By changing § 141a.52(b) to read:

(b) *Sterility.* Proceed as directed in § 141.2 of this chapter, using the method described in § 141.2(d) (3), except use medium C in lieu of medium A.

21. By changing § 141a.52(b) to read:

(b) *Sterility.* Proceed as directed in § 141.2 of this chapter, using the method described in § 141.2(d) (3), except use medium B in lieu of medium A, and during the period of incubation shake the tubes at least once daily.

22. By changing § 141a.55(e) to read:

(e) *Sterility.* Proceed as directed in § 141.2 of this chapter, using the method described in § 141.2(d) (3), except use medium B in lieu of medium A, and during the period of incubation shake the tubes at least once daily.

23. By changing § 141a.59(c) to read:

(c) *Sterility.* Proceed as directed in § 141.2 of this chapter, using the method described in § 141.2(d) (4).

24. By changing § 141a.60(b) to read:

(b) *Sterility—(1) Penicillin and dihydrostreptomycin-streptomycin sulfates solution.* Proceed as directed in § 141.2 of this chapter, using the method described in § 141.2(d) (2).

(2) *Procaine penicillin in dihydrostreptomycin-streptomycin sulfates solution.* Proceed as directed in § 141.2 of this chapter, using the method described in § 141.2(d) (4).

25. By changing § 141a.61(b) to read:

(b) *Sterility.* Proceed as directed in § 141.2 of this chapter, using the method described in § 141.2(d) (3), except use medium B in lieu of medium A, and during the period of incubation shake the tubes at least once daily.

26. By changing § 141a.67(b) to read:

(b) *Sterility.* Proceed as directed in § 141.2 of this chapter, using the method described in § 141.2(d) (4), except use medium B in lieu of medium A, and during the period of incubation shake the tubes at least once daily.

27. By changing § 141a.68(b) to read:

(b) *Sterility.* Proceed as directed in § 141.2 of this chapter, using the method described in § 141.2(d) (4), except use medium B in lieu of medium A, and during the period of incubation shake the tubes at least once daily.

28. By changing § 141a.72(b) to read:

(b) *Sterility.* Proceed as directed in § 141.2 of this chapter, using the method described in § 141.2(d) (3), except use medium B in lieu of medium A, and during the period of incubation shake the tubes at least once daily.

29. By changing § 141a.78(b) to read:

(b) *Sterility.* Proceed as directed in § 141.2 of this chapter, using the method described in § 141.2(d) (3), except use medium B in lieu of medium A, and during the period of incubation shake the tubes at least once daily.

30. By changing § 141a.79(b) to read:

(b) *Sterility*. Proceed as directed in § 141.2 of this chapter using the method described in § 141.2(d) (3), except use medium B in lieu of medium A, and during the period of incubation shake the tubes at least once daily.

31. By changing § 141a.80(b) to read:

(b) *Sterility*. Proceed as directed in § 141.2 of this chapter, using the method described in § 141.2(d) (4), except use medium B in lieu of medium A, and during the period of incubation shake the tubes at least once daily.

32. By changing § 141a.83(b) to read:

(b) *Sterility*. Proceed as directed in § 141.2 of this chapter, using the method described in § 141.2(d) (3), except use medium B in lieu of medium A, and during the period of incubation shake the tubes at least once daily.

33. By changing § 141a.99(b) to read:

(b) *Sterility*. Proceed as directed in § 141.2 of this chapter, using the method described in § 141.2(d) (3), except use medium B in lieu of medium A, and during the period of incubation shake the tubes at least once daily.

34. By changing § 141a.103(b) to read:

(b) *Sterility*. Proceed as directed in § 141.2 of this chapter, using the method described in § 141.2(d) (3).

35. By changing § 141b.102 to read:

§ 141b.102 *Streptomycin sulfate, streptomycin hydrochloride, streptomycin phosphate, streptomycin trihydrochloride calcium chloride; sterility*.

Proceed as directed in § 141.2 of this chapter, using the method described in § 141.2(d) (2).

36. By changing § 141b.108(c) to read:

(c) *Sterility*. Proceed as directed in § 141.2 of this chapter, using the method described in § 141.2(d) (2).

37. By changing § 141b.114(b) to read:

(b) *Sterility*. Proceed as directed in § 141.2 of this chapter, using the method described in § 141.2(d) (4).

38. By changing § 141b.121(d) to read:

(d) *Sterility*. Proceed as directed in § 141.2 of this chapter, using the method described in § 141.2(d) (2).

39. By changing § 141c.201(b) to read:

(b) *Sterility*. Proceed as directed in § 141.2 of this chapter, using the method described in § 141.2(d) (2).

40. By changing § 141c.206(c) to read:

(c) *Sterility*. Proceed as directed in § 141.2 of this chapter, using the method described in § 141.2(d) (1).

41. By changing § 141c.211(b) to read:

(b) *Sterility*. Use approximately 50 milligrams of activity from each immediate container and proceed as directed in § 141.2 of this chapter, using the method described in § 141.2(d) (2). However, if it is packaged with inert gases, thoroughly cleanse the valve (do not flame) of each container to be tested

with a suitable disinfectant. Into each of two sterile, empty erlenmeyer flasks stoppered with a cotton plug, spray approximately the equivalent of 50 milligrams (activity) from 10 separate cans by removing the plug temporarily and using aseptic technique while spraying; allow propellant to evaporate, add 250 milliliters of diluting fluid A as described in § 141.2(c) (1), and proceed as directed in § 141.2 of this chapter, using the method described in § 141.2(d) (2).

42. By changing § 141c.213(b) to read:

(b) *Sterility*. Using the entire gauze packings when possible, or the largest portion that can be inserted into the culture tube, proceed as directed in § 141.2 of this chapter, using the method described in § 141.2(d) (4).

43. By changing § 141c.214(b) to read:

(b) *Sterility*. Using approximately one-fourth of each individual dressing to be tested, proceed as directed in § 141.2 of this chapter, using the method described in § 141.2(d) (4).

44. By changing § 141c.221(b) to read:

(b) *Sterility*. Proceed as directed in § 141.2 of this chapter, using the method described in § 141.2(d) (2).

45. By changing § 141c.227(b) to read:

(b) *Sterility*. Use approximately 50 milligrams of activity from each immediate container and proceed as directed in § 141.2 of this chapter, using the method described in § 141.2(d) (4).

46. By changing § 141c.235(b) to read:

(b) *Sterility*. Proceed as directed in § 141.2 of this chapter, using the method described in § 141.2(d) (2).

47. By changing § 141c.242(b) to read:

(b) *Sterility*. Thoroughly cleanse the valve (do not flame) of each container to be tested with a suitable disinfectant. Into each of two sterile, empty erlenmeyer flasks stoppered with a cotton plug, spray approximately the equivalent of 50 milligrams (activity) from 10 separate cans by removing the plug temporarily and using aseptic technique while spraying; allow propellant to evaporate and add 250 milliliters—500 milliliters of diluting fluid B as described in § 141.2(c) (2) of this chapter, and swirl the flasks to dissolve the contents; then proceed as directed in § 141.2 of this chapter, using the method described in § 141.2(d) (2).

48. By changing § 141c.244(b) to read:

(b) *Sterility*. Use 50 milligrams of activity from each immediate container and proceed as directed in § 141.2 of this chapter, using the method described in § 141.2(d) (4).

49. By changing § 141c.247(b) to read:

(b) *Sterility*. Using individual sutures, proceed as directed in § 141.2 of this chapter, using the method described in § 141.2(d) (4).

50. By changing § 141c.249(b) to read:

(b) *Sterility*. Proceed as directed in § 141.2 of this chapter, using the method described in § 141.2(d) (2).

51. By changing § 141c.250(b) to read:

(b) *Sterility*. Proceed as directed in § 141.2 of this chapter, using the method described in § 141.2(d) (2).

52. By changing § 141d.301(b) to read:

(b) *Sterility*. Use approximately 50 milligrams of activity from each immediate container and proceed as directed in § 141.2 of this chapter, using the method described in § 141.2(d) (2).

53. By changing § 141d.304(c) to read:

(c) *Sterility*. Use entire contents and proceed as directed in § 141.2 of this chapter, using the method described in § 141.2(d) (1), except if it contains cortisone, proceed as directed in § 141.2(d) (4).

54. By changing § 141d.307(b) to read:

(b) *Sterility*—(1) *Chloramphenicol solution*. Proceed as directed in § 141.2 of this chapter, using the method described in § 141.2(d) (2), except add the equivalent of 250 milligrams (activity) from each container directly to the dry filter, thus eliminating the preliminary solubilization step.

(2) *Chloramphenicol for aqueous infection*. Proceed as directed in § 141.2 of this chapter, using the method described in § 141.2(d) (4).

55. By changing § 141d.314(b) to read:

(b) *Sterility*. Proceed as directed in § 141.2 of this chapter, using the method described in § 141.2(d) (2).

56. By changing § 141d.315(b) to read:

(b) *Sterility*. Proceed as directed in § 141.2 of this chapter, using the method described in § 141.2(d) (2).

57. By changing § 141e.401(b) to read:

(b) *Sterility*. Proceed as directed in § 141.2 of this chapter, using the method described in § 141.2(d) (2).

58. By changing § 141e.408(d) to read:

(d) *Sterility*. Proceed as directed in § 141.2 of this chapter, using the method described in § 141.2(d) (1).

59. By changing § 141e.430(c) to read:

(c) *Microorganism count*—(1) *Dry powder*—(i) *Conduct of test for bacteria*. Using approximately 200 milligrams of powder from each of 5 separate immediate containers, proceed as directed in § 141.2(d) (2) of this chapter, except after the three washings transfer the entire filter membrane from one of the filters to the surface of the nutrient agar as described in § 141.2(b) (4) of this chapter. Incubate the plate for 5 days at 31° C. ±1° C. Count the number of colonies appearing on the filter pad and calculate therefrom the number of viable microorganisms per gram of powder.

(ii) *Conduct of test for molds and yeasts*. Proceed as directed in subdivision (i) of this subparagraph, using the filter membrane from the second filter, except use the agar medium E as described in § 141.2(b) (5) of this chapter, and incubate at 21° C. ±1° C. for 5 days. Count the number of colonies appearing on each filter pad and calculate therefrom the number of viable microorganisms per gram of powder.

(2) Powder packaged with inert gases—(i) *Conduct of test for bacteria.* Thoroughly cleanse the valve of each container to be tested with a suitable disinfectant. Into each of two sterile, empty erlenmeyer flasks, stoppered with a cotton plug, spray approximately 200 milligrams from each of 5 separate immediate containers, by removing the plug temporarily and using aseptic technique while spraying. Allow propellant to evaporate, add 250 milliliters of diluting fluid C as described in § 141.2(c) (3) of this chapter and swirl the flask to dissolve the contents. Then proceed as directed in § 141.2(d) (2) of this chapter, except after the three washings transfer the entire filter membrane from one of the filters to the surface of the nutrient agar as described in § 141.2(b) (4) of this chapter. Incubate the plate for 5 days at 31° C. $\pm 1^\circ$ C. Count the number of colonies appearing on the filter pad and calculate therefrom the number of viable microorganisms per gram of powder.

(ii) *Conduct of test for molds and yeasts.* Proceed as directed in subdivision (i) of this subparagraph, except use agar medium E as described in § 141.2 (b) (5) of this chapter, and incubate at 21° C $\pm 1^\circ$ C. for 5 days. Count the number of colonies appearing on each filter pad and calculate therefrom the number of viable microorganisms per gram of powder.

(3) *Evaluation of results.* The microorganism count of the sample is satisfactory if the average number of viable microorganisms is not more than 10 per gram.

60. By amending § 146a.15 in the following respects:

a. By changing paragraph (d) (2) and (3) to read:

§ 146a.15 Methicillin sodium.

* * * * *

(d) *Request for certification; samples.* * * *

(2) If such batch is packaged for dispensing, such person shall submit with his request an accurately representative sample of the batch, consisting of the following:

(i) For all tests except sterility: One immediate container for each 5,000 immediate containers in such batch, but in no case less than 10 immediate containers.

Such samples shall be collected by taking single immediate containers at such intervals throughout the entire time of packaging the batch that the quantities packaged during the intervals are approximately equal.

(ii) For sterility testing:

(a) For the initial test: 20 immediate containers collected at regular intervals throughout each filling operation. The term "filling operation" refers to any period that is no longer than 1 working day or shift. If more than one filling device is used during the filling operation, the sample shall include immediate containers filled by each device and each such container shall be identified with a mark corresponding to that assigned to the filling device. If more than one

filling operation is required to fill the batch, each container in the sample shall be identified with the number of the operation.

(b) For repeat testing: 40 immediate containers from each filling operation.

(3) If such batch is packaged for repackaging or for use as an ingredient in the manufacture of another drug, such person shall submit with his request an accurately representative sample of the batch, consisting of the following:

(i) For all tests except sterility: Nine packages, each containing approximately 300 milligrams, plus one package containing approximately 2 grams.

(ii) For sterility testing: For the initial test, 20 packages, and for repeat testing, 40 packages, each containing approximately 300 milligrams.

Each such portion shall be taken from a different part of such batch and each shall be packaged in accordance with the requirements of paragraph (b) of this section.

b. By changing paragraph (e) (1) to read:

(1) \$5.00 for each immediate container in the samples submitted in accordance with paragraph (d) (2) (i) and (3) (i) of this section; \$0.60 for each container submitted in accordance with paragraph (d) (2) (ii) and (3) (ii) of this section.

61. By amending § 146a.19 in the following respects:

a. By changing paragraph (d) (3) (i) and (4) (ii) to read:

§ 146a.19 Benzathine penicillin V for aqueous injection, veterinary.

* * * * *

(d) *Request for certification; samples.* * * *

(3) * * *

(i) The batch:

(a) For all tests except sterility: One immediate container for each 5,000 immediate containers in such batch, but in no case less than 10 immediate containers.

Such samples shall be collected by taking single immediate containers at such intervals throughout the entire time of packaging the batch that the quantities packaged during the intervals are approximately equal.

(b) For sterility testing:

(i) For the initial test: 20 immediate containers collected at regular intervals throughout each filling operation. The term "filling operation" refers to any period that is no longer than 1 working day or shift. If more than one filling device is used during the filling operation, the sample shall include immediate containers filled by each device, and each such container shall be identified with a mark corresponding to that assigned to the filling device. If more than one filling operation is required to fill the batch each container in the sample shall be identified with the number of the operation.

(2) For repeat testing: 40 immediate containers from each filling operation.

* * * * *

(4) * * *

(ii) For sterility testing: For the initial test, 20 packages, and for repeat testing, 40 packages.

Each such package shall contain not less than approximately 300 milligrams taken from different parts of such batch, and each shall be packaged in accordance with the requirements of paragraph (b) of this section.

b. By changing paragraph (e) (1) to read:

(1) \$4.00 for each immediate container in the samples submitted in accordance with paragraph (d) (3) (i) (a), (ii), (iii), (iv), and (4) (i) of this section; \$0.60 for each container submitted in accordance with paragraph (d) (3) (i) (b) and (4) (ii) of this section.

62. By amending § 146a.24 in the following respects:

a. By changing paragraph (d) (2) and (3) to read:

(2) If such batch is packaged for dispensing, such person shall submit with his request a sample consisting of the following:

(i) For all tests except sterility: One immediate container for each 5,000 containers in the batch, but in no case less than the following number of containers:

(a) If it is not crystalline penicillin, six.

(b) If it is crystalline penicillin, but it is not crystalline penicillin G or crystalline penicillin O, eight.

(c) If it is crystalline penicillin G or crystalline penicillin O, ten.

(d) If it is packaged in containers of less than 100,000 units each for dental use, 20, if it is not crystalline penicillin; and 40 if it is crystalline penicillin.

Such sample shall be collected by taking single immediate containers, before or after labeling, at such intervals throughout the entire time of packaging the batch that the quantities packaged during the intervals are approximately equal.

(ii) For sterility testing:

(a) For the initial test: 20 immediate containers collected at regular intervals throughout each filling operation. The term "filling operation" refers to any period that is no longer than 1 working day or shift. If more than one filling device is used during the filling operation, the sample shall include immediate containers filled by each device, and each such container shall be identified with a mark corresponding to that assigned to the filling device. If more than one filling operation is required to fill the batch, each container in the sample shall be identified with the number of the operation.

(b) For repeat testing: 40 immediate containers from each filling operation.

(3) If such batch is packaged for repackaging or for use in the manufacture of another drug, such person shall submit with his request an accurately representative sample of the batch, consisting of the following:

(i) For all tests except sterility: Six packages; or in the case of crystalline penicillin, 10 packages, containing approximately equal portions of not less than 60 milligrams each.

(ii) For sterility testing: For the initial test, 20 packages; and for repeat testing, 40 packages, each containing approximately 300 milligrams.

Each such portion shall be taken from a different part of such batch and each shall be packaged in accordance with the requirements of paragraph (b) of this section.

b. By changing paragraph (e) (1) to read:

(1) \$4.00 for each immediate container in the samples submitted in accordance with paragraph (d) (2) (i) (a), (b), and (c), (3) (i), and (4) of this section; \$1.00 for each immediate container in the sample submitted in accordance with paragraph (d) (2) (i) (d) of this section; \$0.60 for each container submitted in accordance with paragraphs (d) (2) (ii) and (3) (ii) of this section.

- 63. By amending § 146a.25 in the following respects:

a. By changing paragraph (d) (3) (i) and (ii) to read:

(i) The batch:

(a) For all tests except sterility: One package for each 5,000 packages in the batch, but in no case less than five packages.

Such samples shall be collected by taking single packages at such intervals throughout the entire time of packaging the batch that the quantities packaged during the intervals are approximately equal.

(b) For sterility testing:

(1) For the initial test: 20 immediate containers collected at regular intervals throughout each filling operation. The term "filling operation" refers to any period that is no longer than 1 working day or shift. If more than one filling device is used during the filling operation, the sample shall include immediate containers filled by each device, and each such container shall be identified with a mark corresponding to that assigned to the filling device. If more than one filling operation is required to fill the batch, each container in the sample shall be identified with the number of the operation.

(2) For repeat testing: 40 immediate containers from each filling operation.

(ii) The penicillin used in making the batch:

(a) For all tests except sterility: 6 packages if it is calcium penicillin, or 10 packages if it is crystalline penicillin, each containing approximately equal portions of not less than 60 milligrams.

(b) For sterility testing: For the initial test, 20 packages; and for repeat testing, 40 packages, each containing approximately 300 milligrams.

Each such portion shall be taken from a different part of such batch and each shall be packaged in accordance with the requirements of § 146a.24(b).

b. By changing paragraph (e) (1) to read:

(1) \$4.00 for each package in the samples submitted in accordance with paragraph (d) (3) (i) (a), (ii) (a), and (iii) of this section; \$0.60 for each container submitted in accordance with paragraph (d) (3) (i) (b) and (ii) (b) of this section.

64. By amending § 146a.35 in the following respects:

a. By changing paragraph (d) (3) (i) and (ii) to read:

(i) The batch:

(a) For all tests except sterility: One immediate container for each 5,000 immediate containers in the batch, but in no case less than five immediate containers, unless each such container is packaged to contain more than 1 gram, in which case the sample shall consist of 1 gram for each 5,000 immediate containers in the batch, but in no case less than 5 grams.

Such samples shall be collected by taking single immediate containers or 1-gram portions at such intervals throughout the entire time of packaging the batch that the quantities packaged during the intervals are approximately equal.

(b) For sterility testing:

(1) For the initial test: 20 immediate containers, collected at regular intervals throughout each filling operation. The term "filling operation" refers to any period that is no longer than 1 working day or shift. If more than one filling device is used during the filling operation, the sample shall include immediate containers filled by each device, and each such container shall be identified with a mark corresponding to that assigned to the filling device. If more than one filling operation is required to fill the batch, each container in the sample shall be identified with the number of the operation.

(2) For repeat testing: 40 immediate containers from each filling operation.

(ii) The penicillin used in making the batch:

(a) For all tests except sterility: Five packages; or in the case of crystalline penicillin, 10 packages, each containing approximately equal portions of not less than 60 milligrams.

(b) For sterility testing: For the initial test, 20 packages; and for repeat testing, 40 packages, each containing approximately 300 milligrams.

Each such portion shall be taken from a different part of such batch and each shall be packaged in accordance with the requirements of § 146a.24(b).

b. By changing paragraph (e) (1) to read:

(1) \$4.00 for each immediate container in the samples submitted in accordance with paragraph (d) (3) (i) (a), (ii) (a), and (iii) of this section; \$0.60 for each container submitted in accordance with paragraph (d) (3) (i) (b) and (ii) (b) of this section.

65. By amending § 146a.41 in the following respects:

a. By changing paragraph (d) (3) (i) and (ii) to read:

(i) The batch:

(a) For all tests except sterility: One package for each 500 packages in the batch, but in no case less than five packages or more than 15 packages.

Such samples shall be collected by taking single packages at such intervals throughout the entire time of packaging the batch that the quantities packaged during the intervals are approximately equal.

(b) For sterility testing:

(1) For the initial test: 20 immediate containers collected at regular intervals throughout each filling operation. The term "filling operation" refers to any period that is no longer than 1 working day or shift. If more than one filling device is used during the filling operation, the sample shall include immediate containers filled by each device, and each such container shall be identified with a mark corresponding to that assigned to the filling device. If more than one filling operation is required to fill the batch, each container in the sample shall be identified with the number of the operation.

(2) For repeat testing: 40 immediate containers from each filling operation.

(ii) The penicillin used in making the batch:

(a) For all tests except sterility: 10 packages, each containing approximately equal portions of not less than 60 milligrams.

(b) For sterility testing: For the initial test, 20 packages; and for repeat testing, 40 packages, each containing approximately 300 milligrams.

Each such portion shall be taken from a different part of such batch and each shall be packaged in accordance with the requirements of § 146a.24(b).

b. By changing paragraph (e) (1) to read:

(1) \$4.00 for each immediate container in the samples submitted in accordance with paragraph (d) (3) (i) (a), (ii) (a), and (iii) of this section; \$0.60 for each container submitted in accordance with paragraph (d) (3) (i) (b) and (ii) (b) of this section.

66. By amending § 146a.42 in the following respects:

a. By changing paragraph (d) (2) (i) and (ii) to read:

(i) For all tests except sterility: Six packages, containing approximately equal portions of not less than 60 milligrams each.

(ii) For sterility testing: For the initial test, 20 packages; and for repeat testing, 40 packages, each containing approximately 300 milligrams.

Each such portion shall be taken from a different part of such batch and each shall be packaged in accordance with the requirements of paragraph (b) of this section.

b. By changing paragraph (e) (1) to read:

(1) \$4.00 for each immediate container in the samples submitted in accordance with paragraph (d) (2) (i) and (3) of this section; \$0.60 for each container submitted in accordance with paragraph (d) (2) (ii) of this section.

67. By amending § 146a.43 in the following respects:

a. By changing paragraph (d) (3) (i) and (ii) to read:

(i) The batch:

(a) For all tests except sterility: One package for each 500 packages in the batch, but in no case less than three packages or more than 12 packages.

Such samples shall be collected by taking single packages at such intervals throughout the entire time of packaging the batch that the quantities packaged during the intervals are approximately equal.

(b) For sterility testing:

(1) For the initial test: 20 immediate containers collected at regular intervals throughout each filling operation. The term "filling operation" refers to any period that is no longer than 1 working day or shift. If more than one filling device is used during the filling operation, the sample shall include immediate containers filled by each device, and each such container shall be identified with a mark corresponding to that assigned to the filling device. If more than one filling operation is required to fill the batch, each container in the sample shall be identified with the number of the operation.

(2) For repeat testing: 40 immediate containers from each filling operation.

(ii) The aluminum penicillin used in making the batch:

(a) For all tests except sterility: Six packages, each containing approximately equal portions of not less than 300 milligrams.

(b) For sterility testing: For the initial test, 20 packages; and for repeat testing, 40 packages, each containing approximately 300 milligrams.

Each such portion shall be taken from a different part of such batch, and each shall be packaged in accordance with the requirements of § 146a.42(b).

b. By changing paragraph (e) (1) to read:

(1) \$8.00 for each package in the sample submitted in accordance with paragraph (d) (3) (i) (a) of this section; \$4.00 for each package in the samples submitted in accordance with paragraphs (d) (3) (ii) (a) and (iii) of this section; \$0.60 for each container submitted in accordance with paragraph (d) (3) (i) (b) and (ii) (b) of this section.

68. By amending § 146a.44 in the following respects:

a. By changing paragraph (d) (2) (ii) to read:

(ii) For sterility testing: For the initial test, 20 packages; and for repeat testing, 40 packages.

b. By changing paragraph (e) (1) to read:

(1) \$4.00 for each immediate container in the samples submitted in accordance with paragraph (d) (2) (i) and (3) of this section; \$0.60 for each container submitted in accordance with paragraph (d) (2) (ii) of this section.

69. By amending § 146a.45 in the following respects:

a. By deleting subdivisions (i) and (ii) from paragraph (c) (2) and by incorporating subdivision (iii) into subparagraph (2).

b. By changing paragraph (d) (3) (i) and (ii) to read:

(i) The batch:

(a) For all tests except sterility: One package for each 5,000 packages in the batch, but in no case less than five packages.

Such samples shall be collected by taking single packages at such intervals throughout the entire time of packaging the batch that the quantities packaged during the intervals are approximately equal.

(b) For sterility testing:

(1) For the initial test: 20 immediate containers collected at regular intervals throughout each filling operation. The term "filling operation" refers to any period that is no longer than 1 working day or shift. If more than one filling device is used during the filling operation, the sample shall include immediate containers filled by each device, and each such container shall be identified with a mark corresponding to that assigned to the filling device. If more than one filling operation is required to fill the batch, each container in the sample shall be identified with the number of the operation.

(2) For repeat testing: 40 immediate containers from each filling operation.

(ii) The procaine penicillin used in making the batch:

(a) For all tests except sterility: 10 packages, each containing approximately equal portions of 300 milligrams.

(b) For sterility testing: For the initial test, 20 packages; and for repeat testing, 40 packages, each containing approximately 300 milligrams.

Each such portion shall be taken from a different part of such batch, and each shall be packaged in accordance with the requirements of § 146a.44(b).

c. By changing paragraph (e) (1) to read:

(1) \$4.00 for each package in the samples submitted in accordance with paragraph (d) (3) (i) (a), (ii) (a), and (iii) of this section; \$0.60 for each container submitted in accordance with paragraph (d) (3) (i) (b) and (ii) (b) of this section.

70. By amending § 146a.47 in the following respects:

a. By changing paragraph (d) (3) (i) and (4) (ii) to read:

(d) * * *

(3) * * *

(i) The batch:

(a) For all tests except sterility: One immediate container for each 5,000

immediate containers in such batch, but in no case less than 10 immediate containers.

Such samples shall be collected by taking single immediate containers at such intervals throughout the entire time of packaging the batch that the quantities packaged during the intervals are approximately equal.

(b) For sterility testing:

(1) For the initial test: 20 immediate containers, collected at regular intervals throughout each filling operation. The term "filling operation" refers to any period that is no longer than 1 working day or shift. If more than one filling device is used during the filling operation, the sample shall include immediate containers filled by each device, and each such container shall be identified with a mark corresponding to that assigned to the filling device. If more than one filling operation is required to fill the batch, each container in the sample shall be identified with the number of the operation.

(2) For repeat testing: 40 immediate containers for each filling operation.

* * *

(4) * * *
(ii) For sterility testing: For the initial tests, 20 packages; and for repeat testing, 40 packages.

b. By changing paragraph (e) (2) to read:

(2) \$0.60 for each container submitted in accordance with paragraph (d) (3) (i) (b) and (4) (ii) of this section.

71. By amending § 146a.48 in the following respects:

a. By changing paragraph (d) (2) (ii) to read:

(ii) For sterility testing: For the initial tests, 20 packages; and for repeat testing, 40 packages.

b. By changing paragraph (e) (1) to read:

(1) \$4.00 for each immediate container in the samples submitted in accordance with paragraph (d) (2) (i) and (3) of this section; \$0.60 for each container submitted in accordance with paragraph (d) (2) (ii) of this section.

72. By amending § 146a.52 in the following respects:

a. By changing the last sentence of paragraph (a) (3) to read: "In addition to the 20 immediate containers required by § 146a.45(d) (3) (i) (b) (1), he shall also submit in connection with his request a sample consisting of not less than six packages of the batch of procaine penicillin and crystalline penicillin in oil; a sample of the crystalline penicillin used in making the batch, consisting of 10 packages, each containing approximately equal portions of not less than 60 milligrams; and 20 packages for sterility testing, each containing approximately equal portions of not less than 300 milligrams."

b. By changing paragraph (b) (3) to read:

(3) \$0.60 for each 300-milligram container submitted in accordance with paragraph (a) (3) of this section.

73. By amending § 146a.58 in the following respects:

a. By changing paragraph (d) (3) (i) and (4) (ii) to read:

(d) * * *

(3) * * *

(i) The batch:

(a) For all tests except sterility: One immediate container for each 5,000 immediate containers in such batch, but in no case less than 12 immediate containers.

Such samples shall be collected by taking single immediate containers at such intervals throughout the entire time of packaging the batch that the quantities packaged during the intervals are approximately equal.

(b) For sterility testing:

(1) For the initial test: 20 immediate containers, collected at regular intervals throughout each filling operation. The term "filling operation" refers to any period that is no longer than 1 working day or shift. If more than one filling device is used during the filling operation, the sample shall include immediate containers filled by each device, and each such container shall be identified with a mark corresponding to that assigned to the filling device. If more than one filling operation is required to fill the batch, each container in the sample shall be identified with the number of the operation.

(2) For repeat testing: 40 immediate containers from each filling operation.

(4) * * *

(ii) For sterility testing: For the initial test, 20 packages; and for repeat testing, 40 packages, each containing approximately equal portions of at least 0.5 gram.

b. By changing paragraph (e) (1) to read:

(1) \$4.00 for each immediate container in the samples submitted in accordance with paragraph (d) (3) (ii), (iii), (iv), (v), (vi), and (vii) of this section; \$5.00 for each immediate container submitted in accordance with paragraph (d) (3) (i) (a) and (4) (i) of this section; \$0.60 for each container submitted in accordance with paragraph (d) (3) (i) (b) and (4) (ii) of this section.

74. By amending § 146a.63 in the following respects:

a. By changing paragraph (d) (3) (i) and (4) (ii) to read:

(d) * * *

(3) * * *

(i) The batch:

(a) For all tests except sterility: One immediate container for each 5,000 immediate containers in such batch, but in no case less than 10 immediate containers.

Such samples shall be collected by taking single immediate containers at such intervals throughout the entire time of packaging the batch that the quantities packaged during the intervals are approximately equal.

(b) For sterility testing:

(1) For the initial test: 20 immediate containers, collected at regular intervals

throughout each filling operation. The term "filling operation" refers to any period that is no longer than 1 working day or shift. If more than one filling device is used during the filling operation, the sample shall include immediate containers filled by each device, and each such container shall be identified with a mark corresponding to that assigned to the filling device. If more than one filling operation is required to fill the batch, each container in the sample shall be identified with the number of the operation.

(2) For repeat testing: 40 immediate containers from each filling operation.

* * *

(4) * * *

(ii) For sterility testing: For the initial test, 20 packages; and for repeat testing, 40 packages, each containing approximately equal portions of at least 0.5 gram each.

b. By changing paragraph (e) (1) to read:

(1) \$4.00 for each immediate container submitted in accordance with paragraph (d) (3) (ii), (iii), and (iv) of this section; \$5.00 for each immediate container submitted in accordance with paragraph (d) (3) (i) (a) and (4) (i) of this section; \$0.60 for each container submitted in accordance with paragraph (d) (3) (i) (b) and (4) (ii) of this section.

75. By amending § 146a.64 in the following respects:

a. By changing paragraph (d) (2) (ii) to read:

(ii) For sterility testing: For the initial test, 20 packages; and for repeat testing, 40 packages.

b. By changing paragraph (e) (1) to read:

(1) \$4.00 for each immediate container in the samples submitted in accordance with paragraph (d) (2) (i) and (3) of this section; \$0.60 for each container submitted in accordance with paragraph (d) (2) (ii) of this section.

76. By amending § 146a.65 in the following respects:

a. By changing paragraph (d) (3) (i) and (ii) to read:

(i) The batch:

(a) For all tests except sterility: One package for each 5,000 packages in the batch, but in no case less than five packages.

Such samples shall be collected by taking single packages at such intervals throughout the entire time of packaging the batch that the quantities packaged during the intervals are approximately equal.

(b) For sterility testing:

(1) For the initial test: 20 immediate containers collected at regular intervals throughout each filling operation. The term "filling operation" refers to any period that is no longer than 1 working day or shift. If more than one filling device is used during the filling operation, the sample shall include immediate containers filled by each device, and each such container shall be identified

with a mark corresponding to that assigned to the filling device. If more than one filling operation is required to fill the batch, each container in the sample shall be identified with the number of the operation.

(2) For repeat testing: 40 immediate containers from each filling operation.

(ii) The L-phenamine penicillin G used in making the batch:

(a) For all tests except sterility: 10 packages, each containing approximately equal portions of not less than 300 milligrams.

(b) For sterility testing: For the initial test, 20 packages; and for repeat testing, 40 packages, each containing approximately 300 milligrams.

Each such portion shall be taken from a different part of such batch and each shall be packaged in accordance with the requirements of § 146a.64(b).

b. By changing paragraph (e) (1) to read:

(1) \$4.00 for each package in the samples submitted in accordance with paragraph (d) (3) (i) (a), (ii) (a), and (iii) of this section; \$0.60 for each container submitted in accordance with paragraph (d) (3) (i) (b) and (ii) (b) of this section.

77. By amending § 146a.66 in the following respects:

a. By changing paragraph (d) (3) (i) and (4) (ii) to read:

(d) * * *

(3) * * *

(i) The batch:

(a) For all tests except sterility: One immediate container for each 5,000 immediate containers in such batch, but in no case less than 10 immediate containers.

Such samples shall be collected by taking single immediate containers at such intervals throughout the entire time of packaging the batch that the quantities packaged during the intervals are approximately equal.

(b) For sterility testing:

(1) For the initial test: 20 immediate containers, collected at regular intervals throughout each filling operation. The term "filling operation" refers to any period that is no longer than 1 working day or shift. If more than one filling device is used during the filling operation, the sample shall include immediate containers filled by each device, and each such container shall be identified with a mark corresponding to that assigned to the filling device. If more than one filling operation is required to fill the batch, each container in the sample shall be identified with the number of the operation.

(2) For repeat testing: 40 immediate containers from each filling operation.

* * *

(4) * * *

(ii) For sterility testing: For the initial test, 20 packages; and for repeat testing, 40 packages.

b. By changing paragraph (e) (1) to read:

(1) \$4.00 for each immediate container in the samples submitted in accordance

with paragraph (d) (3) (i) (a), (ii), (iii), (iv), and (4) (i) of this section; \$0.60 for each container submitted in accordance with paragraph (d) (3) (i) (b) and (4) (ii) of this section.

78. By amending § 146a.67 in the following respects:

a. By changing paragraph (d) (3) (i) and (4) (ii) to read:

(d) * * *

(3) * * *

(i) The batch:

(a) For all tests except sterility: One immediate container for each 5,000 immediate containers in such batch, but in no case less than 12 immediate containers.

Such samples shall be collected by taking single immediate containers at such intervals throughout the entire time of packaging the batch that the quantities packaged during the intervals are approximately equal.

(b) For sterility testing:

(1) For the initial test: 20 immediate containers, collected at regular intervals throughout each filling operation. The term "filling operation" refers to any period that is no longer than 1 working day or shift. If more than one filling device is used during the filling operation, the sample shall include immediate containers filled by each device, and each such container shall be identified with a mark corresponding to that assigned to the filling device. If more than one filling operation is required to fill the batch, each container in the sample shall be identified with the number of the operation.

(2) For repeat testing: 40 immediate containers from each filling operation.

(4) * * *

(ii) For sterility testing: For the initial test, 20 packages; and for repeat testing, 40 packages, each containing approximately equal portions of at least 1 milliliter.

b. By changing paragraph (e) (1) to read:

(1) \$4.00 for each immediate container in the samples submitted in accordance with paragraph (d) (3) (ii), (iii), and (iv) of this section; \$5.00 for each container submitted in accordance with paragraph (d) (3) (i) (a) and (4) (i) of this section; \$0.60 for each container submitted in accordance with paragraph (d) (3) (i) (b) and (4) (ii) of this section.

79. By amending § 146a.68 in the following respects:

a. By changing paragraph (d) (2) (ii) to read:

(ii) For sterility testing: For the initial test, 20 packages; and for repeat testing, 40 packages.

b. By changing paragraph (e) (1) to read:

(1) \$4.00 for each immediate container in the sample submitted in accordance with paragraph (d) (2) (i) and (3) of this section; \$0.60 for each container submitted in accordance with paragraph (d) (2) (ii) of this section.

80. By amending § 146a.74 in the following respects:

a. By changing paragraph (d) (2) (ii) to read:

(ii) For sterility testing: For the initial test, 20 packages; and for repeat testing, 40 packages.

b. By changing paragraph (e) (1) to read:

(1) \$4.00 for each immediate container in the samples submitted in accordance with paragraph (d) (2) (i) and (3) of this section; \$0.60 for each container submitted in accordance with paragraph (d) (2) (ii) of this section.

81. By amending § 146a.75 in the following respects:

a. By changing paragraph (d) (3) (i) and (4) (ii) to read:

(d) * * *

(3) * * *

(i) The batch:

(a) For all tests except sterility: One immediate container for each 5,000 immediate containers in such batch, but in no case less than 10 immediate containers.

Such samples shall be collected by taking single immediate containers at such intervals throughout the entire time of packaging the batch that the quantities packaged during the intervals are approximately equal.

(b) For sterility testing:

(1) For the initial test: 20 immediate containers, collected at regular intervals throughout each filling operation. The term "filling operation" refers to any period that is no longer than 1 working day or shift. If more than one filling device is used during the filling operation, the sample shall include immediate containers filled by each device, and each such container shall be identified with a mark corresponding to that assigned to the filling device. If more than one filling operation is required to fill the batch, each container in the sample shall be identified with the number of the operation.

(2) For repeat testing: 40 immediate containers from each filling operation.

(4) * * *

(ii) For sterility testing: For the initial test, 20 packages; and for repeat testing, 40 packages.

b. By changing paragraph (e) (1) to read:

(1) \$4.00 for each immediate container in the samples submitted in accordance with paragraph (d) (3) (i) (a), (ii), (iii), (iv), and (4) (i) of this section; \$0.60 for each container submitted in accordance with paragraph (d) (3) (i) (b) and (4) (ii) of this section.

82. By amending § 146a.77 in the following respects:

a. By changing paragraph (d) (3) (i) and (4) (ii) to read:

(d) * * *

(3) * * *

(i) The batch:

(a) For all tests except sterility: One immediate container for each 5,000 immediate containers in such batch, but in

no case less than 10 immediate containers.

Such samples shall be collected by taking single immediate containers at such intervals throughout the entire time of packaging the batch that the quantities packaged during the intervals are approximately equal.

(b) For sterility testing:

(1) For the initial test: 20 immediate containers, collected at regular intervals throughout each filling operation. The term "filling operation" refers to any period that is no longer than 1 working day or shift. If more than one filling device is used during the filling operation, the sample shall include immediate containers filled by each device, and each such container shall be identified with a mark corresponding to that assigned to the filling device. If more than one filling operation is required to fill the batch, each container in the sample shall be identified with the number of the operation.

(2) For repeat testing: 40 immediate containers from each filling operation.

(4) * * *

(ii) For sterility testing: For the initial test, 20 packages; and for repeat testing, 40 packages.

b. By changing paragraph (e) (1) to read:

(1) \$4.00 for each immediate container in the samples submitted in accordance with paragraph (d) (3) (i) (a), (ii), (iii), (iv), and (4) (i) of this section; \$0.60 for each container submitted in accordance with paragraph (d) (3) (i) (b) and (4) (ii) of this section.

83. By amending § 146a.79 in the following respects:

a. By changing paragraph (d) (2) (ii) to read:

(ii) For sterility testing: For the initial test, 20 packages; and for repeat testing, 40 packages.

b. By changing paragraph (e) (1) to read:

(1) \$4.00 for each immediate container in the samples submitted in accordance with paragraph (d) (2) (i) and (3) of this section; \$0.60 for each container submitted in accordance with paragraph (d) (2) (ii) of this section.

84. By amending § 146a.80 in the following respects:

a. By changing paragraph (d) (3) (i) and (4) (ii) to read:

(d) * * *

(3) * * *

(i) The batch:

(a) For all tests except sterility: One immediate container for each 5,000 immediate containers in such batch, but in no case less than 10 immediate containers.

Such samples shall be collected by taking single immediate containers at such intervals throughout the entire time of packaging the batch that the quantities packaged during the intervals are approximately equal.

(b) For sterility testing:

(1) For the initial test, 20 immediate containers collected at regular intervals throughout each filling operation. The term "filling operation" refers to any period that is no longer than 1 working day or shift. If more than one filling device is used during the filling operation, the sample shall include immediate containers filled by each device, and each such container shall be identified with a mark corresponding to that assigned to the filling device. If more than one filling operation is required to fill the batch, each container in the sample shall be identified with the number of the operation.

(2) For repeat testing: 40 immediate containers from each filling operation.

* * *

(ii) For sterility testing: For the initial test, 20 packages; and for repeat testing, 40 packages.

b. By changing paragraph (e) (1) to read:

(1) \$4.00 for each immediate container in the samples submitted in accordance with paragraph (d) (3) (i) (a), (ii), (iii), and (iv) and (4) (i) of this section; \$0.60 for each container submitted in accordance with paragraph (d) (3) (i) (b) and (4) (ii) of this section.

85. By amending § 146a.82 in the following respects:

a. By changing paragraph (d) (3) to read:

(3) Except as otherwise provided by subparagraph (4) of this paragraph, such person shall submit in connection with his request, in the quantities hereinafter indicated, accurately representative samples of the following:

(i) The batch:

(a) For all tests except sterility: One package for each 5,000 packages in the batch, but in no case less than seven packages.

Such samples shall be collected by taking single packages at such intervals throughout the entire time of packaging the batch that the quantities packaged during the intervals are approximately equal.

(b) For sterility testing:

(1) For the initial test: 20 immediate containers, collected at regular intervals throughout each filling operation. The term "filling operation" refers to any period that is no longer than 1 working day or shift. If more than one filling device is used during the filling operation, the sample shall include immediate containers filled by each device, and each such container shall be identified with a mark corresponding to that assigned to the filling device. If more than one filling operation is required to fill the batch, each container in the sample shall be identified with the number of the operation.

(2) For repeat testing: 40 immediate containers from each filling operation.

(ii) The penicillin used in making the batch:

(a) For all tests except sterility: Five packages, or in the case of crystalline penicillin, 10 packages, each containing

approximately equal portions of not less than 60 milligrams if it is not procaine penicillin, and not less than 300 milligrams if it is procaine penicillin.

(b) For sterility testing: For the initial test, 20 packages; and for repeat testing, 40 packages, each containing approximately equal portions of 300 milligrams.

Such samples shall be packaged in accordance with the requirements of § 146a.24(b) or § 146a.44(b).

(iii) The streptomycin or dihydrostreptomycin used in making the batch:

(a) For all tests except sterility: Five packages containing approximately equal portions of not less than 0.5 grams.

(b) For sterility testing: For the initial test, 20 packages; and for repeat testing, 40 packages, each containing approximately equal portions of 0.5 gram.

Such samples shall be packaged in accordance with the requirements of § 146b.101(b) of this chapter.

(iv) The bacitracin used in making the batch:

(a) For all tests except sterility: Six packages, each containing approximately equal portions of not less than 0.5 gram.

(b) For sterility testing: For the initial test, 20 packages; and for repeat testing, 40 packages, each containing approximately equal portions of 0.5 gram.

Such samples shall be packaged in accordance with the requirements of § 146e.401(b) of this chapter.

(v) In case of an initial request for certification: Each other ingredient used in making the batch; one package of each, containing approximately 5 grams.

b. By changing paragraph (e) (1) to read:

(1) \$4.00 for each immediate container submitted in accordance with paragraph (d) (3) (ii) (a), (iii) (a), (iv) (a), and (v) of this section; \$6.00 for each immediate container submitted in accordance with paragraph (d) (3) (i) (a) of this section; \$4.00 for each immediate container submitted in accordance with paragraph (d) (3) (ii) (a) of this section; \$0.60 for each container submitted in accordance with paragraph (d) (3) (i) (b), (ii) (b), (iii) (b), and (iv) (b) of this section.

86. By amending § 146a.84 in the following respects:

a. By changing paragraph (d) (3) (i) and (4) (ii) to read:

(d) * * *

(3) * * *

(i) The batch:

(a) For all tests except sterility: One immediate container for each 5,000 immediate containers in such batch, but in no case less than 13 (14, if it contains benzathine penicillin G) immediate containers.

Such samples shall be collected by taking single immediate containers at such intervals throughout the entire time of packaging the batch that the quantities packaged during the intervals are approximately equal.

(b) For sterility testing:

(1) For the initial test: 20 immediate containers, collected at regular intervals throughout each filling operation. The

term "filling operation" refers to any period that is no longer than 1 working day or shift. If more than one filling device is used during the filling operation, the sample shall include immediate containers filled by each device, and each such container shall be identified with a mark corresponding to that assigned to the filling device. If more than one filling operation is required to fill the batch, each container in the sample shall be identified with the number of the operation.

(2) For repeat testing: 40 immediate containers from each filling operation.

* * *

(4) * * *

(ii) For sterility testing: For the initial test, 20 packages; and for repeat testing, 40 packages, each containing approximately equal portions of at least 0.5 gram.

b. By changing paragraph (e) (1) to read:

(1) \$4.00 for each container submitted in accordance with paragraph (d) (3) (ii), (iii), (iv), (v), (vi), and (vii) of this section; \$6.00 for each immediate container submitted in accordance with paragraph (d) (3) (i) (a) and (4) (i) of this section; \$0.60 for each container submitted in accordance with paragraph (d) (3) (i) (b) and (4) (ii) of this section.

87. By amending § 146a.94 in the following respects:

a. By changing paragraph (d) (2) (i) and (ii) to read:

(i) For all tests except sterility: 10 packages.

(ii) For sterility testing: For the initial test, 20 packages; and for repeat testing, 40 packages.

b. By changing paragraph (e) (1) to read:

(1) \$4.00 for each immediate container in the samples submitted in accordance with paragraph (d) (2) (i) and (3) of this section; \$0.60 for each container submitted in accordance with paragraph (d) (2) (ii) of this section.

88. By amending § 146a.101 in the following respects:

a. By changing paragraph (a) (4) (ii) to read:

(ii) For sterility testing: For the initial test, 20 packages; and for repeat testing, 40 packages.

b. By changing paragraph (b) (3) to read:

(3) \$0.60 for each container submitted in accordance with paragraph (a) (4) (ii) of this section.

89. By amending § 146a.102 in the following respects:

a. By changing the second sentence in paragraph (a) (3) to read: "He shall also submit in connection with his request a sample consisting of not less than seven immediate containers of the batch, and (unless it was previously submitted) a sample consisting of five packages (for all tests except sterility) and 20 packages for initial sterility testing (40 packages for repeat sterility testing), each containing approximately 0.5 gram of the

streptomycin or dihydrostreptomycin used in making the batch, packaged in accordance with the requirements of § 146b.101(b) of this chapter."

b. By changing paragraph (b) (3) to read:

(3) \$0.60 for each container submitted for sterility testing.

90. By amending § 146a.105 in the following respects:

a. By changing paragraph (d) (2) (i) and (ii) to read:

(i) For all tests except sterility: 10 packages.

(ii) For sterility testing: For the initial test, 20 packages; and for repeat testing, 40 packages.

b. By changing paragraph (e) (1) to read:

(1) \$4.00 for each immediate container in the samples submitted in accordance with paragraph (d) (2) (i) and (3) of this section; \$0.60 for each container submitted in accordance with paragraph (d) (2) (ii) of this section.

91. By amending § 146b.101 in the following respects:

a. By changing paragraph (d) (2) (i) and (3) (ii) to read:

(d) * * *

(2) * * *

(i) For all tests except sterility: One immediate container for each 5,000 immediate containers in such batch, but in no case less than five immediate containers.

Such samples shall be collected by taking single immediate containers at such intervals throughout the entire time of packaging the batch that the quantities packaged during the intervals are approximately equal.

(ii) For sterility testing:

(a) For the initial test: 20 immediate containers collected at regular intervals throughout each filling operation. The term "filling operation" refers to any period that is no longer than 1 working day or shift. If more than one filling device is used during the filling operation, the sample shall include immediate containers filled by each device, and each such container shall be identified with a mark corresponding to that assigned to the filling device. If more than one filling operation is required to fill the batch, each container in the sample shall be identified with the number of the operation.

(b) For repeat testing: 40 immediate containers from each filling operation.

* * *

(3) * * *

(ii) For sterility testing: For the initial test, 20 packages; and for repeat testing, 40 packages.

b. By changing paragraph (e) (1) to read:

(1) \$10.00 for each immediate container in the samples submitted in accordance with paragraph (d) (2) (i), (3) (i), and (4) of this section; \$0.60 for each container submitted in accordance with paragraph (d) (2) (ii) and (3) (ii) of this section.

92. By amending § 146b.105 in the following respects:

a. By changing paragraph (d) (2) (i) and (ii) to read:

(i) For all tests except sterility: One immediate container for each 5,000 immediate containers in such batch, but in no case less than 50 immediate containers.

Such samples shall be collected by taking single immediate containers, before or after labeling, at such intervals throughout the entire time of packaging the batch that the quantities packaged during the intervals are approximately equal.

(ii) For sterility testing:

(a) For the initial test: 20 immediate containers collected at regular intervals throughout each filling operation. The term "filling operation" refers to any period that is no longer than 1 working day or shift. If more than one filling device is used during the filling operation, the sample shall include immediate containers filled by each device, and each such container shall be identified with a mark corresponding to that assigned to the filling device. If more than one filling operation is required to fill the batch, each container in the sample shall be identified with the number of the operation.

(b) For repeat testing: 40 immediate containers from each filling operation.

b. By changing paragraph (e) (1) to read:

(1) \$1.00 for each immediate container submitted in accordance with paragraph (d) (2) (i) of this section; \$4.00 for each package in the sample submitted in accordance with paragraph (d) (3) of this section; \$0.60 for each container submitted in accordance with paragraph (d) (2) (ii) of this section.

93. By amending § 146b.106 in the following respects:

a. By changing paragraph (d) (3) (i) and (ii) to read:

(i) The batch, if packaged for dispensing:

(a) For all tests except sterility: One immediate container for each 5,000 immediate containers in such batch, but in no case less than five immediate containers.

Such samples shall be collected by taking single immediate containers at such intervals throughout the entire time of packaging the batch that the quantities packaged during the intervals are approximately equal.

(b) For sterility testing:

(1) For the initial test: 20 immediate containers collected at regular intervals throughout each filling operation. The term "filling operation" refers to any period that is no longer than 1 working day or shift. If more than one filling device is used during the filling operation, the sample shall include immediate containers filled by each device, and each such container shall be identified with a mark corresponding to that assigned to the filling device. If more than one filling operation is required to fill the batch, each container in the sample

shall be identified with the number of the operation.

(2) For repeat testing: 40 immediate containers from each filling operation.

(ii) The batch, if packaged for use in the manufacture of another drug:

(a) For all tests except sterility, five packages.

(b) For sterility testing: For the initial test, 20 packages; and for repeat testing, 40 packages.

Each such package shall contain approximately 2 milliliters taken from a different part of such batch, and each shall be packaged in accordance with the requirements of paragraph (b) of this section.

b. By changing paragraph (e) (1) to read:

(1) \$10.00 for each immediate container in the samples submitted in accordance with paragraph (d) (3) (i) (a), (ii) (a), and (5) of this section; \$4.00 for each package in the samples submitted in accordance with paragraph (d) (3) (iii) and (iv) of this section; \$0.60 for each container submitted in accordance with paragraph (d) (3) (i) (b) and (ii) (b) of this section.

94a. By changing § 146b.109(d) (3) (i) (b) to read:

(b) For sterility testing: For the initial test, 20 pads; and for repeat testing, 40 pads.

b. By changing § 146b.109(e) (1) to read:

(1) \$1.00 for each pad in the sample submitted in accordance with paragraph (d) (3) (i) (a) of this section; \$4.00 for each package in the samples submitted in accordance with paragraph (d) (3) (ii), (iii), (iv), and (v) of this section; \$0.60 for each pad submitted in accordance with paragraph (d) (3) (i) (b) of this section.

95. By amending § 146b.113 in the following respects:

a. By changing paragraph (d) (3) (i) and (4) (ii) to read:

(d) * * *

(3) * * *

(i) The batch:

(a) For all tests except sterility: One immediate container for each 5,000 immediate containers in the batch but in no case less than six immediate containers.

Such samples shall be collected by taking single immediate containers at such intervals throughout the entire time of packaging the batch that the quantities packaged during the intervals are approximately equal.

(b) For sterility testing:

(1) For the initial test: 20 immediate containers, collected at regular intervals throughout each filling operation. The term "filling operation" refers to any period that is no longer than 1 working day or shift. If more than one filling device is used during the filling operation, the sample shall include immediate containers filled for each device, and each such container shall be identified with a mark corresponding to that assigned to the filling device. If more than

one filling operation is required to fill the batch, each container in the sample shall be identified with the number of the operation.

(2) For repeat testing: 40 immediate containers from each filling operation.

* * *

(4) * * *

(ii) For sterility testing: For the initial test, 20 packages; and for repeat testing, 40 packages.

b. By changing paragraph (e) (1) to read:

(1) \$10.00 for each immediate container in the samples submitted in accordance with paragraph (d) (3) (i) (a) and (4) (i) of this section; \$4.00 for each sample submitted in accordance with paragraph (d) (3) (ii) and (iii) of this section; \$0.60 for each container submitted in accordance with paragraph (d) (3) (i) (b) and (4) (ii) of this section.

96. By amending § 146b.116 in the following respects:

a. By changing paragraph (d) (2) (i) and (ii) and (3) (ii) to read:

(d) * * *

(2) * * *

(i) For all tests except sterility: One immediate container for each 5,000 immediate containers in the batch, but in no case less than six immediate containers.

Such samples shall be collected by taking single immediate containers at such intervals throughout the entire time of packaging the batch that the quantities packaged during the intervals are approximately equal.

(ii) For sterility testing:

(a) For the initial test: 20 immediate containers collected at regular intervals throughout each filling operation. The term "filling operation" refers to any period that is no longer than 1 working day or shift. If more than one filling device is used during the filling operation, the sample shall include immediate containers filled by each device, and each such container shall be identified with a mark corresponding to that assigned to the filling device. If more than one filling operation is required to fill the batch, each container in the sample shall be identified with the number of the operation.

(b) For repeat testing: 40 immediate containers from each filling operation.

(3) * * *

(ii) For sterility testing: For the initial test, 20 packages; and for repeat testing, 40 packages, each containing the equivalent of approximately 0.5 gram of streptomycin activity.

b. By changing paragraph (e) (1) to read:

(1) \$10.00 for each immediate container in the samples submitted in accordance with paragraph (d) (2) (i), (3) (i), and (4) of this section; \$0.60 for each container submitted in accordance with paragraph (d) (2) (ii) and (3) (ii) of this section.

97. By amending § 146c.201 in the following respects:

a. By changing paragraph (d) (2) (i) and (ii) and (3) (ii) to read:

(d) * * *

(2) * * *

(i) For all tests except sterility: One immediate container for each 5,000 immediate containers in such batch, but in no case less than eight immediate containers.

Such sample shall be collected by taking single immediate containers at such intervals throughout the entire time of packaging the batch that the quantities packaged during the intervals are approximately equal.

(ii) For sterility testing:

(a) For the initial test: 20 immediate containers collected at regular intervals throughout each filling operation. The term "filling operation" refers to any period that is no longer than 1 working day or shift. If more than one filling device is used during the filling operation, the sample shall include immediate containers filled by each device, and each such container shall be identified with a mark corresponding to that assigned to the filling device. If more than one filling operation is required to fill the batch, each container in the sample shall be identified with the number of the operation.

(b) For repeat testing: 40 immediate containers from each filling operation.

(3) * * *

(ii) For sterility testing: For the initial test, 20 packages; and for repeat testing, 40 packages, each containing approximately 40 milligrams.

b. By changing paragraph (e) (1) to read:

(1) \$10.00 for each immediate container in the samples submitted in accordance with paragraph (d) (2) (i), (3) (i), and (4) of this section; \$4.00 for each immediate container in the sample submitted in accordance with paragraph (d) (5) of this section; \$0.60 for each container submitted in accordance with paragraph (d) (2) (ii) and (3) (ii) of this section.

98. By amending § 146c.206 in the following respects:

a. By changing paragraph (d) (3) (i) to read:

(i) The batch:

(a) For all tests except sterility: One immediate container for each 5,000 immediate containers in the batch, but in no case less than five immediate containers.

Such samples shall be collected by taking single immediate containers at such intervals throughout the entire time of packaging the batch that the quantities packaged during the intervals are approximately equal.

(b) For sterility testing:

(1) For the initial test: 20 immediate containers collected at regular intervals throughout each filling operation. The term "filling operation" refers to any period that is no longer than 1 working day or shift. If more than one filling device is used during the filling operation, the sample shall include immediate containers filled by each device, and each

such container shall be identified with a mark corresponding to that assigned to the filling device. If more than one filling operation is required to fill the batch, each container in the sample shall be identified with the number of the operation.

(2) For repeat testing: 40 immediate containers from each filling operation.

b. By changing paragraph (e) (1) to read:

(1) \$4.00 for each immediate container in the samples submitted in accordance with paragraph (d) (3) (i) (a), (ii), and (iii) of this section; \$0.60 for each container submitted in accordance with paragraph (d) (3) (i) (b) of this section.

99. By amending § 146c.211 in the following respects:

a. By changing paragraph (d) (3) (i) (b) and (ii) (b) to read:

(d) * * *

(3) * * *

(i) * * *

(b) For sterility testing:

(1) For the initial test: 20 immediate containers collected at regular intervals throughout each filling operation. The term "filling operation" refers to any period that is no longer than 1 working day or shift. If more than one filling device is used during the filling operation, the sample shall include immediate containers filled by each device, and each such container shall be identified with a mark corresponding to that assigned to the filling device. If more than one filling operation is required to fill the batch, each container in the sample shall be identified with the number of the operation.

(2) For repeat testing: 40 immediate containers from each filling operation.

(ii) * * *

(b) For sterility testing: For the initial test, 20 packages; and for repeat testing, 40 packages.

b. By changing paragraph (e) (1) to read:

(1) \$4.00 for each immediate container in the samples submitted in accordance with paragraph (d) (3) (i) (a), (ii) (a), and (iii) of this section; \$0.60 for each container submitted in accordance with paragraph (d) (3) (i) (b) and (ii) (b) of this section.

100. By amending § 146c.213 in the following respects:

a. By changing paragraph (d) (3) (i) to read:

(i) The batch:

(a) For all tests except sterility: One package for each 5,000 packages in the batch, but in no case less than five packages.

(b) For sterility testing: For the initial test, 20 packages; and for repeat testing, 40 packages.

Such samples shall be collected by taking single packages at such intervals throughout the entire time of packaging the batch that the quantities packaged during the intervals are approximately equal.

b. By changing paragraph (e) (1) to read:

(1) \$4.00 for each package in the samples submitted in accordance with paragraph (d) (3) (i) (a), (ii), and (iii) of this section; \$0.60 for each package submitted in accordance with paragraph (d) (3) (i) (b) of this section.

101. By amending § 146c.214 in the following respects:

a. By changing paragraph (d) (3) (i) (b) to read:

(b) For sterility testing: For the initial test, 20 dressings; and for repeat testing, 40 dressings.

b. By changing paragraph (e) (1) to read:

(1) \$4.00 for each immediate container in the samples submitted in accordance with paragraph (d) (3) (i) (a), (ii), and (iii) of this section; \$0.60 for each immediate container submitted in accordance with paragraph (d) (3) (i) (b) of this section.

102. By amending § 146c.221 in the following respects:

a. By changing paragraph (d) (3) (i) and (4) (ii) to read:

(d) * * *

(3) * * *

(i) The batch:

(a) For all tests except sterility: One immediate container for each 5,000 immediate containers in the batch, but in no case less than 10 immediate containers.

Such samples shall be collected by taking single immediate containers at such intervals throughout the entire time of packaging the batch that the quantities packaged during the intervals are approximately equal.

(b) For sterility testing:

(1) For the initial test: 20 immediate containers collected at regular intervals throughout each filling operation. The term "filling operation" refers to any period that is no longer than 1 working day or shift. If more than one filling device is used during the filling operation, the sample shall include immediate containers filled by each device, and each such container shall be identified with a mark corresponding to that assigned to the filling device. If more than one filling operation is required to fill the batch, each container in the sample shall be identified with the number of the operation.

(2) For repeat testing: 40 immediate containers from each filling operation.

* * * * *

(4) * * *

(ii) For sterility testing: For the initial test, 20 packages; and for repeat testing, 40 packages, each containing approximately 40 milligrams of tetracycline hydrochloride or tetracycline phosphate complex.

b. By changing paragraph (e) (1) to read:

(1) \$4.00 for each immediate container in the samples submitted in accordance with paragraph (d) (3) (i) (a), (ii), (iii), (iv), and (4) (i) of this section; \$0.60 for

each container submitted in accordance with paragraph (d) (3) (i) (b) and (4) (ii) of this section.

103. By amending § 146c.227 in the following respects:

a. By changing paragraph (d) (3) (i) (b) to read:

(b) For sterility testing: For the initial test, 20 containers; and for repeat testing, 40 containers.

b. By changing paragraph (e) (1) to read:

(1) \$4.00 for each package in the samples submitted in accordance with paragraph (d) (3) (i) (a), (ii), and (iii) of this section; \$0.60 for each container submitted in accordance with paragraph (d) (3) (i) (b) of this section.

104. By amending § 146c.235 in the following respects:

a. By changing paragraph (d) (3) (i) to read:

(i) The batch:

(a) For all tests except sterility: One immediate container for each 5,000 immediate containers in the batch, but in no case less than 12 immediate containers.

Such samples shall be collected by taking single immediate containers at such intervals through the entire time of packaging the batch that the quantities packaged during the intervals are approximately equal.

(b) For sterility testing:

(1) For the initial test: 20 immediate containers collected at regular intervals throughout each filling operation. The term "filling operation" refers to any period that is no longer than 1 working day or shift. If more than one filling device is used during the filling operation, the sample shall include immediate containers filled by each device, and each such container shall be identified with a mark corresponding to that assigned to the filling device. If more than one filling operation is required to fill the batch, each container in the sample shall be identified with the number of the operation.

(2) For repeat testing: 40 immediate containers from each filling operation.

b. By changing paragraph (e) (1) to read:

(1) \$5.00 for each immediate container in the sample submitted in accordance with paragraph (d) (3) (i) (a) of this section; \$0.60 for each container submitted in accordance with paragraph (d) (3) (i) (b) of this section; \$4.00 for each immediate container in the samples submitted in accordance with paragraph (d) (3) (ii), (iii), (iv), and (v) of this section.

105. By amending § 146c.242 in the following respects:

a. By changing the second sentence in paragraph (b) (2) to read: "He shall also submit in connection with his request a sample consisting of 20 immediate containers of the batch for the initial sterility test, or 40 immediate containers for repeat sterility testing."

b. By changing paragraph (b) (3) (i) to read:

(i) \$0.60 for each immediate container submitted for sterility testing.

106. By amending § 146c.244 in the following respects:

a. By changing paragraph (d) (3) (i) (b) to read:

(b) For sterility testing: For the initial test, 20 packages; and for repeat testing, 40 packages.

b. By changing paragraph (e) (1) to read:

(1) \$5.00 for each immediate container in the sample submitted in accordance with paragraph (d) (3) (i) (a) of this section; \$0.60 for each container submitted in accordance with paragraph (d) (3) (i) (b) of this section; \$4.00 for each immediate container in the samples submitted in accordance with paragraph (d) (3) (ii), (iii), and (iv) of this section.

107. By amending § 146c.247 in the following respects:

a. By changing paragraph (d) (3) (i) (b) to read:

(b) For sterility testing: For the initial test, 20 packages; and for repeat testing, 40 packages.

b. By changing paragraph (e) (1) to read:

(1) \$1.50 for each package in the sample submitted in accordance with paragraph (d) (3) (i) (a) of this section; \$4.00 for each package in the samples submitted in accordance with paragraph (d) (3) (ii) and (iii) of this section; \$0.60 for each package submitted in accordance with paragraph (d) (3) (i) (b) of this section.

108. By amending § 146c.249 in the following respects:

a. By changing paragraph (d) (3) (i) and (4) (ii) to read:

(d) * * *

(3) * * *

(i) The batch:

(a) For all tests except sterility: One immediate container for each 5,000 immediate containers in the batch, but in no case less than 10 immediate containers.

Such samples shall be collected by taking single immediate containers at such intervals throughout the entire time of packaging the batch that the quantities packaged during the intervals are approximately equal.

(b) For sterility testing:

(1) For the initial test: 20 immediate containers collected at regular intervals throughout each filling operation. The term "filling operation" refers to any period that is no longer than 1 working day or shift. If more than one filling device is used during the filling operation, the sample shall include immediate containers filled by each device, and each such container shall be identified with a mark corresponding to that assigned to the filling device. If more than one filling operation is required to fill the batch, each container in the sample shall be identified with the number of the operation.

(2) For repeat testing: 40 immediate containers for each filling operation.

(d) * * *

(2) * * *

* * * * *

(4) * * *

(ii) For sterility testing: For the initial test, 20 packages; and for repeat testing, 40 packages each containing approximately 40 milligrams of rolitetracycline.

b. By changing paragraph (e) (1) to read:

(1) \$4.00 for each immediate container in the samples submitted in accordance with paragraph (d) (3) (i) (a), (ii), (iii), (iv), and (4) (i) of this section; \$0.60 for each container submitted in accordance with paragraph (d) (3) (i) (b) and (4) (ii) of this section.

109. By amending § 146c.250 in the following respects:

a. By changing paragraph (d) (3) (i) and (4) (ii) to read:

(d) * * *

(3) * * *

(i) The batch:

(a) For all tests except sterility: One immediate container for each 5,000 immediate containers in the batch, but in no case less than 10 immediate containers.

Such samples shall be collected by taking single immediate containers at such intervals throughout the entire time of packaging the batch that the quantities packaged during the intervals are approximately equal.

(b) For sterility testing:

(1) For the initial test: 20 immediate containers collected at regular intervals throughout each filling operation. The term "filling operation" refers to any period that is no longer than 1 working day or shift. If more than one filling device is used during the filling operation, the sample shall include immediate containers filled by each device, and each such container shall be identified with a mark corresponding to that assigned to the filling device. If more than one filling operation is required to fill the batch, each container in the sample shall be identified with the number of the operation.

(2) For repeat testing: 40 immediate containers from each filling operation.

* * * * *

(4) * * *

(ii) For sterility testing: For the initial test, 20 packages; and for repeat testing, 40 packages, each containing approximately 40 milligrams of rolitetracycline.

b. By changing paragraph (e) (1) to read:

(1) \$4.00 for each immediate container in the samples submitted in accordance with paragraph (d) (3) (i) (a), (ii), (iii), (iv) and (4) (i) of this section; \$0.60 for each container submitted in accordance with paragraph (d) (3) (i) (b) and (4) (ii) of this section.

110. By amending § 146d.301 in the following respects:

a. By changing paragraph (d) (2) (i) and (ii) and 3(ii) to read:

(d) * * *

(2) * * *

(i) For all tests except sterility: One immediate container for each 5,000 immediate containers in such batch, but in no case less than eight immediate containers.

Such samples shall be collected by taking single immediate containers at such intervals throughout the entire time of packaging the batch that the quantities packaged during the intervals are approximately equal.

(ii) For sterility testing:

(a) For the initial test: 20 immediate containers collected at regular intervals throughout each filling operation. The term "filling operation" refers to any period that is no longer than 1 working day or shift. If more than one filling device is used during the filling operation, the sample shall include immediate containers filled by each device, and each such container shall be identified with a mark corresponding to that assigned to the filling device. If more than one filling operation is required to fill the batch, each container in the sample shall be identified with the number of the operation.

(b) For repeat testing: 40 immediate containers from each filling operation.

(3) * * *

(ii) For sterility testing: For the initial test, 20 packages; and for repeat testing, 40 packages, each containing approximately 40 milligrams.

Each such package shall be packaged in accordance with the requirements of paragraph (b) of this section.

b. By changing paragraph (e) (1) to read:

(1) \$10.00 for each immediate container in the samples submitted in accordance with paragraph (d) (2) (i), (3) (i), and (4) of this section; \$0.60 for each container submitted in accordance with paragraph (d) (2) (ii) and (3) (ii) of this section.

111. By amending § 146d.304 in the following respects:

a. By changing paragraph (d) (3) (i) to read:

(i) The batch:

(a) For all tests except sterility: One immediate container for each 5,000 immediate containers in the batch, but in no case less than five immediate containers.

Such samples shall be collected by taking single immediate containers at such intervals throughout the entire time of packaging the batch that the quantities packaged during the intervals are approximately equal.

(b) For sterility testing:

(1) For the initial test: 20 immediate containers collected at regular intervals throughout each filling operation. The term "filling operation" refers to any period that is no longer than 1 working day or shift. If more than one filling device is used during the filling operation, the sample shall include immediate containers filled by each device, and each such container shall be identified

with a mark corresponding to that assigned to the filling device. If more than one filling operation is required to fill the batch, each container in the sample shall be identified with the number of the operation.

(2) For repeat testing: 40 immediate containers from each filling operation.

b. By changing paragraph (e) (1) to read:

(1) \$4.00 for each immediate container or package in the samples submitted in accordance with paragraph (d) (3) (i) (a), (ii), and (iii) of this section; \$0.60 for each container submitted in accordance with paragraph (d) (3) (i) (b) of this section.

112. By amending § 146d.307 in the following respects:

a. By changing paragraph (d) (3) (i) to read:

(i) The batch:

(a) For all tests except sterility: One immediate container for each 5,000 immediate containers in such batch, but in no case less than eight immediate containers.

Such samples shall be collected by taking single immediate containers at such intervals throughout the entire time of packaging the batch that the quantities packaged during the intervals are approximately equal.

(b) For sterility testing:

(1) For the initial test: 20 immediate containers collected at regular intervals throughout each filling operation. The term "filling operation" refers to any period that is no longer than 1 working day or shift. If more than one filling device is used during the filling operation, the sample shall include immediate containers filled by each device, and each such container shall be identified with a mark corresponding to that assigned to the filling device. If more than one filling operation is required to fill the batch, each container in the sample shall be identified with the number of the operation.

(2) For repeat testing: 40 immediate containers from each filling operation.

b. By changing paragraph (e) (1) to read:

(1) \$10.00 for each immediate container in the sample submitted in accordance with paragraph (d) (3) (i) (a) of this section; \$4.00 for each package in the samples submitted in accordance with paragraph (d) (3) (ii) and (iii) of this section; \$0.60 for each container submitted in accordance with paragraph (d) (3) (i) (b) of this section.

113. By amending § 146e.401 in the following respects:

a. By changing paragraph (d) (2) (i) and (ii) and (3) (ii) to read:

(d) * * *

(2) * * *

(i) For all tests except sterility: One immediate container for each 5,000 immediate containers in such batch, but in no case less than six immediate containers. If a sample of such batch has not been previously submitted in accord-

ance with subparagraph (3) or (4) of this paragraph, such person shall submit one additional package containing 1.0 gram of the batch.

Such samples shall be collected by taking single immediate containers at such intervals throughout the entire time of packaging the batch that the quantities packaged during the intervals are approximately equal.

(ii) For sterility testing:

(a) For the initial test: 20 immediate containers collected at regular intervals throughout each filling operation. The term "filling operation" refers to any period that is no longer than 1 working day or shift. If more than one filling device is used during the filling operation, the sample shall include immediate containers filled by each such device, and each such container shall be identified with a mark corresponding to that assigned to the filling device. If more than one filling operation is required to fill the batch, each container in the sample shall be identified with the number of the operation.

(b) For repeat testing: 40 immediate containers from each filling operation.

(3) * * *

(ii) For sterility testing: For the initial test, 20 packages; and for repeat testing, 40 packages.

b. By changing paragraph (e) (1) to read:

(1) \$4.00 for each immediate container in the samples submitted in accordance with paragraph (d) (2) (i), (3) (i), and (4) of this section; \$0.60 for each container submitted in accordance with paragraph (d) (2) (ii) and (3) (ii) of this section.

114. By amending § 146e.408 in the following respects:

a. By changing paragraph (d) (3) (i) to read:

(i) The batch:

(a) For all tests except sterility: One immediate container for each 5,000 immediate containers in the batch, but in no case less than five immediate containers.

Such samples shall be collected by taking single immediate containers at such intervals throughout the entire time of packaging the batch that the quantities packaged during the intervals are approximately equal.

(b) For sterility testing:

(1) For the initial test: 20 immediate containers collected at regular intervals throughout each filling operation. The term "filling operation" refers to any period that is no longer than 1 working day or shift. If more than one filling device is used during the filling operation, the sample shall include immediate containers filled by each device, and each such container shall be identified with a mark corresponding to that assigned to the filling device. If more than one filling operation is required to fill the batch, each container in the sample shall be identified with the number of the operation.

No. 140—5

(2) For repeat testing: 40 immediate containers from each filling operation.

b. By changing paragraph (e) (1) to read:

(1) \$4.00 for each immediate container or package in the samples submitted in accordance with paragraph (d) (3) (i) (a), (ii), and (iii) of this section; \$0.60 for each container submitted in accordance with paragraph (d) (3) (i) (b) of this section.

115. By amending § 146e.430(d) (3) (ii) to read:

(ii) For microorganism testing: 10 immediate containers.

All interested persons are invited to present their views in writing regarding this proposal to the Hearing Clerk, Department of Health, Education, and Welfare, Washington 25, D.C., within 90 days from the date of publication of this notice in the FEDERAL REGISTER. Such views and comments should be filed in quintuplicate.

Dated: July 16, 1962.

GEO. P. LARRICK,
Commissioner of Food and Drugs.

TETRACYCLINE PHOSPHATE COMPLEX; TETRACYCLINE HYDROCHLORIDE

Proposed Changes in Tests and Methods of Assay

The Commissioner of Food and Drugs, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 507, 59 Stat. 463 as amended; 21 U.S.C. 357), and under the authority delegated to him by the Secretary of Health, Education, and Welfare (25 F.R. 8625), proposes to amend the regulations for certain tetracycline products to provide more efficient and accurate tests and methods of assay for these drugs. It is proposed to effect these amendments as follows:

1. By revising § 141c.232(b) to read as follows:

§ 141c.232 Tetracycline phosphate complex.

* * * * *

(b) *Identity.* Proceed as directed in subparagraphs (1), (2), and (3) of this paragraph.

(1) *Presence of phosphate.* Suspend 100 milligrams of the sample in 10 milliliters of distilled water and filter a small portion by gravity. Transfer 1 milliliter to a 100-milliliter glass-stoppered cylinder, add 10 milliliters of distilled water, 2 milliliters of ammonium molybdate test solution, 1 milliliter of stannous chloride test solution, and 10 milliliters of isobutyl alcohol-benzene mixture (1:1 ratio), all in the order named. Shake

vigorously for 1 minute, allow the layers to separate, and examine the top organic layer. In the presence of phosphate, the top layer turns blue.

(2) *Absence of chloride.* This test is used for detecting mixtures of tetracycline hydrochloride and phosphate salts. To 1 milliliter of the filtrate prepared as directed in subparagraph (1) of this paragraph, add 1 drop of silver nitrate test solution and 1 drop of nitric acid. Not more than a slight opalescence remains of the original precipitate in the absence of chloride.

(3) *Determination of percent tetracycline base.* This test is used to determine the quantity of tetracycline present as base in mixtures with phosphate salts.

(i) *Reagents.* (a) 1,4-Dioxane.

(b) Purified dioxane: Pass the dioxane through a column of Amberlite IRA 400 (OH⁻) resin.

(c) Perchloric acid, 0.01N: Dilute 0.84 milliliter of 70 percent perchloric acid to 1,000 milliliters with purified dioxane; standardize at least once every 2 days, as follows: Weigh accurately about 70 milligrams of potassium biphthalate, previously dried at 105° C. for 2 hours, and dissolve in 50 milliliters of glacial acetic acid in a 250-milliliter flask. Add 2 drops of methylrosaniline chloride test solution and titrate with the perchloric acid solution from a burette until the violet color changes to bluish-green. Deduct the volume of the perchloric acid consumed by 50 milliliters of the glacial acetic acid, and calculate the normality. Each 2.042 milligrams of potassium biphthalate is equivalent to 1 milliliter of 0.01N perchloric acid.

(d) Methylrosaniline chloride test solution: Dissolve 100 milligrams of methylrosaniline chloride in 10 milliliters of glacial acetic acid.

(ii) *Procedure.* Place an accurately weighed 1-gram sample in a 50-milliliter Erlenmeyer flask, add 10.0 milliliters of purified dioxane and shake the mixture manually for about 2 minutes. Allow to settle, decant all the supernatant liquid into a 50-milliliter polyethylene centrifuge tube, cover with Parafilm, and centrifuge until clear (about 3 minutes). Pipette 5.0 milliliters of the clear, supernatant solution into a 50-milliliter beaker, stir magnetically, and titrate with 0.01N perchloric acid, using methylrosaniline test solution as the indicator. The endpoint is the last color change to bluish-green when a drop of titrant is added.

Calculation:

Percent tetracycline base

$$\frac{\text{Milliliters of acid used} \times \text{normality} \times 0.4445 \times 200}{\text{Weight of sample}}$$

The sample is satisfactory if the results from the tests described indicate that there is a presence of phosphate, an absence of chloride, and not more than 1 percent of tetracycline base present.

2. By amending § 146c.204(d) (2) (ii) and (3) (ii) to read:

§ 146c.204 Chlortetracycline hydrochloride capsules; tetracycline hydrochloride capsules; tetracycline capsules; tetracycline phosphate complex capsules.

(d) * * *

(ii) The chlortetracycline, tetracycline hydrochloride, tetracycline, or tetracycline phosphate complex used in making the batch: Potency, toxicity, moisture, pH, crystallinity, absorptivity (if it is tetracycline hydrochloride, tetracycline, or tetracycline phosphate complex), and identity if it is tetracycline phosphate complex.

(3) * * *

(ii) The chlortetracycline, tetracycline hydrochloride, tetracycline, or tetracycline phosphate complex used in making the batch: 10 packages, each containing approximately equal portions of not less than 60 milligrams, and if it is tetracycline phosphate complex, one additional package containing approximately 1 gram. Each such package shall be packaged in accordance with the requirements of § 146c.201(b).

3. By amending § 146c.221(d) (2) (ii) and (3) (ii) to read:

§ 146c.221 Tetracycline hydrochloride for intramuscular use; tetracycline phosphate complex for intramuscular use.

(d) * * *

(ii) The tetracycline hydrochloride or tetracycline phosphate complex used in making the batch: Potency, toxicity, histamine, absorptivity, crystallinity, and identity if it is tetracycline phosphate complex.

(3) * * *

(ii) The tetracycline hydrochloride or tetracycline phosphate complex used in making the batch: 10 packages, each containing approximately equal portions of not less than 250 milligrams, and if it is tetracycline phosphate complex, one additional package containing approximately 1 gram. Each such package shall be packaged in accordance with the requirements of § 146c.201(b).

4. By amending § 146c.222(d) (2) (ii) and (3) (ii) to read:

§ 146c.222 Tetracycline hydrochloride oral suspension (tetracycline hydrochloride homogenized mixture); tetracycline phosphate complex oral suspension (tetracycline phosphate complex oral drops); tetracycline hydrochloride oral solution; tetracycline calcium oral suspension; tetracycline oral suspension.

(d) * * *

(ii) The tetracycline hydrochloride, tetracycline, or tetracycline phosphate complex used in making the batch: Potency, toxicity, moisture, pH, crystallinity, and absorptivity, and if it is tetracycline phosphate complex, identity.

(3) * * *

(ii) The tetracycline hydrochloride, tetracycline, or tetracycline phosphate complex used in making the batch: 10 packages, each containing approximately equal portions of not less than 60 milligrams, and if it is tetracycline phosphate complex, one additional package containing approximately 1 gram. Each such package shall be packaged in accordance with the requirements of § 146c.201(b).

5. By amending § 146c.232 (a) (6) and (b) to read:

§ 146c.232 Tetracycline phosphate complex.

(a) * * *

(6) It does not contain any tetracycline as the hydrochloride and not more than 1 percent as tetracycline base.

(b) *Packaging; labeling; request for certification, samples; fees.* Tetracycline phosphate complex conforms to all requirements and procedures prescribed for tetracycline by § 146c.220 (b), (c), (d), and (e), except that it shall be labeled with an expiration date that is 18 months after the month during which the batch was certified, and except that the sample submitted for certification shall contain one additional package containing approximately 1 gram.

Any interested person may, within 30 days from the date of publication of this notice in the FEDERAL REGISTER, submit written views and comments on the proposed amendments. Such comments should be submitted in quintuplicate and addressed to the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, 330 Independence Avenue SW., Washington 25, D.C.

Dated: July 16, 1962.

GEO. P. LARRICK,
Commissioner of Food and Drugs.

FEDERAL AVIATION AGENCY

Air Traffic Service

[14 CFR Part 600]

[Airspace Docket No. 62-SW-4]

FEDERAL AIRWAYS

Withdrawal of Proposal for Alteration of Federal Airway

In a notice of proposed rule making published in the FEDERAL REGISTER as Airspace Docket No. 62-SW-4 on April 25, 1962 (27 F.R. 3930), it was stated that the Federal Aviation Agency proposed to redesignate the segment of intermediate altitude VOR Federal airway No. 1537 from the Waco, Texas, VOR as a 16-mile wide airway to the intersection of the Waco VOR 022° and the Mineral Wells, Texas, VOR 131° True radials; thence as a 13-mile wide airway (5 miles to the west and 8 miles to the east of the centerline) to the intersection of the Waco VOR 022° and the Mineral Wells VOR 117° True radials; thence as a 16-mile wide airway to the Dallas, Texas, VOR.

Subsequently to the publication of the Notice the TACAN instrument approach procedure based on the Dallas, NAS TACAN has been revised and there is no longer a requirement to reduce the width of Victor 1537 as proposed.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (14 CFR 409.13), notice is hereby given that the proposal contained in Airspace Docket No. 62-SW-4 is withdrawn.

(Sec. 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348))

Issued in Washington, D.C., on July 16, 1962.

CLIFFORD P. BURTON,
Chief, Airspace Utilization Division.

SMALL BUSINESS ADMINISTRATION

[13 CFR Part 107]

SMALL BUSINESS INVESTMENT COMPANIES

Proposed Consideration for Stock of Licensee

Notice is hereby given that pursuant to authority contained in section 308 of the Small Business Investment Act of 1958, Pub. Law 85-699, 72 Stat. 694, as amended, it is proposed to amend, as set forth below, § 107.302 of Part 107 of Subchapter B, Chapter I of Title 13 of the Code of Federal Regulations, as revised in 26 F.R. 8232-8242 and amended. Prior to the final adoption of such amendment, consideration will be given to any comments or suggestions pertaining thereto which are submitted in writing, in triplicate, to the Small Business Investment Division, Small Business Administration, Washington 25, D.C., within a period of twenty-one days of the date of this notice in the FEDERAL REGISTER.

Information. The amendment to § 107.302, now under consideration, sets forth the consideration for which a Licensee may issue its securities.

It is proposed to amend the Regulations Governing Small Business Investment Companies as follows:

1. By deleting paragraph (a) of § 107.302 in its entirety and substituting a new paragraph (a) which reads as follows:

§ 107.302 Consideration for stock of Licensee.

(a) A Licensee may issue any of its securities for (1) cash, (2) direct obligations of, or obligations guaranteed as to principal and interest by, the United States, (3) securities of small business concerns and other securities and assets in connection with a merger or consolidation with another Licensee, approved by SBA, (4) securities of which it is the issuer, in connection with a reclassification approved by SBA, (5) securities of another Licensee in connection with a merger or consolidation with such com-

pany, approved by SBA, (6) services previously rendered to the Licensee, (7) physical assets to be currently employed in the operation of the Licensee, and (8) as a dividend: *Provided, however,* That any shares of stock issued as part of the initial minimum capital required by § 107.202(c) may be issued only in consideration of the simultaneous payment of cash or upon the simultaneous transfer to the Licensee of securities permitted by § 107.202(c). A Licensee may issue its stock for Equity Securities of a small business concern pursuant to the provisions of section 304(c) of the Act.

Dated: July 16, 1962.

JOHN E. HORNE,
Administrator.

DEPARTMENT OF JUSTICE

Office of Alien Property

[Claim No. 44053]

GIOANTONIO FRAMARIN ET AL.

Amended Notice of Intention To Return Vested Property

The Notice of Intention To Return Vested Property to Gioantonio Framarin, which was published in the FEDERAL REGISTER on December 22, 1961 (26 F.R. 12270), is hereby amended by deleting therefrom under the headings "Claimant" and "Property and Location" the following:

Gioantonio Framarin, a/k/a Giovanni Pasca, Gambellara, Vicenza, Italy. \$454.98 in the Treasury of the United States.

and substituting in place thereof the following:

Francesco Framarin, Gambellara, Vicenza, Italy. \$64.99 in the Treasury of the United States.

Rosa Framarin, Gambellara, Vicenza, Italy. \$64.99 in the Treasury of the United States.

Domenico Framarin, Gambellara, Vicenza, Italy. \$64.99 in the Treasury of the United States.

Maria Framarin, Gambellara, Vicenza, Italy. \$64.99 in the Treasury of the United States.

Girolamo Framarin, Gambellara, Vicenza, Italy. \$64.99 in the Treasury of the United States.

Elisa Framarin, Gambellara, Vicenza, Italy. \$64.99 in the Treasury of the United States.

Serafina Zonin, Gambellara, Vicenza, Italy. \$32.50 in the Treasury of the United States.

Maria Pia Zonin, Gambellara, Vicenza, Italy. \$32.50 in the Treasury of the United States.

All other provisions of said Notice of Intention To Return Vested Property and all actions taken by or on behalf of the Attorney General of the United States in reliance thereon, pursuant thereto, and under the authority thereof, are hereby ratified and confirmed.

Executed at Washington, D.C., on July 16, 1962.

For the Attorney General.

[SEAL] PAUL V. MYRON,
Deputy Director,
Office of Alien Property.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

ALASKA

Notice of Proposed Withdrawal and Reservation of Lands

July 11, 1962.

The Federal Aviation Agency has filed an application, Serial Number A. 056795 for the withdrawal of the lands described below, from all forms of appropriation under the public land laws including the mining and mineral leasing laws but excepting the disposal of materials under the Materials Act. The applicant desires the land for use as a site for construction of housing and shop facilities to support a VORTAC site.

For a period of 30 days from the date of publication of this notice, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing to the undersigned officer of the Bureau of Land Management, Department of the Interior, Cordova Building, 555 Cordova Street, Anchorage, Alaska.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

The lands involved in the application are:

BIG LAKE AREA

T. 17 N., R. 4 W., S.M.,
Sec. 14: Lot 31.

Containing 5.00 acres.

ROBERT J. COFFMAN,
Chief, Division of Lands and
Minerals Management.

[F.R. Doc. 62-7079; Filed, July 19, 1962; 8:48 a.m.]

[California No. C1-1]

CALIFORNIA

Small Tract Classification Order

JUNE 22, 1962.

1. Pursuant to authority delegated to me by the California State Director, Bureau of Land Management, under Document 62-3331, Volume 27 FEDERAL REGISTER, page 3297, April 6, 1962, I hereby classify the following described public land, totaling approximately 40 acres in Kern County, California as suitable for title transfer under the Small Tract Act of June 1, 1938 (52 Stat. 609, 43 U.S.C. 682a), as amended:

MOUNT DIABLO MERIDIAN

T. 32 S., R. 35 E.,
Section 22: SE¼SE¼.

Containing 40 acres, subdivided into 16 tracts, of which five tracts are covered by applications from persons entitled to preference under 43 CFR 257.5 (a).

2. Classification of the above described lands, by this order segregates them from all forms of appropriations, including locations under the mining laws, except as to applications under the mineral leasing laws.

3. The tracts lie on the southeastern slopes of the Sierra Nevada Mountains approximately 6 miles northwest of Mojave, California. Access to the lands is by improved and unimproved dirt roads running northerly from U.S. Highway 466.

The majority of the land is relatively level to undulating and slopes to the south and southeast, 3 to 5 percent in grade. Dry washes drain southeasterly across the land. The soil is coarse, rocky sand and sandy loam. The vegetation consists of creosote bush, desert sages, yucca, annual grasses and scattered Joshua Trees.

Culinary water is not available from any presently developed sources. Business, educational, recreational, and other public facilities are available at the town of Mojave.

4. The individual tracts are rectangular in shape, 330 feet by 330 feet, containing 2½ acres. The appraised value of each tract is \$500. The tracts will be subject to all existing rights-of-way and to rights-of-way for road purposes and public utilities as described below. All minerals in the lands will be reserved to the United States.

Item No.	Description	Acreage	Location of right-of-way	Appraised value per tract
1.	NE $\frac{1}{4}$ NE $\frac{1}{4}$ SE $\frac{1}{4}$ SE $\frac{1}{4}$	2 $\frac{1}{2}$	55 feet along east boundary	\$500
2.	NW $\frac{1}{4}$ NE $\frac{1}{4}$ SE $\frac{1}{4}$ SE $\frac{1}{4}$	2 $\frac{1}{2}$	33 feet along north boundary	500
3.	SW $\frac{1}{4}$ NE $\frac{1}{4}$ SE $\frac{1}{4}$ SE $\frac{1}{4}$	2 $\frac{1}{2}$	33 feet along north boundary	500
4.	SE $\frac{1}{4}$ NE $\frac{1}{4}$ SE $\frac{1}{4}$ SE $\frac{1}{4}$	2 $\frac{1}{2}$	33 feet along south boundary	500
5.	NE $\frac{1}{4}$ NW $\frac{1}{4}$ SE $\frac{1}{4}$ SE $\frac{1}{4}$	2 $\frac{1}{2}$	55 feet along east boundary	500
6.	NW $\frac{1}{4}$ NW $\frac{1}{4}$ SE $\frac{1}{4}$ SE $\frac{1}{4}$	2 $\frac{1}{2}$	33 feet along south boundary	500
7.	SW $\frac{1}{4}$ NW $\frac{1}{4}$ SE $\frac{1}{4}$ SE $\frac{1}{4}$	2 $\frac{1}{2}$	33 feet along north boundary	500
8.	SE $\frac{1}{4}$ NW $\frac{1}{4}$ SE $\frac{1}{4}$ SE $\frac{1}{4}$	2 $\frac{1}{2}$	33 feet along south boundary	500
9.	NE $\frac{1}{4}$ SW $\frac{1}{4}$ SE $\frac{1}{4}$ SE $\frac{1}{4}$	2 $\frac{1}{2}$	33 feet along north boundary	500
10.	NW $\frac{1}{4}$ SW $\frac{1}{4}$ SE $\frac{1}{4}$ SE $\frac{1}{4}$	2 $\frac{1}{2}$	33 feet along north boundary	500
11.	SW $\frac{1}{4}$ SW $\frac{1}{4}$ SE $\frac{1}{4}$ SE $\frac{1}{4}$	2 $\frac{1}{2}$	55 feet along south boundary	500
12.	SE $\frac{1}{4}$ SW $\frac{1}{4}$ SE $\frac{1}{4}$ SE $\frac{1}{4}$	2 $\frac{1}{2}$	55 feet along south boundary	500
13.	NE $\frac{1}{4}$ SE $\frac{1}{4}$ SE $\frac{1}{4}$ SE $\frac{1}{4}$	2 $\frac{1}{2}$	55 feet along east boundary	500
14.	NW $\frac{1}{4}$ SE $\frac{1}{4}$ SE $\frac{1}{4}$ SE $\frac{1}{4}$	2 $\frac{1}{2}$	33 feet along north boundary	500
15.	SW $\frac{1}{4}$ SE $\frac{1}{4}$ SE $\frac{1}{4}$ SE $\frac{1}{4}$	2 $\frac{1}{2}$	33 feet along north boundary	500
16.	SE $\frac{1}{4}$ SE $\frac{1}{4}$ SE $\frac{1}{4}$ SE $\frac{1}{4}$	2 $\frac{1}{2}$	55 feet along south boundary	500
			55 feet along east boundary	500

¹ Denotes tracts to be offered to statutory preference applicants.

5. The statutory preference applicants will be offered the designated tracts by direct sale at the appraised value. Tracts not covered by statutory preference applications, and those not taken by the statutory preference applicants, will be offered at public auction by the Manager, Riverside Land Office.

6. Persons who have previously acquired a tract under the Small Tract Act are not qualified to secure a tract at the auction unless they can make a showing satisfactory to the Bureau of Land Management that the acquisition of another tract is warranted in the circumstances.

7. Inquiries concerning these lands shall be addressed to the Manager, Land Office, 1414 8th Street, P.O. Box 723, Riverside, California.

DERREL S. FULWIDER,
Acting District Manager,
District Office, Bakersfield, Calif.

[F.R. Doc. 62-7077; Filed, July 19, 1962;

OREGON

Redelegation of Authority

JULY 13, 1962.

Pursuant to authority contained in section 1.1(a) of Bureau Order No. 684 (26 F.R. No. 2816, August 28, 1961), I hereby authorize the following employees to perform the functions listed below which are delegated to me:

The District Managers in the State of Oregon may perform the functions listed in section 1.5(a), Classification of lands.

Notwithstanding this delegation, the Chief, Division of Lands and Minerals Management and the Chief, Branch of Lands Management, are hereby authorized to perform the functions listed above.

The above delegation shall become effective August 1, 1962.

RUSSELL E. GETTY,
State Director.

[F.R. Doc. 62-6609; Filed, July 19, 1962;
8:45 a.m.]

[W-0183810]

WYOMING

Notice of Proposed Withdrawal and Reservation of Lands

JULY 11, 1962.

The Bureau of Land Management has filed an application, serial number Wyoming 0183810, for the withdrawal of the lands described below, subject to valid and existing rights, from all forms of appropriation except applications under the Recreation and Public Purposes Act of June 14, 1926, as amended. The proposed withdrawal, if approved, will preclude locations under the mining laws for nonmetalliferous materials. The lands will continue to be open to exploration, discovery, occupation and purchase under the mining laws so far as the same apply to metalliferous materials. Disposal of materials under the Materials Act of July 31, 1947, as amended, and of leasable materials and nonmineral resources under appropriate leasing laws will be permitted.

The purpose of the proposed withdrawal is classification and in aid of legislation under authority of the Act of June 25, 1910 (43 U.S.C. 141-143), as amended. The applicant desires to preserve these lands for the use and enjoyment of the public for recreational pursuits pertaining to petrified materials.

For a period of 30 days from the date of publication of this notice, all persons who wish to submit comments, suggestions or objections in connection with the proposed withdrawal may present their views in writing to the State Director, Bureau of Land Management, Department of the Interior, P.O. Box 929, Cheyenne, Wyoming.

If circumstances warrant it, a public hearing will held at a convenient time and place which will be announced.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

The lands involved in the application are:

SIXTH PRINCIPAL MERIDIAN, WYOMING

T. 51 N., R. 80 W.

Sec. 31: SE $\frac{1}{4}$ NW $\frac{1}{4}$, S $\frac{1}{2}$ NE $\frac{1}{4}$ NW $\frac{1}{4}$, S $\frac{1}{2}$ NW $\frac{1}{4}$ NE $\frac{1}{4}$, N $\frac{1}{2}$ SW $\frac{1}{4}$ NE $\frac{1}{4}$.

Containing 100 acres.

ED PIERSON,
State Director.

[No. 62-17]

OREGON

Notice of Proposed Withdrawal and Reservation of Lands

JULY 3, 1962.

The Assistant Secretary, United States Department of Agriculture, has filed an application, Serial No. Oregon 012268, for the withdrawal of the lands described below, subject to valid existing rights, from location and entry under the general mining laws only.

The applicant desires the land for the purpose of conserving, developing, and making accessible for the inspiration, enjoyment, and use of all American people of present and future generations the recreational and scenic resources of the area.

For a period of thirty days from the date of publication of this notice, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing to the undersigned officer of the Bureau of Land Management, Department of the Interior, 710 N.E. Holladay, Portland 12, Oregon.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

The lands involved in the application are:

DEPARTMENT OF AGRICULTURE

Office of the Secretary

MINNESOTA AND NEW JERSEY

Designation of Areas for Emergency Loans

For the purpose of making emergency loans pursuant to section 321(a) of Public Law 87-128 (7 U.S.C. 1961) it has been determined that in the hereinafter named counties in the States of Minnesota and New Jersey natural disasters have caused a need for agricultural credit not readily available from commercial banks, cooperative lending agencies, or other responsible sources.

	MINNESOTA
Big Stone.	Traverse.
Koochiching.	
	NEW JERSEY
Hunterdon.	Sussex.
Morris.	Warren.
Somerset.	

Pursuant to the authority set forth above, emergency loans will not be made in the above-named counties after June 30, 1963, except to applicants who previously received emergency or special livestock loan assistance and who can qualify under established policies and procedures.

Done at Washington, D.C., this 16th day of July 1962.

ORVILLE L. FREEMAN,
Secretary.

CIVIL AERONAUTICS BOARD

[Docket No. 13292]

ALLEGHENY, BATH, COVINGTON,
 CLIFTON FORGE VIRGINIA AIR-
 PORT COMMITTEE

Notice of Prehearing Conference

In the matter of the petition of Allegheny, Bath, Covington, Clifton Forge Virginia Airport Committee under section 401 of the Federal Aviation Act of 1958, as amended, for scheduled air transportation of persons, property and mail between Hot Springs, Virginia, on the one hand and Roanoke, Virginia, Staunton, Virginia, Charlottesville, Vir-

ginia, and Washington, D.C., on the other and/or for such other relief as may appear required.

Notice is hereby given that a prehearing conference on the above-entitled application is assigned to be held on July 31, 1962, at 10 a.m., e.d.s.t., in Room 911, Universal Building, Connecticut and Florida Avenues NW., Washington, D.C., before Examiner James S. Keith.

Dated at Washington, D.C., July 17, 1962.

[SEAL] FRANCIS W. BROWN,
Chief Examiner.

[Docket No. 13785; Order E-18601]

WESTERN AIR LINES, INC.

Carrier Liability; Order of Investigation and Suspension

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 17th day of July 1962.

By tariff revisions filed June 18, 1962, to become effective July 20, 1962, Western Air Lines, Inc., proposes to add a provision to its tariff rules which states that it shall not be liable for loss or damage if Western " * * * is unable to provide previously confirmed space, with or without notice to the passengers holding tickets on such flight."¹ Western also proposes to amend Rule 7 of the same tariff to change the time the ticket is to be presented for refund from 24 hours to 2 hours prior to scheduled departure time of the flight covered by such ticket.

The Board has decided on its own initiative to investigate the lawfulness of Rule 6. We find that by its terms, the proposed liability rule would absolve the carrier from liability even though damage may be caused by the carrier's own negligent or willful act. A tariff rule containing such blanket immunity appears to be in derogation of the responsibilities of a carrier at common law,² and, consequently, contrary to the public interest.³

Accordingly, pursuant to the provisions of the Federal Aviation Act of 1958, particularly sections 102, 204(a), 403, 404, and 1002 thereof: *It is ordered, That:*

1. An investigation is instituted to determine whether the provisions of Rule 6 on 2d Revised Page 3 of Western Air Lines, Inc., C.A.B. No. 20 are, or will be, unjust or unreasonable, or unjustly discriminatory, or unduly preferential, or unduly prejudicial, or otherwise unlawful, and, if found to be so, to determine and prescribe the lawful provisions.

2. Pending such investigation, hearing, and decision by the Board, Rule 6 on 2nd Revised Page 3 of Western Air Lines, Inc. C.A.B. No. 20 is suspended

¹ Rules 6(A) and 6(B), appearing on 2d Revised Page 3 of Western's C.A.B. No. 20, Local Thrift Air Fare of \$12.95 between Los Angeles and San Francisco.

² U.S. v. Atlantic Mutual Insurance Co., 343 U.S. 236, 239 (1952).

³ Order E-18064, March 1, 1962, page 3 of mimeographed order.

and its use deferred to and including October 17, 1962, unless otherwise ordered by the Board and no changes be made therein during the period of suspension except by order or special permission of the Board.

3. This investigation will be set for hearing before an Examiner of the Board at a time and place hereafter to be designated.

4. A copy of this order shall be filed with the aforesaid tariff and shall be served upon Western Air Lines, Inc., which is hereby made a party to this proceeding.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] HAROLD R. SANDERSON,
Secretary.

[F.R. Doc. 62-7111; Filed, July 19, 1962;

[Docket No. 13203 etc.; Order E-18602]

AMERICAN AIRLINES, INC., ET AL.

Reduced Freight Rates; Order of Investigation

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 17th day of July 1962.

By tariffs marked to become effective July 20, 1962, rate reductions are proposed in various markets on florist and nursery stock; electronic machines; and fruits and vegetables. These proposals have been filed by one or more of the following: American Airlines, Inc. (American), The Flying Tiger Line Inc. (Tiger), Trans World Airlines, Inc. (TWA), and United Air Lines, Inc. (United). No complaint has been filed against these tariffs.

American and United propose to reduce their rates on florist stock to the current levels for nursery stock from Los Angeles to Chicago, Cleveland and New York. The reductions would be effected by replacing higher rated commodity group 379 which covers only nursery stock with lower rated group 380 which includes both nursery¹ and florist stock.

American, TWA and United propose reductions on eastbound rates on electronic machines (group 276) from Los Angeles to Chicago, Cleveland and New York, and from San Francisco to Boston, Chicago and Cleveland. These reductions would range up to 42 percent.

Tiger proposes to reduce its rate on fruits and vegetables (groups 295 and 470) at the 10,000 pound weight break from San Francisco to Philadelphia. This proposal would reduce the current rate by 31 percent.

A number of the proposed eastbound rates on florist stock and electronic machines are either equal to or below the rates of Tiger under investigation in Docket 13203, et al. Upon consideration

¹ Nursery stock as described in group 380 covers a wide range of items and includes many types of nursery stock not listed in the itemized description of the presently effective nursery stock group 379. For these new items the rates now in effect are the general commodity rates which are higher than those of either old nursery stock group 379 or proposed nursery stock group 380.

of the matters of record the Board finds that these rates may be unjust or unreasonable, or unjustly discriminatory, or unduly preferential, or unduly prejudicial, and should be investigated. Since the identical rates of Tiger are now in effect we will not suspend the foregoing proposals, but will order their investigation and consolidate it with the pending investigation in Docket 13203, et al.

The Board has concluded that the rate proposed by Tiger on fruits and vegetables (groups 295 and 470) from San Francisco to Philadelphia may be unjust or unreasonable, or unjustly discriminatory, or unduly preferential, or unduly prejudicial, and should be investigated. This proposal constitutes a sharp reduction from the current rate and results in the low yield of 6.7 cents per ton-mile. Notwithstanding the extent of this reduction, we have concluded that it should not be suspended because it appears to permit a level of rates for the same commodities from San Francisco to Philadelphia which is comparable to those which Tiger has in effect from San Francisco to other major eastern markets.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a) and 1002 thereof: *It is ordered, That:*

1. An investigation is instituted to determine whether the rates and provisions for the commodities and markets described in Appendix A hereto,² including subsequent revisions and reissues thereof, are, or will be, unjust or unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial or otherwise unlawful, and if found to be unlawful, to determine and prescribe lawful rates and provisions.

2. This investigation is consolidated with the proceeding entitled The Flying Tiger Line Rate Cases, Docket 13203, et al.

3. Copies of this order shall be served upon American Airlines, Inc., The Flying Tiger Line Inc., Trans World Airlines, Inc., and United Air Lines, Inc., and upon all other parties in Docket 13203, et al.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] HAROLD R. SANDERSON,
Secretary.

FEDERAL COMMUNICATIONS COMMISSION

[Docket Nos. 14708, 14709; FCC 62-742]

ALFRED RAY FUCHS AND
C. M. ROUSE

Order Designating Applications for Consolidated Hearing on Stated Issues

In re applications of Alfred Ray Fuchs, Grants, New Mexico, requests: 560 kc,

² Filed as part of the original Document.

500 w, Day, Class III, Docket No. 14708, File No. BP-14516; C. M. Rouse, Milan, New Mexico, requests: 560 kc, 500 w, Day, Class III, Docket No. 14709, File No. BP-15049; for construction permits.

At a session of the Federal Communications Commission held at its offices in Washington, D.C., on the 13th day of July 1962,

The Commission having under consideration the above-captioned and described applications;

It appearing that, except as indicated by the issues specified below, each of the instant applicants is legally, technically, financially, and otherwise qualified to construct and operate the instant proposals; and

It further appearing that the following matters are to be considered in connection with the aforementioned issues specified below:

1. The proposals are mutually exclusive.

2. The geographical coordinates specified in the Fuchs proposal do not accurately describe the location of proposed antenna site indicated by this applicant's exhibit. As a result, a question obtains as to whether the proposed site is satisfactory and whether the proposed tower construction would create an aeronautical hazard.

3. The Fuchs application does not provide data to determine the areas within the .5 and 2 mv/m contours and the population data submitted appears to be in error.

It further appearing that, in view of the foregoing, the Commission is unable to make the statutory finding that a grant of the subject applications would serve the public interest, convenience, and necessity, and is of the opinion that the applications must be designated for hearing in a consolidated proceeding on the issues set forth below.

It is ordered, That, pursuant to section 309(e) of the Communications Act of 1934, as amended, the instant applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent order, upon the following issues:

1. To determine the areas and population which would receive primary service from the proposals of Alfred Ray Fuchs and C. M. Rouse and the availability of other primary service to such areas and populations.

2. To determine whether the geographical coordinates specified in the instant application of Alfred Ray Fuchs accurately describe the location of the proposed antenna site.

3. To determine whether the antenna site proposed by Alfred Ray Fuchs is satisfactory in accordance with the provisions of § 1.388(b) of the Commission rules, and, if not, whether circumstances exist which would warrant a waiver of the said section.

4. To determine whether there is a reasonable possibility that the tower height and location proposed by Alfred Ray Fuchs would constitute a menace to air navigation.

5. To determine in the light of section 307(b) of the Communications Act of 1934, as amended, which of the instant proposals would better provide a fair, efficient and equitable distribution of radio service.

6. To determine, in the event it is concluded that a choice between the instant applications should not be based solely on considerations relating to section 307(b), which of the operations proposed in the above-captioned applications would better serve the public interest in the light of the evidence adduced pursuant to the foregoing issues and the record made with respect to the significant differences between the applicants as to:

(a) The background and experience of each having a hearing on the applicants ability to own and operate the proposed station.

(b) The proposals of each of the instant applicants with respect to the management and operation of the proposed station.

(c) The programming service proposed in each of the instant applications.

7. To determine, in the light of the evidence adduced pursuant to the foregoing issues which, if either, of the instant applications should be granted.

It is further ordered, That the Federal Aviation Agency is made a party to the proceeding.

It is further ordered, That, in the event or a grant of either application, the construction permit shall contain the following condition: Pending a final decision in Docket No. 14419 with respect to pre-sunrise operation with daytime facilities, the present provisions of § 3.87 of the Commission rules are not extended to this authorization, and such operation is precluded.

It is further ordered, That, to avail themselves of the opportunity to be heard, the applicants and party respondent herein, pursuant to § 1.140 of the Commission rules, in person or by attorney, shall, within 20 days of the mailing of this order, file with the Commission in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this order.

It is further ordered, That the applicants here shall, pursuant to section 311(a) (2) of the Communications Act of 1934, as amended, and § 1.362(b) of the Commission's rules, give notice of the hearing (either individually or, if feasible, jointly), within the time and in the manner prescribed in such rule, and shall advise the Commission of the publication of such notice as required by § 1.362(g) of the rules.

It is further ordered, That, the issues in the above-captioned proceeding may be enlarged by the Examiner, on his own motion or on petition properly filed by a party to the proceeding, and upon sufficient allegations of fact in support thereof, by the addition of the following issue: To determine whether the funds available to the applicant will give reasonable assurance that the proposals set

forth in the application will be effectuated.

Released: July 17, 1962.

FEDERAL COMMUNICATIONS
COMMISSION,

[Docket No. 14705; FCC 62-740]

GULF SOUTH BROADCASTERS, INC.

Order Designating Application for Hearing on Stated Issues

In re application of Gulf South Broadcasters, Inc., Houma, Louisiana, requests: 1010 kc, 500 w, DA-D, Class II, Docket No. 14705, File No. BP-14380; for construction permit.

At a session of the Federal Communications Commission held at its office in Washington, D.C., on the 13th day of July 1962;

The Commission having under consideration the above-captioned and described application;

It appearing that, except as indicated by the issues specified below, the instant applicant is legally, technically, financially, and otherwise qualified to construct and operate the instant proposal; and

It further appearing that the following matters are to be considered in connection with the aforementioned issues specified below:

A. The proposal of Gulf South Broadcasters, Inc. (BP-14380) causes interference to and receives interference from existing standard broadcast stations:

1. Gulf South Broadcasters' proposal would cause interference to Station WJMR, New Orleans, Louisiana (990 kc, 250 w, Day, Class II), and Station KDLA, DeRidder, Louisiana (1010 kc, 1 kw, D, Class III).

2. The proposal would receive interference from Stations KLDA, supra, WMOX, Meridian, Mississippi ((CP) 1010 kc, 1 kw, 10 kw-LS, DA-2, U, Class II) and WINQ, Tampa, Florida (1010 kc, 50 kw, DA-D, Class II).

It further appearing that, in view of the foregoing, the Commission is unable to make the statutory finding that a grant of the subject application would serve the public interest, convenience, and necessity, and is of the opinion that the application must be designated for hearing on the issues set forth below:

It is ordered, That, pursuant to section 309(e) of the Communications Act of 1934, as amended, the instant application is designated for hearing, at a time and place to be specified in a subsequent Order, upon the following issues:

1. To determine the areas and populations which would receive primary service from Gulf South Broadcasters, Inc., and the availability of other primary service to such areas and populations.

2. To determine whether the instant proposal of Gulf South Broadcasters,

Inc., would cause objectionable interference to Stations WJMR and KDLA or any other existing standard broadcast stations, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other primary service to such areas and populations.

3. To determine whether interference received from Stations KDLA, WMOX and WINQ would affect more than 10 percent of the population within the normally protected primary service area of the instant proposal in contravention of § 3.28(d) (3) of the Commission rules, and, if so, whether circumstances exist which would warrant a waiver of said section.

4. To determine whether overlap of the 2 and 25 mv/m contours would occur between the instant proposal of Gulf South Broadcasters, Inc., and Station WJMR in contravention of § 3.37 of the Commission rules, and, if so, whether circumstances exist which would warrant a waiver of said Section.

5. To determine, in the light of the evidence adduced pursuant to the foregoing issues, whether a grant of the instant application would serve the public interest, convenience and necessity.

It is further ordered, That Supreme Broadcasting Company, Inc., and Sabine Broadcasting Company, licensees of Stations WJMR, New Orleans, Louisiana and KDLA, DeRidder, Louisiana respectively, are made parties to the proceeding.

It is further ordered, That, in the event of a grant of the instant application, the construction permit shall contain the following conditions:

This authorization is subject to compliance by permittee with any applicable procedures of the FAA.

Pending a final decision in Docket No. 14419 with respect to pre-sunrise operation with daytime facilities, the present provisions of § 3.87 of the Commission rules are not extended to this authorization, and such operation is precluded.

It is further ordered, That, to avail itself of the opportunity to be heard, the applicant and parties respondent herein, pursuant to § 1.140 of the Commission rules, in person or by attorney, shall, within 20 days of the mailing of this order, file with the Commission in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this order.

It is further ordered, That the applicant herein shall, pursuant to section 311(a) (2) of the Communications Act of 1934, as amended, and § 1.362(b) of the Commission's rules, give notice of the hearing, within the time and in the manner prescribed in such rule, and shall advise the Commission of the publication of such notice as required by § 1.362(g) of the rules.

Released: July 17, 1962.

[Docket Nos. 14597, 14599; FCC 62-728]

KWEN BROADCASTING CO. AND VIDOR BROADCASTING CO., INC.

Memorandum Opinion and Order Amending Issues

In re applications of Felix Joynt and James Joynt d/b as KWEN Broadcasting Company, Port Arthur, Texas, Docket No. 14597, File No. BP-13627; Vidor Broadcasting Company, Inc., Vidor, Texas, Docket No. 14599, File No. BP-14619; for construction permits.

1. The Commission has before it for consideration a motion to enlarge issues, filed May 7, 1962, by KWEN Broadcasting Company, and pleadings properly filed in response thereto.

2. KWEN seeks by this petition to enlarge the issues beyond those designated for hearing by the Commission in its Order released April 16, 1962 (FCC 62-393, Mimeo No. 17197). It requests the addition of issues as to Vidor Broadcasting Company, Inc. (Vidor), to determine (1) its character qualifications and that of its officers, directors and stockholders; (2) its good faith in specifying its transmitter site; (3) the availability and adequacy of its transmitter site; (4) its good faith in designating Vidor, Texas as the principal community it would serve; (5) its efforts to determine an alternative frequency; and (6) its efforts to ascertain and meet the programming needs of Vidor, Texas.

3. The first of the requested issues reads as follows:

(1) To determine the character qualifications of Vidor Broadcasting Company, Inc., and its officers, directors and stockholders.

In support thereof, petitioner alleges that there are conflicts between the court records of the 1951 tax evasion convictions of Joseph D. Irion, president and 70 percent stockholder of Vidor, and Exhibit II in response to question 10(d) of Section II of Vidor's application, relating to felony convictions. While the exhibit in question indicates two convictions on two counts each of Federal income tax evasion, against two corporations of which Irion was an officer and against him personally, no mention is made in the exhibit, petitioner points out, that the offenses were, according to the information to which Irion pleaded guilty, committed "wilfully and knowingly", but that, instead, such exhibit contains the following statement:

At the time of the alleged offenses, the income tax returns in question were prepared in New Orleans, Louisiana, through the office of the then owner of the majority of the capital stock of the two corporations. After such preparation, the returns were transmitted to J. D. Irion for signature.

Petitioner contends that this implies a mere technical violation on Irion's part, notwithstanding the fact that he was fined \$5,000, given two two-year suspended sentences, and was the only individual affiliated with the two corporations who was individually charged.

4. The Broadcast Bureau, which would add an issue, alleges that the crimes to which Irion pleaded guilty necessarily involved the submission of false information to a government agency, a

"course of conduct which may well indicate a propensity for falsehood", and thus cast serious doubt on applicant's qualifications. However, the Bureau would limit such issue so as not to inquire into the qualifications of the other officers, directors and stockholders of Vidor, other than Irion, since it is not alleged that they were involved in the tax evasion suits nor are there any other allegations made with respect to them in the petition in support of the requested issue. Vidor, however, maintains that the information supplied by the exhibit is all that is required and that it had no obligation to state the elements essential to the crimes since they are implicit in any statement of conviction therefor.

5. We are of the opinion that the disclosure requirements of the application have been technically met by Vidor with regard to the subject exhibit. Neither on the basis of this document nor on the basis of the pleadings before us can any determination be made of the extent of Irion's personal involvement in the tax cases. Since this is a matter of significance in evaluating the character qualifications of the applicant, an issue will be added to permit a record determination of the pertinent facts. However, for the reasons advanced by the Bureau, the scope of the issue will not include an inquiry into the qualifications of any of the officers, directors and stockholders other than Irion.

6. In support of requested Issue 2 as to the availability and adequacy of Vidor's transmitter site and requested Issue 3 as to whether the location of such site was specified in good faith, petitioner alleges that the land in question is owned by Claude B. Keeland, Jr., vice-president of Vidor, and two other partners; that the property rather than being unoccupied as indicated in Vidor's application, has in fact been subdivided into lots, all of which are presently being offered for sale (five houses have already been built thereon); and that a roadway dedicated to public use has been constructed through the very location designated for the transmitter.

7. Vidor denies none of such allegations of fact, but submits affidavits indicating that Keeland did not know at the time of the application that a specific location on the property had been designated for the transmitter. The affidavits go on to state that the owners of the property, of whom none are engineers, subsequently reserved a different location for the transmitter thereon which proved too small, but that, by cancelling an "invalid" option given for one of the lots and withdrawing two other lots from public offering, a plot of sufficient size is now available for rental to Vidor at \$100 per month. Another affidavit by the County Commissioner avers that the County has granted Vidor the right to install its cables and radials under the roadway across the property. Vidor also points out that it could have no motive for intentionally creating such confusion.

8. By Order, released June 12, 1962 (FCC 62M-825, Mimeo No. 21517), the Hearing Examiner allowed an amendment by Vidor to its application effecting such relocation of its transmitter site.

This amendment renders moot the requested issue as to the availability and adequacy of the prior site. However, the aforementioned facts as alleged by petitioner and as explained by Vidor do not in our opinion warrant the addition of an issue as to Vidor's good faith in designating the prior site. While the petitioner's allegations indicate carelessness upon the part of Vidor, they do not provide any basis for an inference that Vidor was not acting in good faith in this connection.

9. Petitioner's request for an issue as to whether Vidor, Texas was designated by Vidor in good faith, in view of the fact that its principals are Beaumont, Texas people and that the proposed signal will meet the service requirements for Beaumont, will be denied as based solely upon surmise, conjecture and speculation. The denial of this requested issue would not, of course, preclude a determination, under the section 307(b) issue in this proceeding, of whether Vidor, Texas is a separate community from Beaumont, Texas. See Kent-Ravenna Broadcasting Co., 22 RR 605 (1961).

10. Petitioner also alleges that Vidor "pirated" its frequency by filing for a more favorably situated community on the last day before petitioner's "cut-off" date, and it therefore requests an issue to determine what efforts Vidor had made to determine the availability of an alternate frequency. The requested issue is unsupported by an factual allegations and will, therefore, be denied. See § 1.141(c) of the rules.

11. Finally, petitioner requests an issue to determine what efforts Vidor has made to ascertain and meet the programming needs of Vidor, Texas, alleging only that nothing in the application (not even its program titles) indicates what the applicant has done in this regard, and, in addition, that its president is not a resident of the designated community. Such negative allegations likewise do not meet the requirements of § 1.141(c) of the rules and therefore this request will also be denied.

Accordingly, it is ordered, This 13th day of July 1962, that the motion to enlarge issues, filed May 7, 1962, by KWEN Broadcasting Company, is, to the extent indicated above, granted, and in all other respects denied; and

It is further ordered, That present Issues 9 and 10 of Commission Order, 27 FR 3865, published April 21, 1962, are renumbered as Issues 10 and 11; and

It is further ordered, That the following issue is added:

9. To determine whether Vidor Broadcasting Company, Inc., in the light of the facts and circumstances surrounding the convictions for tax evasion in 1951 of Joseph D. Irion, has the requisite character qualifications to receive a grant herein.

Released: July 17, 1962.

[Docket Nos. 14706, 14707; FCC 62-741]

QUEEN CITY RADIO STATION AND CANNON BROADCASTING CO.

Order Designating Application for Hearing on Stated Issues

In re applications of Warren E. Angel and Jack T. Farrar d/b as Queen City Radio Station, Tullahoma, Tennessee, requests: 1540kc, 500w, Day, Docket No. 14706, File No. BP-14434; Cannon Broadcasting Company, Woodbury, Tennessee, requests: 1540kc, 500w, Day, Docket No. 14707, File No. BP-15264; for construction permits.

At a session of the Federal Communications Commission held at its offices in Washington, D.C., on the 13th day of July 1962;

The Commission having under consideration the above-captioned and described applications:

It appearing that, except as indicated by the issues specified below, each of the applicants is legally, technically and otherwise qualified to construct and operate the proposed station, that Queen City Radio Station is financially qualified but that, for reasons hereinafter indicated, it cannot be determined that the Cannon Broadcasting Company is financially qualified; and

It further appearing that the following matters are to be considered in connection with the aforementioned issues specified below:

1. The proposals are mutually exclusive.

2. Edwin B. Jordan, vice president and one of the principal stockholders of Cannon Broadcasting Company, is the sole owner of Station WJIG, Tullahoma, Tennessee. Because of the proximity of the said communities, it appears that there will be a substantial overlap of the primary service contours in apparent contravention of § 3.35(a) of the Commission's rules. It is, therefore, appropriate to consider the size, extent, and location of the areas served and to be served; the extent of overlap; the number of persons residing within the overlap area; the classes of stations involved; the extent of other competitive service to the area in question; the extent to which the stations would rely on the same revenue and program sources; the nature of the programming that the stations will present with reference to the particular needs of the communities they are designed to serve; the advertising practices of the stations; the sources of program material and talent for each; and such other factors as will tend to demonstrate whether the overlap involved will be in contravention of § 3.35(a) of the Commission's rules.

3. On the basis of information submitted by Cannon Broadcasting Company, it does not appear that the applicant has adequate cash and/or liquid assets available to finance construction costs and initial operation under prevailing Commission criteria. It appears that about \$18,343 is needed to cover the down payment on equipment, lease of land, building, miscellaneous expenses, and working capital for operating a rea-

sonable time. Financing data shows that only \$15,000 is available, all through the sale and subscription to stock (150 shares at \$100 per share).

It further appearing that, in view of the foregoing, the Commission is unable to make the statutory finding that a grant of the subject applications would serve the public interest, convenience, and necessity, and is of the opinion that the applications must be designated for hearing in a consolidated proceeding on the issues set forth below:

It is ordered, That, pursuant to section 309(e) of the Communications Act of 1934, as amended, the instant applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent Order, upon the following issues:

1. To determine the areas and populations which would receive primary service from the respective proposals of Queen City Radio Station and Cannon Broadcasting Company and the availability of other primary service to such areas and populations.

2. To determine whether a grant of the instant proposal of Cannon Broadcasting Company would be in contravention of the provisions of § 3.35(a) of the Commission rules with respect to multiple ownership of standard broadcast stations.

3. To determine whether Cannon Broadcasting Company is financially qualified to construct and operate its proposed station.

4. To determine, in the light of section 307(b) of the Communications Act of 1934, as amended, which of the instant proposals would better provide a fair, efficient and equitable distribution of radio service.

5. To determine, in the light of the evidence adduced pursuant to the foregoing issues which, if either, of the instant applications should be granted.

It is further ordered, That, in the event of a grant of the application of Queen City Radio Station, the construction permit shall contain a condition that the permittee shall comply with applicable FAA procedures.

It is further ordered, That, to avail themselves of the opportunity to be heard, the applicants, pursuant to § 1.140 of the Commission rules, in person or by attorney, shall, within 20 days of the mailing of this order, file with the Commission in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this order.

It is further ordered, That the applicants herein shall, pursuant to section 311(a)(2) of the Communications Act of 1934, as amended, and § 1.362(b) of the Commission's rules, give notice of the hearing, either individually or, if feasible, jointly, within the time and in the manner prescribed in such rule, and shall advise the Commission of the publication of such notice as required by § 1.362(g) of the rules.

It is further ordered, That, the issues in the above-captioned proceeding may

be enlarged by the Examiner, on his own motion or on petition properly filed by a party to the proceeding, and upon sufficient allegations of fact in support thereof, by the addition of the following issue: To determine whether the funds available to the applicant will give reasonable assurance that the proposals set forth in the application will be effectuated.

Released: July 17, 1962.

[F.R. Doc. 62-7117; Filed, July 19, 1962; 8:55 a.m.]

FEDERAL POWER COMMISSION

[Docket No. RI62-467 etc.]

H. L. HUNT ET AL.

Order Permitting Withdrawal of Sus- pended Increased Rate, Severing Proceeding and Terminating Pro- ceeding as Moot

JULY 13, 1962.

In the matter of H. L. Hunt, et al.,
Docket Nos. RI62-467, et al.; Gas
Gathering Corporation, Docket No.
RI62-479.

Gas Gathering Corporation (Gas
Gathering) on July 11, 1962, submitted
a notice of withdrawal of Supplement
No. 6 to Gas Gathering's FPC Gas Rate
Schedule No. 2, which proposed a peri-
odic increased rate of 25.55¢ per Mcf
for gas sold to Transcontinental Gas
Pipe Line Corporation from Bayou Des
Glaize and Happytown Fields, Iberville
and St. Martin Parishes, Louisiana.
The proposed increased rate of Gas
Gathering was suspended by order issued
June 14, 1962 in Docket No. RI62-479
until December 1, 1962, and until such
further time as it is made effective pur-
suant to the provisions of the Natural
Gas Act. That order also consolidated
the proceeding in Docket No. RI62-479
with the proceedings in H. L. Hunt, et al.,
Docket Nos. RI62-467, et al., and set
such proceedings for immediate hearing
to be held July 16, 1962.

The Commission finds: Good cause
exists for permitting Gas Gathering
Corporation to withdraw the above-
designated suspended supplement, for
severing the proceeding in Docket No.
RI62-479 from the consolidated proceed-
ings in H. L. Hunt, et al., Docket Nos.
RI62-467, et al., and for terminating the
proceeding in Docket No. RI62-479.

The Commission orders:

(A) Gas Gathering Corporation is
hereby permitted to withdraw the above-
designated suspended supplement.

(B) The proceeding in Docket No.
RI62-479 is hereby severed from the con-
solidated proceedings in H. L. Hunt,
et al. Docket Nos. RI62-467, et al.

(C) The proceeding in Docket No.
RI62-479 is hereby terminated as moot.

By the Commission.

JOSEPH H. GUTRIDE,
Secretary.

[F.R. Doc. 62-7072; Filed, July 19, 1962;
8:46 a.m.]

[Docket No. RI62-467 etc.]

H. L. HUNT ET AL.

Order Permitting Withdrawal of Sus- pended Increased Rate, Severing Proceeding and Terminating Pro- ceeding as Moot

JULY 13, 1962.

In the matter of H. L. Hunt, et al.,
Docket Nos. RI62-467, et al.; Union Oil
Company of California, Docket No.
RI62-478.

Union Oil Company of California
(Union) on June 29, 1962 submitted a
notice of withdrawal of Supplement No.
2 to Union's FPC Gas Rate Schedule No.

49 which proposed a periodic increased rate of 25.25¢ per Mcf for gas sold to United Gas Pipe Line Company from Houma Field, Terrebonne Parish, Louisiana. The proposed increased rate of Union was suspended by order issued June 14, 1962 in Docket No. RI62-478 until December 1, 1962, and until such further time as it is made effective pursuant to the provisions of the Natural Gas Act. That order also consolidated the proceeding in Docket No. RI62-478 with the proceedings in H. L. Hunt, et al., Docket Nos. RI62-467, et al., and set such proceedings for immediate hearing to be held July 16, 1962.

The Commission finds: Good cause exists for permitting Union Oil Company of California to withdraw the above-designated suspended supplement, for severing the proceeding in Docket No. RI62-478 from the consolidated proceedings in H. L. Hunt, et al., Docket Nos. RI62-467, et al., and for terminating the proceeding in Docket No. RI62-478.

The Commission orders:

(A) Union Oil Company of California is hereby permitted to withdraw the above-designated suspended supplement.

(B) The proceeding in Docket No. RI62-478 is hereby severed from the consolidated proceedings in H. L. Hunt, et al., Docket Nos. RI62-467, et al.

(C) The proceeding in Docket No. RI62-478 is hereby terminated as moot.

By the Commission.

JOSEPH H. GUTRIDE,
Secretary.

FEDERAL RESERVE SYSTEM

DAUPHIN DEPOSIT TRUST CO.

Order Denying Application for Approval of Merger of Banks

In the matter of the application of Dauphin Deposit Trust Company for approval of merger with The First National Bank of Mount Holly Springs.

There has come before the Board of Governors, pursuant to the Bank Merger Act of 1960 (12 U.S.C. 1828(c)), an application by Dauphin Deposit Trust Company, Harrisburg, Pennsylvania, a member bank of the Federal Reserve System, for the Board's prior approval of the merger of The First National Bank of Mount Holly Springs, Mount Holly Springs, Pennsylvania, with and into Dauphin Deposit Trust Company, under the charter and title of the latter. Notice of the proposed merger, in form approved by the Board, was published pursuant to said Act.

Upon consideration of all relevant materials in the light of the factors set forth in said Act, including reports furnished by the Comptroller of the Currency, the Federal Deposit Insurance Corporation, and the Department of Justice on the competitive factors involved in the proposed merger:

It is hereby ordered, For the reasons set forth in the Board's Statement¹ of this date, that the said application be and hereby is denied.

Dated at Washington, D.C., this 13th day of July 1962.

By order of the Board of Governors.

[SEAL] MERRITT SHERMAN,
Secretary.

THE STATE BANK OF SALEM

Order Approving Acquisition of Bank's Assets

In the matter of the application of The State Bank of Salem for approval of acquisition of assets of State Bank of Hardinsburg.

There has come before the Board of Governors, pursuant to the Bank Merger Act of 1960 (12 U.S.C. 1828(c)), an application by The State Bank of Salem, Salem, Indiana, a member bank of the Federal Reserve System, for the Board's prior consent to its acquisition of the assets and assumption of the liabilities of the State Bank of Hardinsburg, Hardinsburg, Indiana, and, as an incident thereto, The State Bank of Salem has applied, under section 9 of the Federal Reserve Act (12 U.S.C. 321), for the Board's prior approval of the establishment of a branch by that bank at the location of the State Bank of Hardinsburg. Notice of the proposed acquisition of assets and assumption of liabilities, in form approved by the Board of Governors, has been published.

Upon consideration of all relevant material in the light of the factors set forth in said Bank Merger Act, including reports furnished by the Comptroller of the Currency, the Federal Deposit Insurance Corporation, and the Department of Justice on the competitive factors involved in the proposed transaction:

It is hereby ordered, For the reasons set forth in the Board's Statement² of this date, that said applications be and hereby are approved, provided that said acquisition of assets and assumption of liabilities and establishment of said branch shall not be consummated (a) within seven calendar days following the date of this Order, or (b) later than three months after said date.

¹ Filed as part of the original document. Copies available upon request to the Board of Governors of the Federal Reserve System, Washington 25, D.C., or to the Federal Reserve Bank of Philadelphia. Dissenting statement of Governor Mills also filed as part of the original document and available upon request.

² Filed as part of the original document. Copies available upon request to the Board of Governors of the Federal Reserve System, Washington 25, D.C., or to the Federal Reserve Bank of St. Louis.

Dated at Washington, D.C., this 13th day of July 1962.

By order of the Board of Governors.

[SEAL] MERRITT SHERMAN,
Secretary.

SECURITIES AND EXCHANGE COMMISSION

[File No. 812-1507]

INVESTORS GROUP CANADIAN FUND, LTD.

Notice of Filing of Application for Order Permitting Exercise Outside U.S. of Rights Issued to Applicant

JULY 13, 1962.

Notice is hereby given that Investors Group Canadian Fund Ltd. (320 Bay St., Toronto, Ontario, Canada) ("Applicant"), a registered open-end investment company organized under the Companies Act of the Dominion of Canada, has filed an application for an order under section 7(d) of the Investment Company Act of 1940 ("1940 Act") permitting Applicant through its custodian or its custodian's agent to exercise outside the United States rights issued to it as a shareholder in other companies for the purchase of securities, subject to conditions hereinafter set forth, and authorizing the Applicant to take the necessary action in connection with such transactions as hereinafter described. All interested persons are referred to the application on file with the Commission for a complete statement of the facts which are summarized below.

On March 30, 1955, the Commission issued an order pursuant to the provisions of section 7(d) of the 1940 Act and Rule 7d-1 promulgated thereunder, permitting Applicant to register as an investment company under the 1940 Act, and to make a public offering of its securities in the United States by use of the mails and means or instrumentalities of interstate commerce (Investment Company Act Release No. 2124). Said application stated, among other things, that so long as Applicant is registered under the 1940 Act, Applicant's Letters Patent and By-Laws, taken together, will contain, in substance, the provisions set forth in subparagraph (8) of paragraph (b) of Rule 7d-1 under the 1940 Act, and that neither will be amended in any manner inconsistent therewith unless authorized by the Commission. Said paragraph and Applicant's By-Laws and Custodian Agreement require that the custodian of the Applicant shall maintain in its sole custody in the United States all of Applicant's securities and cash, other than limited amounts necessary for immediate cash requirements, and that the custodian shall consummate all purchases and sales of securities by the Applicant, other than purchases and sales on an

established securities exchange, through the delivery of securities and receipt of cash, or vice versa, within the United States.

The application granted by the Commission also stated that contracts of the Applicant, other than those executed on an established securities exchange which do not involve affiliated persons, will provide that (1) such contracts irrespective of the place of their execution or performance will be performed in accordance with the requirements of the 1940 Act, the Securities Act of 1933, and the Securities Exchange Act of 1934, as amended, if the subject matter of such contracts is within the purview of such Acts; and (2) in effecting the purchase or sale of assets the parties thereto will utilize the United States mails or means of interstate commerce. Applicant believes that the type of transactions contemplated by this application are not within the purview of the Securities Act or the Securities Exchange Act and that if they are within the purview of the 1940 Act they are not of a type that would be inconsistent with the objectives of that Act.

Applicant, from time to time, as a shareholder of various Canadian companies and other companies located outside the United States has been issued rights entitling it to purchase additional shares of such companies. Applicant has not been able to exercise such rights since it is required by the restrictions referred to above to exercise such rights in the United States. According to the application this is not feasible, and when the Applicant has desired to maintain its relative investment position in portfolio companies which are issuing rights, it has been necessary to arrange with brokers for the sale of the rights and the purchase of an amount of stock roughly equivalent to the amount covered by the rights on stock exchanges where the securities are traded. Applicant states that this procedure imposes an unnecessary burden upon its shareholders since, among other things, it requires the payment of commissions both on the sale of the rights and the purchase of the stock which could be entirely avoided were it possible to exercise the rights in the usual manner.

Accordingly, it is requested that an order be issued by the Commission under section 7(d) of the 1940 Act (1) permitting Applicant through its custodian or its custodian's agent to exercise outside the United States rights issued to it as a shareholder in other companies for the purchase of securities provided that (a) the rights so exercised shall be offered or issued to Applicant as a security holder in another company on the same basis as all other holders of the class or classes of securities of such other company to whom such rights are offered or issued, and (b) the rights so exercised shall not exceed 10 percent of the total amount of such rights so offered or issued, and (c) the securities purchased pursuant to such exercise, or securities of the same class, are listed on an established securities exchange, ap-

plication has been made to such exchange for the listing thereon of such securities, or it has been publicly announced that application will be made to such exchange for listing thereon of such securities and Applicant has no reason to believe that such listing will not be effected; and (2) authorizing Applicant to take the necessary action in connection therewith to amend its By-Laws and its Custodian Agreement and to omit from any contracts relating to the exercise of such rights the provisions set forth in the original application under which the Applicant registered as an investment company under the 1940 Act, as described above.

Section 7(d) of the Act, among other things, authorizes the Commission, upon application, to issue a conditional or unconditional order permitting a foreign investment company to register under the Act and to make a public offering of its securities by use of the mails and means or instrumentalities of interstate commerce, if the Commission finds that, by reason of special circumstances or arrangements, it is both legally and practically feasible effectively to enforce the provisions of the Act against such company and that the issuance of such order is otherwise consistent with the public interest and the protection of investors. Since the proposals herein would represent a modification of the agreements and undertakings upon the basis of which the Commission granted the application for Applicant's registration, such modification would require approval pursuant to the provisions of section 7(d) of the Act.

Notice is further given that any interested person may, not later than August 1, 1962, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D.C. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon applicant. Proof of such service (by affidavit or in case of an attorney-at-law by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule O-5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the showing contained in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion.

By the Commission.

[File No. 812-1501]

MADISON FUND, INC., AND INTERNATIONAL MINING CORP.

Notice of Filing of Application for an Order Exempting Transactions Between Affiliates

JULY 13, 1962.

Notice is hereby given that Madison Fund, Inc. ("Madison"), 1400 Delaware Trust Bldg., Wilmington, Delaware, a Delaware corporation, and a closed-end, diversified investment company, registered under the Investment Company Act of 1940 ("Act"), and International Mining Corporation ("International"), 535 Fifth Ave., New York 17, N.Y., also a Delaware corporation and an affiliate of Madison, have filed a joint application pursuant to section 17(b) of the Act for an order of the Commission exempting from the provisions of section 17(a) of the Act the proposed acquisition by International of 50,100 shares of the capital stock of International now owned by Madison for a consideration of \$30.25 per share, the closing price of International's stock on the New York Stock Exchange on April 3, 1962, or a total of \$1,515,525.00. No commissions or finders fees are to be payable in connection with the sale. All interested persons are referred to the application on file with the Commission, summarized below, for a complete statement thereof.

International is primarily engaged, through wholly-owned subsidiaries, in the so-called extractive resources industries including the operation of gas and oil properties and in the business of ore and general cargo handling. In an opinion and Order issued on May 1, 1959 (Investment Company Act Release No. 2872), the Securities and Exchange Commission found that International was primarily engaged in a business or businesses other than that of an investment company.

International has one class of stock, of a par value of \$5.00 per share, common stock of which 992,042½ shares are authorized, and 570,000 shares were outstanding on April 13, 1962. Madison purchased 50,000 shares of the stock of International (then known as National Department Stores Corporation) in 1955 at a price of \$23.00 per share from a corporation not affiliated with Madison. In 1961 Madison acquired an additional 100 shares as part of a transaction in which it acquired approximately \$950,000 of assets from a corporation not affiliated with Madison. The portion of the purchase price attributed to these 100 shares was the then market value of \$30.375. Madison's holdings of 50,100 shares constitute 8.78 percent of the outstanding voting securities of International. International and Madison are, therefore, affiliated persons within the meaning of section 2(a)(3) of the Act.

South American Gold & Platinum Company ("South American"), a Delaware corporation engaged in the extractive resources industries, owns 300,100 shares of the common stock of International (52.58 percent). In addition, South American has six designees on In-

ternational's Board of eight directors. As a result, South American controls International.

Madison presently owns 98,000 shares (less than 5 percent) of the common stock of South American, the latter's only outstanding class of stock. Both Edward A. Merkle, President of Madison, and Lewis B. Harder, President of South American, are directors of Madison, South American and International, and are two of South American's designees on International's Board of Directors. Harder is also Chairman of the Board of International.

International's stock is traded on the New York Stock Exchange and during 1961 the price ranged from a low of 24½ to a high of 36¼. During the first six months of 1962 the price ranged from a low of 24 to a high of 32¾.

During 1961 and the first three months of 1962 South American, directly or through subsidiaries, purchased 74,839 shares of International at prices ranging from \$24.50 to \$31.86. The average price per share was \$27.66. Included in the 74,839 shares purchased are 10,000 shares purchased off the exchange at a price of \$29 per share and 10,000 shares purchased off the exchange at a price of \$32 per share.

International has pursued a policy of buying its own shares from time to time when it deemed the price appropriate and funds were available. During 1961 and through April 13, 1962 International purchased 29,600 shares at an average price per share of \$31.90. Included in the total purchase of 29,600 shares are 2,000 shares purchased off the exchange on December 12, 1961 at a price of \$32.75 per share.

On the basis of the number of shares outstanding at the end of the year, International's net income for the year ended January 31, 1961 was \$2.21 per share. For the year ended January 31, 1962 International had a net loss of 3 cents per share, before a special credit of \$12.01 per share, representing the profit realized on the sale of a large block of Placer Development, Ltd., common stock, a company engaged in mining ore which until this sale was controlled by International. The proceeds received from the sale of such stock were used, in substantial part, to retire outstanding debt. The decline in earnings from operations in the year ended January 31, 1962, reflects adverse conditions with respect to International's wholly-owned ore and cargo handling subsidiary, Canton Company of Baltimore.

As of January 31, 1962, International's consolidated balance sheet reflected current assets of \$8,969,244 (including marketable securities of \$5,192,525 at cost), other assets of \$801,816, interests in oil and gas properties of \$6,733,390 and net fixed assets consisting of land, buildings, cranes and railway properties of \$12,416,173. Stockholders' aggregate equity as of that date was \$20,467,449. The book value per share amounted to \$35.55 and if adjustments were made to reflect marketable securities at their market value of \$9,140,000 rather than cost, the book value would amount to approximately \$42.40 per share.

Madison has determined to sell its holdings of International's stock primarily to enable Madison to purchase other securities which it considers to be more suitable in light of its classification as a diversified investment company.

Section 17(a) of the Act prohibits an affiliated person of a registered investment company, or an affiliated person of such a person from selling to or purchasing from such registered investment company or any company controlled by such registered investment company, any security or other property, subject to certain exceptions not applicable here, unless the Commission upon application pursuant to section 17(b) grants an exemption from the provisions of section 17(a), after finding that the terms of the proposed transaction, including the consideration to be paid, are reasonable and fair and do not involve overreaching on the part of any person concerned, that the proposed transaction is consistent with the policy of each registered investment company concerned, as recited in its registration statement and reports filed under the Act, and is consistent with general purposes of the Act.

Notice is further given that any interested person may, not later than August 2, 1962, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing hereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D.C. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon applicant. Proof of such service (by affidavit or in case of an attorney-at-law by certificate) should be filed contemporaneously with the request. At any time after said date, as provided by Rule 0-5 of the Rules and Regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the showing contained in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion.

By the Commission.

DEPARTMENT OF LABOR

Wage and Hour Division

CERTIFICATES AUTHORIZING EMPLOYMENT OF LEARNERS AT SPECIAL MINIMUM RATES

Notice is hereby given that pursuant to section 14 of the Fair Labor Standards Act of 1938 (52 Stat. 1060, as amended,

29 U.S.C. 201 et seq.), the regulations on employment of learners (29 CFR Part 522), and Administrative Order No. 561 (27 F.R. 4001) the firms listed in this notice have been issued special certificates authorizing the employment of learners at hourly wage rates lower than the minimum wage rates otherwise applicable under Section 6 of the Act. The effective and expiration dates, occupations, wage rates, number or proportion of learners, learning periods, and the principal product manufactured by the employer for certificates issued under general learner regulations (§§ 522.1 to 522.9) are as indicated below. Conditions provided in certificates issued under special industry regulations are as established in these regulations.

Apparel Industry Learner Regulations (20 CFR 522.1 to 522.9, as amended, and 29 CFR 522.20 to 522.25, as amended).

The following learner certificates were issued authorizing the employment of 10 percent of the total number of factory production workers for normal labor turnover purposes. The effective and expiration dates are indicated.

Blue Bell, Inc., Madison, Va.; effective 7-14-62 to 7-13-63 (children's and boys' play clothing—boxer longs, overalls).

Burro Manufacturing Co., 105 East Markham, Little Rock, Ark.; effective 7-18-62 to 7-17-63 (men's work clothes).

Dillon Manufacturing Co., Dillon, S.C.; effective 7-9-62 to 7-8-63 (ladies' dresses).

Gritton Clothing Co., Highway 118 East, Gritton, N.C.; effective 7-14-62 to 7-13-63 (boys', men's, and girls' parkas).

Holston-Harwood Manufacturing Corp., Marion, Va.; effective 7-2-62 to 7-1-63 (men's and boys' pajamas).

Industrial Garment Manufacturing Co., Route 2, Palestine, Tex.; effective 7-10-62 to 7-9-63 (men's cotton work pants).

J. B. C. Co. of Madera, Madera, Pa.; effective 7-5-62 to 7-4-63 (men's and boys' trousers).

F. Jacobson & Sons, Inc., Charlottesville, Va.; effective 7-5-62 to 7-4-63 (pajamas).

Jamestown Shirt Corp., Jamestown, Tenn.; effective 7-3-62 to 7-2-63 (men's and boys' sport shirts).

Lanier Manufacturing Co., 112, Russell Street, Easley, S.C.; effective 7-19-62 to 7-18-63 (men's sport shirts).

Leisure Lads, Inc., Hedrick & Brenner Streets, Salisbury, N.C.; effective 7-5-62 to 7-4-63 (children's sport suits, outerwear).

Loungeray, Inc., Canal Street, Hollidaysburg, Pa.; effective 7-9-62 to 7-8-63 (ladies' robes and loungewear).

Pioneer Manufacturing Co., Inc., 83 Waller Street, Wilkes-Barre, Pa.; effective 7-15-62 to 7-14-63 (children's dresses).

Princess Peggy, Inc., 1001 South Adams Street, Peoria, Ill.; effective 7-7-62 to 7-6-63 (women's cotton dresses).

Rowan Industries, Inc., Rockwell, N.C.; effective 7-9-62 to 7-8-63 (ladies' pajamas).

Sullcraft Manufacturing Co., Dushore, Pa.; effective 7-8-62 to 7-7-63 (boys' pajamas).

Williamson-Dickie Manufacturing Co., Eagle Pass, Tex.; effective 7-5-62 to 7-4-63 (denim dungarees and jackets).

The following learner certificates were issued for normal labor turnover purposes. The effective and expiration dates and the number of learners authorized are indicated.

Excelsior Frocks, Inc., 396 Academy Street, Archbald, Pa.; effective 7-9-62 to 7-8-63; 10 learners (ladies' dresses).

Isaacson-Carrico Manufacturing, 210 East First, El Campo, Tex.; effective 7-11-62 to 7-10-63; 10 learners (girdles and underwear). Kreditor Manufacturing Co., Inc., Hubbard, Tex.; effective 7-3-62 to 7-2-63; 10 learners (ladies' dresses).

Rene-Lee Manufacturing Co., 143 East Center Street, Nesquehoning, Pa.; effective 7-6-62 to 7-5-63; five learners (women's and children's shirtwaist dresses).

Tunxis Sportswear Manufacturing Co., Inc., Laurel Togs Inc., 82 Union Street, New London, Conn.; effective 7-9-62 to 7-8-63; six learners (girls' carcoats).

West Union Garment Co., Inc., West Union, W. Va.; effective 7-11-62 to 7-10-63; 10 learners (brassieres, sun halters).

The following learner certificates were issued for plant expansion purposes. The effective and expiration dates and the number of learners authorized are indicated.

Alexandria Industrial Garment Manufacturing Co., Inc., Alexandria, Tenn.; effective 7-9-62 to 1-8-63; 10 learners (men's work shirts).

Bishopville Manufacturing Co., Gregg Street, Bishopville, S.C.; effective 7-2-62 to 1-1-63; 20 learners (women's wash dresses).

Elleen Hope, Inc., Liverpool, Pa.; effective 7-9-62 to 1-8-63; 10 learners (women's dresses).

Guntown Slacks, Inc., Guntown, Miss.; effective 7-9-62 to 1-8-63; 170 learners (men's dress and play pants and shorts).

The Kaydette Corp., Berwick, Pa.; effective 7-9-62 to 1-8-63; 25 learners (ladies' slips).

Kreditor Manufacturing Co., Inc., Hubbard, Tex.; effective 7-3-62 to 1-2-63; 10 learners (ladies' dresses).

Paducah Shirt Co., Inc., 1117 North Eighth Street, Paducah, Ky.; effective 7-2-62 to 1-1-63; 30 learners (boys' shirts).

Glove Industry Learner Regulations (29 CFR 522.1 to 522.9, as amended, and 29 CFR 522.60 to 522.65, as amended).

The Glove Corp., Heber Springs, Ark.; effective 7-7-62 to 7-6-63; 10 learners for normal labor turnover purposes (leather and cotton work gloves).

Hosiery Industry Learner Regulations (29 CFR 522.1 to 522.9, as amended, and 29 CFR 522.40 to 522.43, as amended).

Holt Hosiery Mills, Inc., Finishing Division, 733 Koury Drive, Burlington, N.C.; effective 7-9-62 to 7-8-63; 5 percent of the total number of factory production workers for normal labor turnover purposes (finishers of ladies' full-fashioned and seamless hosiery).

Holt Hosiery Mills, Inc., Finishing Division, 733 Koury Drive, Burlington, N.C.; effective 7-9-62 to 1-8-63; 30 learners for plant expansion purposes (finishers of ladies' full-fashioned and seamless hosiery).

Magnet Mills, Inc., Cullom Street, Clinton, Tenn.; effective 7-9-62 to 1-8-63; 30 learners for plant expansion purposes (ladies' seamless and full-fashioned hosiery).

Unique Knitting Co., Acworth, Ga.; effective 7-1-62 to 6-30-63; 5 percent of the total number of factory production workers for normal labor turnover purposes (seamless).

Each learner certificate has been issued upon the representations of the employer which, among other things, were that employment of learners at special minimum rates is necessary in order to prevent curtailment of opportunities for employment, and that experienced workers for the learner occupations are not available. The certificates may be an-

nulled or withdrawn, as indicated therein, in the manner provided in Part 528 of Title 29 of the Code of Federal Regulations. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within fifteen days after publication of this notice in the FEDERAL REGISTER pursuant to the provisions of 29 CFR 522.9.

Signed at Washington, D.C., this 13th day of July 1962.

ROBERT G. GRONEWALD,
Authorized Representative
of the Administrator.

INTERSTATE COMMERCE COMMISSION

[Notice 665]

MOTOR CARRIER TRANSFER PROCEEDINGS

JULY 17, 1962.

Synopses of orders entered pursuant to section 212(b) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 179), appear below:

As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings within 20 days from the date of publication of this notice. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC 64563. By order of July 12, 1962, the Transfer Board approved the transfer to Edwards Trucking, Inc., Main Street, Hemingway, S.C., of the operating rights in Certificate No. MC 11842, issued September 17, 1953, to Chafee Jones, Jr., doing business as Jones Truck Line, P.O. Box 181, Darlington, S.C., authorizing the transportation, over irregular routes, of veneer and plywood, groceries, arsenic of lead and calcium arsenate, fertilizer, and baled cotton, from and to specified points, varying with the commodity transported, in South Carolina, Georgia, North Carolina, Virginia, New Jersey, and Maryland.

No. MC-FC 65059. By order of July 13, 1962, the Transfer Board approved the transfer to Ward Badder, doing business as Blue Springs Truck Line, P.O. Box 216, Blue Springs, Mo., of Certificate in No. MC 9003, issued March 8, 1961, to Raymond Haller, doing business as Blue Springs Truck Line, Route No. 1, Box 154, Blue Springs, Mo., authorizing the transportation of: Salt, from Kanopolis, Kans., to Blue Springs, Mo., serving no intermediate points; ground feed, tankage, grain, seed, farm machinery and fertilizer, from Kansas City, Kans.,

to Blue Springs, Mo., serving all intermediate and offroute points within 10 miles of Blue Springs, Mo., hardware and commodities incidental to the conduct of retail hardware stores, between Blue Springs, Mo., and McCracken, Kans., serving no intermediate points; general commodities, excluding household goods, commodities in bulk, and other specified commodities, between Blue Springs, Mo., and Kansas City, Kans., serving the intermediate and off-route point of Lake Tapawingo, Mo., and for the transportation of livestock, only, points within 10 miles of Blue Springs, Mo., from Blue Springs over highway 40 to Kansas City and return over the same route; livestock, over irregular routes, from points in Wisconsin to Blue Springs, Mo., and points within 10 miles of Blue Springs; and household goods, as defined by the Commission between Lake Tapawingo, Mo., on the one hand, and, on the other, points in Johnson and Wyandotte Counties, Kans.

No. MC-FC 65120. By order of July 13, 1962, the Transfer Board approved the transfer to Marino Micheli and Raymond Micheli, a partnership, doing business as Santi Bros. & Co., 2427 Barker Avenue, New York, N.Y., of Certificate No. MC 2429, issued March 19, 1958, to Marino Micheli, Raymond Micheli and Nello Micheli, a partnership, doing business as Santi Bros. & Co., 2427 Barker Avenue, New York, N.Y., authorizing the transportation of: Household goods, as defined by the Commission, between New York, N.Y., on the one hand, and, on the other, Baltimore, Md., Washington, D.C., and Providence, R.I., and points in New York, New Jersey, Connecticut, and that part of Pennsylvania east of the Susquehanna River.

No. MC-FC 65135. By order of July 13, 1962, the Transfer Board approved the transfer to Mark Foltz, Jerome Foltz, and Edward Foltz, a partnership, doing business as Foltz Transfer, R.R. No. 3, Humphrey, Nebr., of Certificate No. MC 44852, issued January 28, 1941, to Edward H. Foltz, R.R. No. 3, Humphrey, Nebr., authorizing the transportation of: Livestock, grain, and household goods, over irregular routes, between Humphrey, Nebr., and points within 35 miles thereof, on the one hand, and, on the other, points in Iowa; and seeds, truck bodies, agricultural implements, and petroleum products, in containers, over irregular routes, between points in the above-specified Nebraska territory, on the one hand, and, on the other, Council Bluffs, Iowa.

No. MC-FC 65162. By order of July 13, 1962, the Transfer Board approved the transfer to S. Rodmond Smith, Jr., Odessa, Del., of Certificate Nos. MC 102115 and MC 102115 Sub-4, issued December 10, 1956, and March 27, 1951, respectively, to G. Clarence Reihm, Middletown, Del., authorizing the transportation of: Fertilizer, from Baltimore, Md., and Middletown, Del., to points in New Castle County, Del., and Cecil and Kent Counties, Md., and feeds, seeds, and farm implements, exclusive of ma-

chinery, from Baltimore, Md., to Middletown, Del., and from Middletown to points in Cecil and Kent Counties, Md., and radio cabinets, from Middletown, Del., to Sunbury, Pa., and Bridgeport, Conn., kitchen cabinets, from Middletown to Philadelphia, Pa., Baltimore, Md., and Washington, D.C., lumber from Philadelphia, to Middletown and points within 20 miles thereof, and from Baltimore to points within 20 miles of Middletown, excluding Middletown; sugar, from Philadelphia to Middletown and points within 20 miles thereof; lime, from Cedar Hollow, Pa., to Middletown, and points within 20 miles thereof; empty cans, in carton, from Baltimore, to Middletown and points within 20 miles thereof, and canned goods, from Massey, Md., to Middletown, Del. Thomas G. Hughes, 350 Delaware Building, Ninth and Market Streets, Wilmington 1, Del., attorney for applicant.

HOUSING AND HOME FINANCE AGENCY

Office of the Administrator

FEDERAL HOUSING COMMISSIONER AND PUBLIC HOUSING COMMISSIONER

Redelegation of Authority To Use Title III of Federal Property and Administrative Services Act of 1949

The Federal Housing Commissioner and the Public Housing Commissioner each is hereby authorized:

1. To utilize the provisions of Title III of the Federal Property and Administrative Services Act of 1949 (63 Stat. 393), as amended, 41 U.S.C. 251, when procuring property and services, except the non-delegable authority to make the determinations or decisions specified in paragraphs (12) and (13) of section 302(c) and the authority under paragraph (11) of section 302(c) with respect to contracts which will require the ex-

penditure of more than \$25,000. This authority shall be exercised in accordance with applicable limitations and requirements of the Act, particularly sections 304 and 307, and policies, procedures, limitations, controls, and reporting requirements prescribed by the General Services Administration.

2. To redelegate to any officer or employee under his jurisdiction any of the authority herein delegated except that under paragraph (11) of section 302(c).

This redelegation supersedes the redelegation effective March 10, 1959 (24 F.R. 5434, July 3, 1959).

(Delegation of Authority No. 410 from Administrator of General Services to Heads of Executive Agencies effective March 26, 1962, 27 F.R. 3017, March 30, 1962.)

Effective as of March 26, 1962.

[SEAL] ROBERT C. WEAVER,
Housing and
Home Finance Administrator.
